The Most Disreputable Trade Thomas F. Bonnell, 2008-04-17 A publishing phenomenon began in Glasgow in 1765 Uniform pocket editions of the English Poets printed by Robert and Andrew Foulis formed the first link in a chain of literary products that has grown ever since as we see from series like Penguin Classics and Oxford World Classics Bonnell explores the origins of this phenomenon analysing more than a dozen multi volume poetry collections that sprang from the British press over the next half century Why such collections flourished so quickly who published them what forms they assumed how they were marketed and advertised how they initiated their readers into the rites of mass market consumerism and what role they played in the construction of a national literature are all questions central to the study The collections played out against an epic battle over copyright law and involved fierce contention for market share in the classics among rival publishers It brought despair to the most powerful of London printers William Strahan who prophesied that competition of this nature would ruin bookselling turning it into the most pitiful beggarly precarious unprofitable and disreputable Trade in Britain Samuel Johnson s *Lives of the Poets* were part of such a collection dubbed Johnson s Poets The third edition of this collection published in 1810 brought the national project to its high water mark it contained 129 poets plus extensive translations from the Greek and Roman classics By this point all the features that characterize modern series of vernacular classics had been established and never since has such an ambitious expression of the poetic canon been repeated as Bonnell shows by peering forward into the nineteenth century and beyond Based on work with archival materials newspapers handbills prospectuses and above all the books themselves Bonnell s findings shed light on all aspects of the book trade Valuable bibliographical data is presented regarding every collection forming an indispensable resource for future work on the history of the English poetry canon

The Music in African American Fiction Robert H. Cataliotti, 2019-09-16 This is the first comprehensive historical analysis of how black music and musicians have been represented in the fiction of African American writers It also examines how music and musicians in fiction have exemplified the sensibilities of African Americans

and provided paradigms for an African American literary tradition The fictional representation of African American music by black authors is traced from the nineteenth century William Wells Brown Martin Delany Pauline E Hopkins Paul Laurence Dunbar through the early twentieth century and the Harlem Renaissance James Weldon Johnson Langston Hughes Claude McKay Zora Neale Hurston to the 1940s and 50s Richard Wright Ann Petry James Baldwin Ralph Ellison and the 1960s and the Black Arts Movement Margaret Walker William Melvin Kelley Leroi Jones Amiri Baraka Henry Dumas In the century between Brown and Baraka the representation of music in black fiction went through a dramatic metamorphosis Music occupied a representative role in African American culture from which writers drew ideas and inspiration The music provided a way out of a limited situation by offering a viable option to the strictures of racism Individuals who overcome these limitations then become role models in the struggle toward equality African American musical forms for both artist and audience also offered a way of looking at the world survival and resistance The black musician became a ritual leader This study delineates how black writers have captured the spirit of the music that played such a pivotal role in African American culture Ph D dissertation State University of New York at Stony Brook 1993 revised with new preface and index

Beyond the Broker State Jonathan J. Bean, 2002-03-01 Focusing on anti chain store legislation beginning in the 1930s and on the establishment of federal small business agencies in the 1940s and 1950s Jonathan Bean analyzes public policy toward small business Beyond the Broker State challenges the long accepted definition of politics as the interplay of organized interest groups mediated by a broker state

God of the Oppressed James H. Cone, 1997-01-01 In his reflections on God Jesus suffering and liberation James H Cone relates the gospel message to the experience of the black community But a wider theme of the book is the role that social and historical context plays in framing the questions we address to God as well as the mode of the answers provided

Conservatives Without Conscience John W. Dean, 2006-07-11 On the heels of his national bestseller *Worse Than Watergate* John Dean takes a critical look at the current conservative movement In *Conservatives Without Conscience* John Dean places the conservative movement's inner circle of leaders in the Republican Party under scrutiny Dean finds their policies and mind set to be fundamentally authoritarian and as such a danger to democracy By examining the legacies of such old line conservatives as J Edgar Hoover Spiro Agnew and Phyllis Schlafly and of such current figures as Dick Cheney Newt Gingrich and leaders of the Religious Right Dean presents an alarming record of abuses of power His trenchant analysis of how conservatism has lost its bearings serves as a chilling warning and a stirring inspiration to safeguard constitutional principles
