The Supreme Council of Antiquities, 2010-01-01 A regular Egyptological forum for scholarly discussion of the various aspects of ancient Egyptian art objects and collections conservation and museology. Concepts in Middle Kingdom Funerary Culture Rune Nyord, 2019-05-20 Concepts in Middle Kingdom Funerary Culture presents a collection of archaeological and philological papers discussing how ancient Egyptians thought and modern scholars may think about Egyptian funerary practices of the early 2nd millennium BCE. Targeting the concepts used by modern scholars the papers address both general methodological questions of how concepts should be developed and used and more specific ones about the history and presuppositions behind particular Egyptological concepts. In so doing the volume brings to the fore occasionally problematic intellectual baggage that have hindered understanding as well highlighting new promising avenues of research in ancient Egyptian funerary culture in the Middle Kingdom and more broadly. New and insightful suggestions are made many of which challenge the basic frames of reference of Western Egyptological study from funerary practice to issues of identity. The methodological models should be of considerable interest to those studying aspects of the HB and ancient Levant related to funerary culture where studies have often tended towards the etic. Ägyptologische Tempeltagung** René Preys, 2009 Building a temple implies the mastering of different technicalities such as the commissioning and payment of the building process procuring and transporting building material the organization of work and the practical execution of building and decoration projects. But building a temple is also translating a religious idea into stone. From the design to the consecration of the temple every stage in the process answers to a set of rules that enables the building to function as a temple. The aim of the 7th Tempeltagung was to examine the relation between the technical and the theological demands of temple building. How was architecture influencing the ritual how did ritual texts reflect the act of construction? What was the relation between the mythical temple and the actual temple? Who made the decisions and who executed them? What technical

and theological considerations lay at the base of the choice of material and of form In other words how did the technical aspects of building influence the theological ideas how was building a temple structuring religion     Ancient Egyptian Temple Ritual Katherine Eaton,2014-03-14 Large state temples in ancient Egypt were vast agricultural estates with interests in mining trading and other economic activities The temple itself served as the mansion or palace of the deity to whom the estate belonged and much of the ritual in temples was devoted to offering a representative sample of goods to the gods After ritual performances produce was paid as wages to priests and temple staff and presented as offerings to private mortuary establishments This redistribution became a daily ritual in which many basic necessities of life for elite Egyptians were produced This book evaluates the influence of common temple rituals not only on the day to day lives of ancient Egyptians but also on their special events economics and politics Author Katherine Eaton argues that a study of these daily rites ought to be the first step in analyzing the structure of more complex societal processes     **The Oxford Handbook of the Valley of the Kings** Richard H. **The Last Pharaohs** J. G. Manning, 2009-11-02 Manning's book is one of the most thought provoking studies on the Hellenistic world to have appeared for quite some time essential reading John Ray Times Literary Supplement The history of Ptolemaic Egypt has usually been doubly isolated separated both from the history of other Hellenistic states and from the history of ancient Egypt The Last Pharaohs the first detailed history of Ptolemaic Egypt as a state departs radically from previous studies by putting the Ptolemaic state firmly in the context of both Hellenistic and Egyptian history More broadly still J G Manning examines the Ptolemaic dynasty in the context of the study of authoritarian and premodern states shifting the focus of study away from modern European nation states and toward ancient Asian ones By analyzing Ptolemaic reforms of Egyptian economic and legal structures The Last Pharaohs gauges the impact of Ptolemaic rule on Egypt and the relationships that the Ptolemaic kings formed with Egyptian society Manning argues that the Ptolemies sought to rule through rather than over Egyptian society He tells how the Ptolemies adopting a pharaonic model of governance shaped Egyptian society and in turn were shaped by it Neither fully Greek nor wholly Egyptian the Ptolemaic state within its core Egyptian territory was a hybrid that departed from but did not break with Egyptian history Integrating the latest research on archaeology papyrology theories of the state and legal history as well as Hellenistic and Egyptian history The Last Pharaohs draws a dramatically new picture of Egypt's last ancient state Manning has produced a deep and meaningful study of the social and political relationships inherent in the Ptolemaic economy Timothy Howe Bryn Mawr Classical Review
