Looking At The Overlooked:

Looking at the Overlooked Norman Bryson, 1990 Historically and culturally the societies that produced still life painting could hardly be more diverse What is it then that allows us to place such different types of image in a single category Norman Bryson argues that the family resemblances between the different types of still life stem from their common portrayal of a level of material culture that retains its fundamental outlines through long spans of time and across the boundaries and divisions of national culture the culture of domestic routine and the rituals of hospitality How this low plane reality is historically viewed and inflected by the higher levels and discourses of the surrounding culture is the fundamental subject of this book

Looking at the Overlooked Norman Bryson, 1995 **Charles Sheeler** Mark Rawlinson, 2020-09-08 Charles Sheeler was the stark poet of the machine age Photographer of the Ford Motor Company and founder of the painting movement Precisionism he is remembered as a promoter of and apologist for the industrialised capitalist ethic This major new rethink of one of the key figures of American modernism argues that Sheeler's true relationship to progress was in fact highly negative his precisionism both skewed and imprecise Covering the entire oeuvre from photography to painting and drawing attention to the inconsistencies curiosities and puzzles embedded in Sheeler's work Rawlinson reveals a profound critique of the processes of rationalisation and the conditions of modernity The book argues finally for a re-evaluation of Sheeler's often dismissed late work which it suggests may only be understood through a radical shift in our understanding of the work of this prominent figure

Staging Blackness and Performing Whiteness in Eighteenth-Century German Drama Wendy Sutherland,2017-05-15 Focusing on eighteenth century cultural productions Wendy Sutherland examines how representations of race in philosophy anthropology aesthetics drama and court painting influenced the construction of a white bourgeois German self Sutherland positions her work within the framework of the transatlantic slave trade showing that slavery colonialism and the triangular trade between Europe West Africa and the Caribbean function as the global stage on which German bourgeois dramas by Friedrich Wilhelm Ziegler Ernst Lorenz Rathlef and Theodor K rner and a novella by Heinrich von Kleist on which K rner s play was based were performed against a backdrop of philosophical and anthropological influences Plays had an important role in educating the rising bourgeois class in morality Sutherland argues with fathers and daughters offered as exemplary moral figures in contrast to the depraved aristocracy At the same time black female protagonists in nontraditional dramas represent the boundaries of physical beauty and marriage eligibility while also complicating ideas of moral beauty embodied in the concept of the beautiful soul Her book offers convincing evidence that the eighteenth century German stage grappled with the representation of blackness during the Age of Goethe even though the German states were neither colonial powers nor direct participants in the slave trade *Caterpillars* Harry Berger,2011 It is rapacitas Caterpillars also explores the impact of this message on the meaning of the genre s French name We use the conventional term nature morte dead nature without giving any thought to how misleading it is Because so many portraits of still in bloom are dying it would be more accurate to name the genre nature mourant The subjects of still life are plants that are still living plants that are dying but not yet dead Book Jacket [The Routledge Handbook of Architecture, Urban Space and Politics, Volume I](#) Nikolina Bobic,Farzaneh Haghighi,2022-10-28 For architecture and urban space to have relevance in the 21st Century we cannot

merely reignite the approaches of thought and design that were operative in the last century. This is despite or because of the nexus between politics and space often being theorized as a representation or by product of politics. As a symbol or an effect, the spatial dimension is depoliticized. Consequently, architecture and the urban are halted from fostering any systematic change as they are secondary to the event and therefore incapable of performing any political role. This handbook explores how architecture and urban space can unsettle the unquestioned construct of the spatial politics of governing. Considering both ongoing and unprecedented global problems from violence and urban warfare, the refugee crisis, borderization, detention camps, terrorist attacks to capitalist urbanization, inequity, social unrest, and climate change, this handbook provides a comprehensive and multidisciplinary research focused on the complex nexus of politics, architecture, and urban space. Volume I starts by pointing out the need to explore the politics of spatialization to make sense of the operational nature of spatial oppression in contemporary times. The operative and active political reading of space is disseminated through five thematics: Violence and War, Machines, Security and Borders, Race, Identity, and Ideology, Spectacle and the Screen, and Mapping Landscapes and Big Data. This first volume of the handbook frames cutting edge contemporary debates and presents studies of actual theories and projects that address spatial politics. This Handbook will be of interest to anyone seeking to meaningfully disrupt the reduction of space to an oppressive or neutral backdrop of political realities. The Ageless Agatha Christie J.C. Bernthal, 2016-02-17. When Agatha Christie died in 1976, she was the bestselling mystery writer in history. This collection of new essays brings fresh perspectives to Christie scholarship with new readings and discussions of little known aspects of her life, career, and legacy. The contributors explore her relationship with modernism, the relevance of queer theory, television adaptations, issues with translations, information behavior, theory, feminist readings, postcolonial tribute, novels, celebrity culture, and heritage cinema. The final word is given to fans in an editorial that collates testimonies from readers, collectors, and enthusiasts.

Moral Play and Counterpublic Ineke Murakami, 2011-02-25. In this study, Murakami overturns the misconception that popular English morality plays were simple medieval vehicles for disseminating conservative religious doctrine. On the contrary, Murakami finds that moral drama came into its own in the sixteenth century as a method for challenging normative views on ethics, economics, social rank, and political obligation. From its inception in itinerate troupe productions of the late fifteenth century, moral play served not as a cloistered form but as a volatile public forum. This book demonstrates how the genre's apparently inert conventions, from allegorical characters to the battle between good and evil for Mankind's soul, veiled critical explorations of topical issues. Through close analysis of plays representing key moments of formal and ideological innovation from 1465 to 1599, Murakami makes a new argument for what is at stake in the much-discussed anxiety around the entwined social practices of professional theater and the emergent capitalist market. Moral play fostered a phenomenon that was ultimately more

threatening to the peace of the realm than either theater or the notorious market a political self consciousness that gave rise to ephemeral non elite counterpublics who defined themselves against institutional forms of authority

Protestant Aesthetics and the Arts Sarah Covington, Kathryn Reklis, 2020-01-27 The Reformation was one of the defining cultural turning points in Western history even if there is a longstanding stereotype that Protestants did away with art and material culture Rather than reject art and aestheticism Protestants developed their own aesthetic values which Protestant Aesthetics and the Arts addresses as it identifies and explains the link between theological aesthetics and the arts within a Protestant framework across five hundred years of history Featuring essays from an international gathering of leading experts working across a diverse set of disciplines Protestant Aesthetics and the Arts is the first study of its kind containing essays that address Protestantism and the fine arts visual art music literature and architecture and historical and contemporary Protestant theological perspectives on the subject of beauty and imagination Contributors challenge accepted preconceptions relating to the boundaries of theological aesthetics and religiously determined art disrupt traditional understandings of periodization and disciplinarity and seek to open rich avenues for new fields of research Building on renewed interest in Protestantism in the study of religion and modernity and the return to aesthetics in Christian theological inquiry this volume will be of significant interest to scholars of Theology Aesthetics Art and Architectural History Literary Criticism and Religious History

The Cinema of Víctor Erice Linda C. Ehrlich, 2007-02-01 To coincide with the recent DVD release of *The Spirit of the Beehive* this paperback collection of essays focuses on the work of acclaimed Spanish director Víctor Erice. Originally published in hardcover under the title *An Open Window* this expanded edition draws on original essays, reprints and new translations from an international group of writers. New to this edition are four essays from noted film scholars including editor Linda C. Ehrlich as well as three added essays from the filmmaker himself. Both the original and new material provide a deeper appreciation of Erice's three feature length films: *The Spirit of the Beehive* (1973), *El Sur* (1982) and *Dream of Light* aka *The Quince Tree Sun* (1992) as well as his shorter works including his most recent accomplishment *La muerte rouge* (2006). This anthology examines the aesthetic, historical and sociological forces at work in Erice's films and includes an extensive interview with the director. This broad array of writings provides insight into not only three unforgettable films but also into twentieth century Spanish society as well as world cinema. *The Cinema of Víctor Erice: An Open Window* will serve as an important resource to measure the career of this director who, along with Buñuel, Saura and Almodóvar, has helped show the world the creative range of Spanish cinema. With additional essays, translations and illustrations, this paperback edition explores new avenues of expression pursued by one of the most poetic of modern filmmakers.

Early Modern Spectatorship Ronald Huebert, David McNeil, 2019-06-30 What did it mean to be a spectator during the lifetime of Shakespeare or of Aphra Behn? In *Early Modern Spectatorship* contributors use the idea of spectatorship to reinterpret canonical early modern texts and bring visibility to relatively unknown works. While many early modern spectacles were designed to influence those who watched, the very presence of spectators and their behaviour could alter the conduct and the meaning of the event itself. In the case of public executions, for example, audiences could both observe and be observed by the executioner and the condemned. Drawing on work in the digital humanities and theories of cultural spectacle, these essays discuss subjects as various as the death of Desdemona in *Othello*, John Donne's religious orientation, Ned Ward's descriptions of London and Louis Laguerre's murals painted for the residences of English aristocrats. A lucid exploration of subtle questions, *Early Modern Spectatorship* identifies images and describes the spectator's experience in early modern culture.

Making Sense of Taste Carolyn Korsmeyer, 2014-01-04 Taste, perhaps the most intimate of the five senses, has traditionally been considered beneath the concern of philosophy: too bound to the body, too personal and idiosyncratic. Yet in addition to providing physical pleasure, eating and drinking bear symbolic and aesthetic value in human experience and they continually inspire writers and artists. Carolyn Korsmeyer explains how taste came to occupy so low a place in the hierarchy of senses and why it is deserving of greater philosophical respect and attention. Korsmeyer begins with the Greek thinkers who classified taste as an inferior bodily sense; she then traces the parallels between notions of aesthetic and gustatory taste that were explored in the formation of modern aesthetic theories. She

presents scientific views of how taste actually works and identifies multiple components of taste experiences Turning to taste's objects food and drink she looks at the different meanings they convey in art and literature as well as in ordinary human life and proposes an approach to the aesthetic value of taste that recognizes the representational and expressive roles of food Korsmeyer's consideration of art encompasses works that employ food in contexts sacred and profane that seek to whet the appetite and to keep it at bay her selection of literary vignettes ranges from narratives of macabre devouring to stories of communities forged by shared eating
