ecumenical If one adopts its perspective one should be able to see how substantially correct many other accounts are whilst at the same time seeing why they are not in the end completely correct The book opens with a transparent classification of types of account and concludes with detailed discussions of three important recent contributions to the subject The origins of the account lie in our conception of predication Unreflectively thought of as a task accomplished by words it is argued that predication or something very much like it can also be accomplished by objects So understood predication becomes the genuinely equal partner of reference a function no one doubts can be as easily accomplished by objects as by words and liberated in this way predication becomes one central element in the account of metaphor The other element is the move from language to objects which adapting an idea of Quine's is thought of as semantic descent Whilst Samuel Guttenplan's account allows us to see other accounts in a new light its main importance lies in what it tells us about metaphor itself Powerful and flexible enough to cope with the syntactic complexity typical of genuine metaphor it offers novel conceptions of both the relationship between simile and metaphor and the notion of dead metaphor Additionally it allows us to see why metaphor is a robust theoretic kind related to certain other tropes but not to be confused with tropes generally or with the figurative and non literal Metaphor has often been thought merely an ornament to language Whilst acknowledging the truth in this thought Guttenplan shows the fundamental importance of metaphor to language Rather than being a specialist topic in philosophy and related disciplines he thus suggests that the study of metaphor is central to the study of language

What Is Asian American Biblical Hermeneutics? Reading the New Testament Tat-siong Benny Liew, 2007-12-31

Liew is one of the most articulate creative and sophisticated biblical scholars in North America What Is Asian American Biblical Hermeneutics has not caused me to question that judgment A set of provocative questions arguments issues and problems the book opens a window onto what it means for human beings to try to negotiate a rather complex contemporary world with evidence of increasingly blurred but also thick ideological and social cultural boundaries and overlapping but also recognizable and isolable identity formations That Liew does this by using and bringing together the category Asian American and the phenomenon of the reading of the Bible as sharp analytical wedge is all the more fascinating This impressive book represents the collapse of the center and a major shift in orientation to the peripheries It is a major achievement and a major challenge Vincent L Wimbush Claremont Graduate University A groundbreaking achievement Dr Liew uses his amazing breadth of scholarship to challenge Eurocentrism in biblical studies and secularism in Asian American studies at once Like Gender Trouble The Future of an Illusion and other original work this book will become a classic in Asian American biblical hermeneutics setting the terms of debate for years to come After Liew reading the New Testament will never be the same again Kwok Pui lan Episcopal Divinity School Cambridge Massachusetts This is the first single authored book on Asian American biblical interpretation It covers all of the major genres within the New Testament and broadens biblical hermeneutics to cover not only the biblical texts but also Asian American literature and current films and events like

genome research and September 11 Despite its range the book is organized around three foci methodology the distinguishing characteristics or sensibilities of Asian American biblical hermeneutics community the politics of inclusion and exclusion and agency The work intentionally affirms Asian America as a panethnic coalition while acknowledging the differences within it In other words it attempts to balance Asian American panethnicity and heterogeneity or coalition building and identity politics

Operating Manual for Enlightenment Lincoln Stoller, 2024-11-01 This book is not offering enlightenment it's describing it The enlightened mind unites intellect and emotion despite their separation being built into the structure of our brains This split appears in the mythic division between our lower and higher natures and the separation of mind and body Intellect and emotion function in concert As color and shape are to vision one complements the other When fully integrated they cannot be taken apart The topics in the book's first half lean toward the intellectual The second half looks at the division from the emotional side What we are separating with one hand we are putting together with the other Struggle We naturally consider our problems as different from ourselves We see them in our environment and rely on our skills and insights to resolve them Our intellectual solutions address one aspect of these problems while our emotions address another Are these problems to be solved or processes to be understood What should we do if our problems are inside us Mind Your state determines your readiness arousal and self reflection Your state of mind orients your thinking how you can feel about yourself and who you're able to be Equally important are thoughts you're not likely to have or cannot have at all This book is about the states of mind that support focus awareness thoughts and feelings It's not a guide to solving problems it's an explanation of how you see State With our state of mind we gather our thoughts and focus our attention Focus without a state is like a telescope with no one to look through it In order to focus first take full responsibility for all you think and feel The properties of your state determine what you're capable of One state of mind is not enough because you cannot understand the world from one point of view

Your future is determined by your range of states of mind Wisdom Alternate states of mind support understandings we don't have They may be logical emotional spiritual or evanescent They could involve knowledge spread across generations so that no one generation has the complete picture We might call them prophetic inspired psychedelic or delusional Larger states of mind develop with experience but they're not defined by the facts they hold One needs a state of mind that can accommodate contradictions without generating conflict Instantaneous Enlightenment Change does not happen instantly but epiphanies feel instantaneous The reason is simple a new state is a whole rearrangement of one's previous conception There are no halfway states to total rearrangement Many pieces need to fall into place before we can make ourselves into something new We are at a watershed moment in our understanding of the mind after which psychology will change Instead of focusing on thoughts and behavior we are coming to understand that what's important is what you can think and how you can behave The Operating Manual is an intellectual emotional and neurological road map to the integration you don't yet have REVIEWS and WORDS of PRAISE What a pleasure to see the wry wit and humor of an old friend focused on that which we all take for granted our deep complex hard problem of consciousness It is not a linear treatise but a winding through the mind's labyrinthine pathways to archetypal insights What a pleasant journey Jay Gunkelman Chief Science Officer of Brain Science International and NeuroNet Neuroscience Centers Past president of the International Society for Neurofeedback and Research and the Biofeedback Society of California I strongly recommend Operating Manual for Enlightenment It is a true guide to empowering and liberating yourself written in common language The pages are full of gems for readers of all ages and interests Adrian Bejan Distinguished Professor of Engineering author of Freedom and Evolution and The Physics of Life The Evolution of Everything Like Castaneda's The Teachings of Don Juan Lincoln's Operating Manual is an essential life reference wherever whenever or whoever slips into these fields of care and concern or dives into the waves of the vast ocean of life These visions from the oh so human minds are worthy of the effort Thank you inspired Armand Huet de Grenier psychotherapist adult and youth special educator organization business consultant Fellow of the Clinical Hypnosis Society of Nova Scotia and past president of the Mahone Bay Buddhist Meditation Centre Carrier of the of the Eagle Staff at the Gesgapegiag Mi kmaq SunDance in Maria Quebec Dr Lincoln Stoller thinks outside the box of current thoughts and existing practices beyond the dross of what's taught to find the potential we've been told to keep hidden Are you a conformist or a rebel Do you do what you're told or go for the gold ring Go over the breach to lead future generations into the world Thank you Dr Stoller Tony Hunt Host of Educational Triage Podcast Alternative Ed Director and Developer A cornucopia of facts thoughts and ideas about what it is to be us Such a pleasure to read Allan Leslie Combs Professor of Consciousness Studies author of The Radiance of Being and Consciousness Explained Better The finest book on consciousness written in modern times bar none Ken Wilber Lincoln's work goes to places few have gone before Drawing on dozens of fields he creates a super structure of everything that inhabits your body and mind I consider him a true sage sharp thinker and skillful therapist
