Louise Bourgeois Meret Oppenheim Ilse Weber Drawings And Works On Paper:

Louise Bourgeois, Meret Oppenheim, Ilse Weber Stephan Kunz, Christiane Meyer-Thoss, Beat Wismer, 1999 This handsomely designed catalogue presents a stimulating collection of largely unknown watercolors and drawings by these three prominent artists

After the Revolution Eleanor Heartney, Helaine Posner, Nancy Princenthal, Sue Scott, 2013-11-04 Why Have There Been No Great Women Artists asked the prominent art historian Linda Nochlin in a provocative 1971 essay Today her insightful critique serves as a benchmark against which the progress of women artists may be measured In this book four prominent critics and curators describe the impact of women artists on contemporary art since the advent of the feminist movement

Diaries and Dreams Peter Weiermair, 2004 The 15 artists presented here all draw on dreams They believe that drawing a diaristic impulse to capture the ephemeral and not to care if it is ephemeral plays an important role in the formulation of subconscious wishes in coaxing out conflicts in documenting private worlds For them the act of drawing can be abstract and meditative as when Louise Bourgeois creates a penciled web or narratively meditative on art historical conventions as in Andrea Fogli's undetailed but elegant portrayal of mourning at the Cross or wildly inclusive as in the kitchen sink notebook page text and figures of Marcel Dzama As both a staging place from which to launch more ambitious works or an end in itself drawing allows oneiric visions to acquire a measure of concreteness to communicate to others what is most intimately individual This comprehensive catalogue accompanying an exhibition exclusively held at the Ursula Blicke Foundation in Kraichtal Germany presents 15 page collections of images 225 total by the artists an introduction by Peter Weiermair director of the Galleria d'Arte Moderna in Bologna Italy and detailed biographies and bibliographies Other artists featured include Conrad Botes Marlene Dumas Takehito Koganezawa Ulrike Lienbacher Bas Meerman Bjarne Melgaard Franz Mlk Katrin Plavcak Jim Shaw Astrid Stricker and Michael Ziegler As Michael Kimmelman of The New York Times recently wrote Drawing is the new painting and here the formal repertoire of the skilled draftsman gets a full range of exposure

Meret Oppenheim Meret Oppenheim, Nathalie Bäschlin, 2007 In little more than a generation Asia has emerged from centuries of stagnation to become the rising force of the global economy This transformation has been so spectacular that some have called it a miracle How did it happen Taking the reader from the docksides of Korea to the halls of India's finance ministry The Miracle details the courageous decisions and heroic self sacrifice that made Asia's ascent possible Spanning nine countries and probing major historical currents this account illuminates not only Asia's extraordinary economic rise but also how its causes might emancipate the developing world from poverty and guide the developed world to further prosperity Using more than a decade of reporting and analysis Time magazine and former Wall Street Journal reporter Michael Schuman uncovers how outsourcing to Asia began how Asia's most famous companies such as Sony and Honda became global corporations and how technological changes and global economic shifts made Asia's boom possible He reveals the compelling human side to this economic story introducing readers to the political strongmen entrepreneurs and

policymakers who made the Miracle a reality This engaging historical narrative brings to life the ideas and actions of a diverse group of Asians dictators and democrats generals and technocrats economists and engineers Some of the characters in the book have captured the global imagination for years such as China's reformer Deng Xiaoping and Sony founder Akio Morita Others are less well known including Park Chung Hee Korea's tightfisted nation builder Liu Chuanzhi the risk taking founder of PC maker Lenovo and Azim Premji the mastermind behind Wipro one of India's technology giants All of them shared a dream to elevate Asia to its proper place of influence in the world and eradicate the poverty around them The Miracle not only offers profound insight into Asia and its increasing wealth and power it also reveals how these seismic shifts continue to reverberate through the global economy The implications of Asia's economic ascent for the rest of the world are surprising promising and inspiring Readers of The Miracle will gain a deep understanding of Asia's place in the global economy and of their own
