Social Networks and Historical Sociolinguistics Alexander Bergs, 2011-12-07 The book presents an analysis of selected domains of morphosyntactic variation in a 250 000 word collection of the Middle English Paston Letters 1421 1503 from a historical sociolinguistic point of view In the three case studies two nominal and one verbal variable are described and discussed in detail the replacement of Old English *i h th wh take make give have do* plus deverbal noun While the study aims at a balanced integration of theories and methods from a number of different approaches in sociolinguistics cognitive linguistics typology and language change its main focus is social network theory and the role of the linguistic individual in the formation and change of language structures Questions of individual language use and of deliberate versus

unmonitored changes in the individual system take center stage and are discussed in the light of social network analysis. Traditional empirical social network analysis is carefully revised. Despite its many merits in present day sociolinguistics it often needs to be supplemented by hermeneutic biographical analyses of the individual speakers' lives when applied to historical data. With this background common theories and models of language change such as grammaticalization, paradigmatic pressure, typological alignment and generational shifts are illustrated and evaluated from the point of view of single speakers and social groups and their particular embedding in the speech community through various network structures. The book is of interest to advanced students and researchers in English and general linguistics, Middle English, historical linguistics and language change, corpus linguistics as well as sociolinguistics.

Dialect Change Peter Auer, Frans Hinskens, Paul Kerswill, 2005-06-17. Dialects are constantly changing and due to increased mobility in more recent years European dialects have levelled making it difficult to distinguish a native of Reading from a native of London or a native of Bonn from a native of Cologne. This comprehensive study brings together a team of leading scholars to explore all aspects of recent dialect change in particular dialect convergence and divergence. Drawing on examples from a wide range of European countries as well as areas where European languages have been transplanted they examine a range of issues relating to dialect contact and isolation and show how sociolinguistic conditions differ hugely between and within European countries. Each specially commissioned chapter is based on original research giving an overview of work on that particular area and presenting case studies to illustrate the issues discussed. **Dialect Change** will be welcomed by all those interested in sociolinguistics, dialectology, the relevance of language variation to formal linguistic theories and European languages.

Growing Older In Europe Walker, Alan, 2004-12-01. This book provides a European dimension examining and comparing the quality of life as experienced by older people in Germany, Italy, the Netherlands, Sweden and the UK. Detailed case studies by well known European authors consider key quality of life indicators such as income, housing, employment, physical and mental health and family and social support. Examples of good practice are provided from each region and recommendations are made for future priorities. A comparative introduction by the editor draws out key similarities and differences between the countries studied and sets the context for the case studies. This book is aimed at advanced undergraduate and postgraduate students of social policy, social gerontology and sociology. It will also be of interest to academics and policy makers. Contributors: Monika Reichart, Manuela Weidekamp, Maicher Giovanni, Lamura Annemarie, Peters Beitske, Bouwman Kees, Knipscheer Lars Andersson, Kristiina Martimo, Carol Walker, Alan Walker.

Middle-Class Couples Stephen Edgell, 2023-03-31. When this book was originally published in 1980 sociologists had long held the view that the middle class marriage in contemporary Britain was characterised by role desegregation and marital equality. **Middle Class Couples** reported on research which provided a

critical re analysis of this orthodoxy The book is a theoretically informed empirical study which largely debunks many of the myths associated with this alleged movement towards equal marriage among professional couples The author analysed the sexual division of labour among a group of professional workers and their wives at the child rearing stage of their family cycle The research paid special attention to the notion of marital equality and the power dimension of marriage the household division of labour and the patterning of leisure between husbands and wives A radical critique of the existing social theories of the family and society incorporated in the classic studies of Parsons Watson Young and Willmott Ann Oakley and Elizabeth Bott
