Loubli De Lhomme Et Lhonneur Des Dieux:

L'oubli de l'homme et l'honneur des dieux Georges Dumézil,1985 *Handbook on Governmentality* William Walters,Martina Tazzioli,2023-01-20 The Handbook on Governmentality discusses the development of an interdisciplinary field of research focusing on Michel Foucault's post foundationalist concept of governmentality and the ways it has been used to write genealogies of modern states the governance of societal problems and the governance of the self **Decayed Gods** Wouter W. Belier,2015-09-01 In 1930 Dumézil wrote an article in which he defended the Indo European character of the Indian varnas In 1986 he was completing his final 25 Esquisses research proposals the aim of which was to allow his model of the tripartite of Indo European traditions to be applied to his disciples According to this model Indo European traditions were typified by a threefold division into functions of society the world of the gods and the heroic traditions These were the functions of sovereignty power and fertility This theoretical model was elaborated by Dumézil in a large number of books and articles Between 1930 and 1986 he broadened enormously the amount of data on which his model was based To do so he had regularly to adapt and reformulate his model This was not without consequences for the material which he had interpreted earlier on In this study a detailed description is given of this process of reformulation and reinterpretation and the conclusion is that the totality of the various models does not despite its aesthetic attraction satisfy the criteria which should be set for scientific models *The Indo-Europeans* Jean-Paul Demoule,2023 The existence of an Indo European linguistic family allowing for the fact that several languages widely dispersed across Eurasia share numerous traits has been demonstrated for several centuries now But the underlying factors for this shared heritage have been fiercely debated by linguists historians archaeologists and anthropologists The leading theory of which countless variations exist argues that this similarity is best explained by the existence at one given point in time and space of a common language and corresponding population This ancient prehistoric population would then have diffused across Eurasia eventually leading to the variation observed in historical and modern times *The Indo Europeans Archaeology Language Race and the Search for the Origins of the West* argues that despite its acceptance and use by most researchers from different disciplines such a model is inherently flawed This book describes how beginning in the late eighteenth century Europeans began a quest for a supposed original homeland from which a small conquering people would one day spread out bringing their language to Europe and parts of Asia India Iran Afghanistan This quest was often closely tied to ideological preoccupations and it was in its name that the Nazi leadership claiming for the Germans the status of the purest Indo Europeans or Aryans waged genocide The last part of the book summarizes the current state of knowledge and current hypotheses in the fields of linguistics archaeology comparative mythology and genetics The culmination of three decades of research this book offers a sweeping survey of the historiography of the Indo European debate and poses a devastating challenge to the Indo European origin story at its roots

L'oubli de l'homme et l'honneur des dieux et autres essais ,1985 *Theorizing Myth* Bruce Lincoln,1999 In *Theorizing*

Myth Bruce Lincoln traces the way scholars and others have used the category of myth to fetishize or deride certain kinds of stories usually those told by others He begins by showing that mythos yielded to logos not as part of a mythic Greek miracle but as part of struggles over political linguistic and epistemological authority occasioned by expanded use of writing and the practice of Athenian democracy Lincoln then turns his attention to the period when myth was recuperated as a privileged type of narrative a process he locates in the political and cultural ferment of the eighteenth and nineteenth centuries Here he connects renewed enthusiasm for myth to the nexus of Romanticism nationalism and Aryan triumphalism particularly the quest for a language and set of stories on which nation states could be founded In the final section of this wide ranging book Lincoln advocates a fresh approach to the study of myth providing varied case studies to support his view of myth and scholarship on myth as ideology in narrative form

Approaches to Greek Myth Lowell Edmunds, 2021-04-27 A handy introduction to some of the more useful methodological approaches to and the previous scholarship on the subject of Greek myths Phoenix Since the first edition of *Approaches to Greek Myth* was published in 1990 interest in Greek mythology has surged There was no simple agreement on the subject of myth in classical antiquity and there remains none today Is myth a narrative or a performance Can myth be separated from its context What did myths mean to ancient Greeks and what do they mean today Here Lowell Edmunds brings together practitioners of eight of the most important contemporary approaches to the subject Whether exploring myth from a historical comparative or theoretical perspective each contributor lucidly describes a particular approach applies it to one or more myths and reflects on what the approach yields that others do not Edmunds s new general and chapter level introductions recontextualize these essays and also touch on recent developments in scholarship in the interpretation of Greek myth Contributors are Jordi P mias on the reception of Greek myth through history H S Versnel on the intersections of myth and ritual Carolina L pez Ruiz on the near Eastern contexts Joseph Falaky Nagy on Indo European structure in Greek myth William Hansen on myth and folklore Claude Calame on the application of semiotic theory of narrative Christiane Sourvinou Inwood on reading visual sources such as vase paintings and Robert A Segal on psychoanalytic interpretations A valuable collection of eight essays Edmunds s book provides a convenient opportunity to grapple with the current methodologies used in the analysis of literature and myth New England Classical Newsletter and Journal

Twentieth Century Mythologies Daniel Dubuisson, Martha Cunningham, 2014-12-05 Myths have intrigued scholars throughout history *Twentieth Century Mythologies* traces the study of myth over the last century presenting the key theories of mythology and critiquing traditional definitions of myth The volume presents the work of influential scholars in mythology the noted Indo Europeanist Georges Dumézil the structuralist anthropologist Claude Lévi Strauss and the historian of religions Mircea Eliade *Twentieth Century Mythologies* is an indispensable resource for scholars of religion and myth and for all those interested in the history of ideas

Arjuna-Odysseus N. J. Allen, 2019-11-07 Bringing together the study of the Greek classics and Indology *Arjuna Odysseus* provides a comparative analysis of the shared

heritage of the Mahabharata and early Greek traditions presented in the texts of Homer and Hesiod. Building on the ethnographic theories of Durkheim, Mauss and Dumont, the volume explores the convergences and rapprochements between the Mahabharata and the Greek texts. In exploring the networks of similarities between the two epic traditions, it also reformulates the theory of Georges Dumézil regarding Indo-European cultural comparativism. It includes a detailed comparison between journeys undertaken by the two epic heroes, Odysseus and Arjuna, and more generally, it ranges across the philosophical ideas of these cultures and the epic traditions, metaphors and archetypes that define the cultural ideology of ancient Greece and India. This book will be useful to scholars and researchers of Indo-European comparativism, social and cultural anthropology, classical literature, Indology, cultural and post-colonial studies, philosophy and religion, as well as to those who love the Indian and Greek epics.

Greek Mythology and Poetics Gregory Nagy, 2018-09-05 Gregory Nagy here provides a far-reaching assessment of the relationship between myth and ritual in ancient Greek society. Nagy illuminates in particular the forces of interaction and change that transformed the Indo-European linguistic and cultural heritage into distinctly Greek social institutions between the eighth and the fifth centuries B.C. Included in the volume are thirteen of Nagy's major essays, all extensively revised for book publication on various aspects of the Hellenization of Indo-European poetics, myth and ritual, and social ideology. The primary aim of this book is to examine the Greek language as a reflection of society, with special attention to its function as a vehicle for transmitting mythology and poetics. Nagy's emphasis on the language of the Greeks and on its comparison with the testimony of related Indo-European languages such as Latin, Indic and Hittite reflects his long-standing interest in Indo-European linguistics. The individual chapters examine the development of Hellenic poetics in the traditions of Homer and Hesiod, the Hellenization of Indo-European myths and rituals, including myths of the afterlife, rituals of fire and symbols in the Greek lyric, and the Hellenization of Indo-European social ideology with reference to such cultural institutions as the concept of the city-state. A path-breaking application of the principles of social anthropology, comparative mythology, historical linguistics and oral poetry theory to the study of classics. *Greek Mythology and Poetics* will be an invaluable resource for classicists and other scholars of linguistics and literary theory.

Apples and Oranges Bruce Lincoln, 2018-08-22 Comparison is an indispensable intellectual operation that plays a crucial role in the formation of knowledge. Yet comparison often leads us to forego attention to nuance, detail and context, perhaps leaving us bereft of an ethical obligation to take things correspondingly as they are. Examining the practice of comparison across the study of history, language, religion and culture, distinguished scholar of religion Bruce Lincoln argues in *Apples and Oranges* for a comparativism of a more modest sort. Lincoln presents critiques of recent attempts at grand comparison and enlists numerous theoretical examples of how a more modest, cautious and discriminating form of comparison might work and what it can accomplish. He does this through studies of shamans, werewolves, human sacrifices, apocalyptic prophecies, sacred kings and surveys of materials as diverse and wide-ranging as Beowulf, Herodotus's account of the Scythians, the Native American Ghost

Dance and the Spanish Civil War Ultimately Lincoln argues that concentrating one's focus on a relatively small number of items that the researcher can compare closely offering equal attention to relations of similarity and difference not only grants dignity to all parties considered it yields more reliable and more interesting if less grandiose results Giving equal attention to the social historical and political contexts and subtexts of religious and literary texts also allows scholars not just to assess their content but also to understand the forces problems and circumstances that motivated and shaped them Europe and Empire Massimo Cacciari, 2016-01-04 The European Union and the single currency have given Europe more stability than it has known in the past thousand years yet Europe seems to be in perpetual crisis about its global role The many European empires are now reduced to a multiplicity of ethnicities traditions and civilizations Europe will never be One but to survive as a union it will have to become a federation of islands both distinct and connected Though drawing on philosophers of Europe's past Cacciari calls not to resist Europe's sunset but to embrace it Europe will have to open up to the possibility that in few generations new exiles and an unpredictable cultural hybridism will again change all we know about the European legacy Though scarcely alive in today's politics the political unity of Europe is still a necessity however impossible it seems to achieve

From Triads to Pentads Robert Parkin, 2025-03-01 N J Nick Allen had an extensive academic career which for the most part was spent in Oxford He passed away in 2020 This edited volume brings together a selection of his anthropological papers They cover two major fields and a supplementary one Indo European mythical comparison and his own notion of tetradic kinship supplemented by a long term interest in the work of Marcel Mauss and his uncle mile Durkheim It follows key areas of his research in which his contributions were novel innovative stimulating and plausible

Indo-European Sacred Space Roger D. Woodard, 2010-10-01 In Indo European Sacred Space Roger D Woodard provides a careful examination of the sacred spaces of ancient Rome finding them remarkably consistent with older Indo European religious practices as described in the Vedas of ancient India Employing and expanding on the fundamental methods of mile Benveniste as well as Georges Dum zil's tripartite analysis of Proto Indo European society Woodard clarifies not only the spatial dynamics of the archaic Roman cult but stemming from that an unexpected clarification of several obscure issues in the study of Roman religion Looking closely at the organization of Roman religious activity especially as regards sacrifices festivals and the hierarchy of priests Woodard sheds new light on issues including the presence of the god Terminus in Jupiter's Capitoline temple the nature of the Roman suovetaurilia the Ambarvalia and its relationship to the rites of the Fratres Arvales and the identification of the Sabine god Semo Sancus Perhaps most significantly this work also presents a novel and persuasive resolution to the long standing problem of agrarian Mars
