Hairy Ape completed in 1921 as an illustration of the mastery he had achieved in dramatizing key concepts of philosophy. Analyses of one act and full length plays from 1913 to 1921 reveal the influence of the three philosophers and establish that O'Neill was fundamentally a philosophic playwright even from his earliest dramatic sketches. Specific concepts from Schopenhauer, Stirner and Nietzsche went into O'Neill's shaping of character arcs, dramatic circumstances, symbology and theme. Among them are Schopenhauer's concept of will and representation, Stirner's notion of possession and Nietzsche's principle of the Apollonian/Dionysian duality. These ideas were foundational to O'Neill's construction of tragic irony apparent in his early period plays. The critical concepts of these three philosophers are the major pathways in this study. However, such an approach inevitably reveals other layers of spiritual influence such as Catholicism and Eastern philosophy which are touched on in these analyses. This book is a much needed introduction to philosophic concepts in Eugene O'Neill's early work and would be of great interest to students and scholars in theatre studies and philosophy. **A Study Guide for Eugene**
