Forth and Back Cintia Santana, 2013-06-27 Forth and Back broadens the scope of Hispanic trans Atlantic studies by shifting its focus to Spain's trans literary exchange with the United States at the end of the twentieth century Santana analyzes the translation boom of U S literature that marked literary production in Spain after Franco's death and the central position that U S writing came to occupy within the Spanish literary system Santana examines the economic and literary motives that underlay the phenomenon as well as the particular socio cultural appeal that U S dirty realist writers which in Spain included authors as diverse as Charles Bukowski Raymond Carver and Bret Easton Ellis held for Spaniards in the 1980s Santana also studies the subsequent appropriation of this writing by a polemic group of young Spanish writers in the 1990s who self consciously and insistently associated themselves with the U S Forth and Back illustrates that literary movements do not unilaterally spread rather those that flourish take root in fertile soil and are transformed in their travel by the desires creative choices and practical constraints of their differing producers and consumers It is precisely in the crossing of these currents that plots thicken The translation of dirty realism its reception in Spain and its cultural legacy as appropriated by the young Spanish writers serve to interrogate a perceived U S hegemony If Spanish realismo sucio has been said to be symptomatic of the globalization of literature Forth and Back argues that the Spanish works in question posed a subtle reaffirmation of Spanish literature's strong ties to realist fiction a gesture of continuity in a decade that seemed to presence the undoing of much of Spain's Spanish ness Ultimately this project asks an ambitious pair of questions at the heart of human culture how do we read each other quite literally across geography and language How do we construct others and ourselves vis vis those readings

Fascism and Millennial American Cinema Leighton Grist, 2018-05-31 This book examines a spate of American films released around the turn of the millennium that differently address the actuality or possibility of domestic fascism within the USA. The films discussed span a diversity of forms, genres and production practices and encompass low and medium budget studio and independent releases such as *American History X*, *Stir of Echoes* and *The Believer*, star and/or auteur vehicles such as *The Siege*, *Fight Club* and *American Beauty*, and high budget high concept science fiction films and franchises such as *Starship Troopers*, *Minority Report*, the *Matrix* and *X-Men* trilogies and the *Star Wars* prequels. Central to the book is the detailed analysis of the films which is contextualized historically in relation to a period that saw the significant rise of the far Right. The book concordantly affords a wider insight into fascism and its various manifestations and how such have been and continue to be registered within American cinema.

The Roadhouse Comes to Britain David W. Gutzke, Michael John Law, 2017-04-20 This is the first book to examine the cultural phenomenon of the roadhouse in mid 20th century Britain and its impact on British leisure. The term roadhouse was used in varied ways in the 1930s from small roadside tearooms to enormous establishments on the outskirts of major cities. These roadhouses were an important component in the transformation of leisure in the 1930s and beyond, reflecting the increased levels of social and physical mobility brought about by new technologies, suburbanisation and the influence of American culture. Roadhouses attracted wealthy Londoners excited by the prospect of a high speed run into the countryside. During the day they offered family activities such as tennis, archery, horse riding and swimming. At night they provided all the fun of the West End with dancing, classy restaurants, cabaret, swimsuit parades and dance demonstrations, subverting the licensing laws to provide all night drinking. Rumours abounded of prostitution and transgressive behaviour in the car park. Roadhouses formed part of an imaginary America in suburban Britain that was promoted by the popularity of American movies, music and fiction, providing a pastiche of the American country club. While much work has been done on the Soho nightclubs of the 1930s, the roadhouse has been largely ignored. Michael John Law and David Gutzke fill this gap in the literature by providing a comprehensive analysis of the roadhouse's cultural meaning, demonstrating how its Americanisation was interpreted for British consumers. This original and engaging study will be fascinating reading for all scholars of 20th century British cultural history.

reference in recent years popular action cinema remains neglected within contemporary film criticism *Spectacular Bodies* unravels the complexities and pleasures of a genre often dismissed as obvious in both its pleasure and its politics arguing that these controversial films should be analysed and understood within a cinematic as well as a political context Yvonne Tasker argues that today's action cinema not only responds to the shifts in gendered sexual and racial identities which took place during the 1980s but reflects the influences of other media such as the new video culture Her detailed discussion of the homoeroticism surrounding the muscleman hero the symbolic centrality of blackness within the crime narrative and the changing status of women within the genre addresses the constitution of these identities through the shifting categories of gender class race sex sexuality and nation *Spectacular Bodies* also examines the ambivalence of supposedly secure categories of popular cinema questioning the existing terms of film criticism in this area and addressing the complex pleasures of this neglected form
