**Love and the Soul** Robert Sardello,2008-12-09 With economies in peril war in the Middle East genocides global warming and a host of other grim phenomena the world has never seemed so besieged The solution says Robert Sardello lies with the individual In this timely thoughtful book he explains how the soul can engage with the outer world to produce radical change Because we think of the world as a vast mechanism and behave as mechanical objects in it the results are devastation and dysfunction The key is to learn to identify with the plight of the Earth by developing a true sense of individual imagination and conscious awareness of inner purpose and beauty in conjunction with the soul of the world Sardello shows how to achieve this awareness and bring what is inside out into the world inspiring balance and stability Using the Grail legend and the myth of Sophia known as the Soul of the World as well as writings by Jung James Hillman and Rudolf Steiner *Love and the Soul* helps readers imagine a revitalized Earth by exploring the significance of grieving the transformative power of radical receptivity the creative power of dreaming and a new basis for community

*Love and the Soul* Robert Sardello,Robert J. Sardello,1994-12 The many readers of Thomas Moore s *Care of the Soul* will extend their understanding of soul work in this new book by Moore s longtime colleague Robert Sardello *Love and the Soul* proposes that inner work must be constantly balanced by a care for soul qualities in the world in order to avoid falling into egotism and self absorption Actively taking up the task of standing in and for the soul realm and bringing what is revealed there to action in the world is described as the creative impulse of love Love here extends beyond feelings sentiments emotions and personal concerns to an abiding interest in the future of the world Such interest in the future from the perspective of soul as love does not involve taking up political social economic or religious programs but rather the act of inner conscious awareness shaping forming and interiorizing the essence of each moment of experience leading to the capacity to experience purpose and create beauty The deeper we can enter into the individuality of soul the more possibilities for creating soul in the world become apparent Drawing on images of the Grail legend and myths of Sophia she who is called the Soul of the World Sardello develops approaches to an intelligence of the heart the world significance of grieving the transformative power of radical receptivity re enlivening the senses the creative power of dreaming and a new basis for relationships and community Based on a synthesis of the writings of C G Jung on the nature of soul James Hillman on the work of soul making and Rudolf Steiner on the formation of a spiritual culture Sardello s book establishes a ground of hope for the approaching millennium and a radically fresh direction for psychology one concerned with what we can be rather than with what has influenced us from the past

**Love and the World** Robert Sardello,2001 In this guide to conscious soul practice a psychotherapist reveals the importance of making one s life open and receptive to the spiritual realms

**Love and the Soul** Robert Sardello,2011-06-28 With economies in peril war in the Middle East genocides global warming and a host of other grim phenomena the world has never seemed so besieged The solution says Robert Sardello lies with the individual In this timely

thoughtful book he explains how the soul can engage with the outer world to produce radical change Because we think of the world as a vast mechanism and behave as mechanical objects in it the results are devastation and dysfunction The key is to learn to identify with the plight of the Earth by developing a true sense of individual imagination and conscious awareness of inner purpose and beauty in conjunction with the soul of the world Sardello shows how to achieve this awareness and bring what is inside out into the world inspiring balance and stability Using the Grail legend and the myth of Sophia known as the Soul of the World as well as writings by Jung James Hillman and Rudolf Steiner Love and the Soul helps readers imagine a revitalized Earth by exploring the significance of grieving the transformative power of radical receptivity the creative power of dreaming and a new basis for community Apocalypse, The Transformation of Earth Friedrich Benesch,2015-08-01 In the Revelation of St John spiritual worlds and spiritual entities appear both in images of the sensory world and in images of the mineral realm This book disusses these two sides of world manifestation It is often argued that the images of St John s Revelations are intended in a purely symbolic way If this is so the mineral appears as a symbol for something of a soul like and spiritual nature The Revelator however did not see symbols but rather realities even a symbol can be genuine only if something of the reality for which it stands shines through It must in a real way be inwardly identical with what it intends the essence from which it stems Thus it must arise from the same reality otherwise it contains no meaning The images of the minerals in the Apocalypse are just as much reality as the minerals are on Earth Neither is essential both are simply manifestations of something essential Hence both are truly apocalyptic the mineral we hold in our hand and the image we hold in our mind They reveal themselves mutually This book juxtaposes the objects of sensory appearance and natural scientific research with sayings from the Revelation of St John to express the joint background of the appearances When we connect one with the other it can lead to an encounter with the essence This is an esoteric mineralogy Friedrich Benesch enables a renewed encounter between the human being and mineral being from which essence and future can then shine out Anyone wanting to look more deeply into the Book of Revelations should read this beautifully illustrated unique work on its meaning and its significance for both today and the future of humankind and the Earth **Healthy Gaians** Richard Levitón,2007-01-02 Headline in boldface and or small caps do in 2 lines maximum The healthier we are in body mind and culture the more we can happily interact with the Spirit of Earth or Gaia who needs our attention now Main text Health how to keep it regain it or even optimize it concerns many today But we usually think of health in personal terms human terms What about the health of the Earth To be healthy rather than sick has planetary implications and Healthy Gaians shows you ways of improving your health to help improve the planet s Welcome to a diverse anthology of 70 articles on human health drawn from a journalistic career spanning 25 years Here are bodywork cancer the immune system vaccinations eurythmy chakras Jungian psychology intuition conflict resolution healing with art music sound and color singing to the dying dreams water rejuvenation the poetics of the elements near death experiences the purpose of evil myth living and quantum shamanic

adventures You ll get familiar with lots of natural health modalities such as herbalism acupuncture flower essences and bionutrient fortification And meet a stimulating group of health pioneers such as R D Laing William Irwin Thompson Barbara Walker Fred Alan Wolf Robert Sardello Caroline Myss M F K Fisher Kyriacos Markides and Rowena Kryder among others Each gives innovative ways to free ourselves from the ill health constraints of body mind and culture as part of the larger process of becoming healthy Gaians exactly what the planet needs from us There are many ways to better health The important thing is to start getting healthy so you can help the planet in its time of need Then the Earth can start sending back the good health vibrations to you now you re back in the health loop Note Be sure to note boldface two line headline at top this is 250 words but the book s format will be large and it will fit easily without crowding **The Quest** ,1995 Soul Forest and the Children Who Heard the Earth's Secrets | Making Science, Nature & Conservation Fun for Kids | By Sathya Raghu - Earthshot Prize Winner (Protect & Restore Nature) & Ted Speaker Sathya Raghu,2025-10-31 How did Earth begin Nanna Nanna means Dad in Telugu and he wasn t ready for the question What follows isn t a lecture It s a series of magical often hilarious conversations between a father and his two children as they time travel through Earth s story with help from the Moon Fire Ice Soil Ocean and even a fast talking Squirrel Together they explore how the universe was born how life emerged how humans changed everything how our planet is now hurting and what we can still do with love and imagination This book is rooted in science wrapped in wonder and lit by childlike curiosity Told in playful chapters this book makes the biggest questions feel personal and the planet feels like home again If you ve ever struggled to explain climate Earth or our place in it this book does it with wonder not worry Read it with a child a parent or just out of your own curiosity It might change how you see everything *MANS WORLD AND THE FUTURE* Durell belanger,2014-05 This book is the opportunity for the individual to know and explore who he is the man is much more than he finds himself in in daily life and human kind needs to step out into the unknown to see what can be his destiny Be it tribulation and sorrow or the beauty of love and compassion Man has the choice through free will His real world is out there beyond what is being seen in the physical

**Simple Sayings and Thoughts for the Mind, Heart and Soul** Joe Cervantes,2016-06-08 Wisdom knowledge and understanding are similar to finding a treasure chest full of diamonds and nuggets of gold How can anyone not take advantage of such an abundance of wealth In the midst of so much confusion one needs to take the time to believe that there is wealth in the word of God and from his people to overcome such daily adversaries We are challenged in our everyday lives but may you take that first step of faith living for God and in helping others with love where there is failure I know many books have been written with different opinions and advice by different writers about God and life As the author of this book Ive tried to give some simple wisdom and understanding in so many areas of our lives making it simple to understand of course with some sense of humor As one who goes alone through the maze of life sometimes it requires us to learn quickly in order to find the key to the cross So where advice isnt available we are tempted get off course and learn the hard way which

gets more complicated if we become stubborn Just like the whole armor of God protects every part of our spiritual and physical bodies taking some good advice and motivation will help us progress as a child of God For those who love to make things possible by taking advice may this book help you to change your route and save you time There are over six thousand thoughts of my personal sayings which can be used as a text starter for a sermon or a conservation piece for inspiration

Please enjoy them youve struck it rich with some great wisdom Joe Cervantes Resurgence ,1996 **Rainbow Earth:**

**Vision from the Future** Nina Goncharova, **Evolution of the Creation and Soul** Andreas Wolf von

Guggenberger,2023-05-16 In his work Evolution of Creation and the Soul Andreas Wolf von Guggenberger describes a fascinating creation myth and presents a new ethic for our time His original vision of the origin and genesis of creation combines scientific and spiritual theories with a deeply felt religious vision to create a stirring synthesis In it he describes How souls might have come into being with their levels of perception How they communicate How in the ADAMEBENE in the heavens the basic concepts for the universe and man evolved A new perspective on the Adam Eve myth The origin of the universe with the evolution of human beings He expands the concept of evolution by distinguishing between a spiritual evolution of consciousness and a material evolution of the universe Spiritual and material interpenetrate and mutually evolve How fate mental predispositions the will and chance create each other With 154 principles of creation he describes a continuous evolution of soul and creation He shows how these principles manifest themselves simultaneously in the everyday perception of man His work has emerged from introspection research and a journey of realization He draws from his own visions which is why his concepts differ from those of other philosophers and religious thinkers **DIVINE LOVE -**

**Transforming the Soul** James E. Padgett (Recorder),2008-08-18 This is volume five of 5 books Altogether the books contain the messages received from angelic realms by means of automatic writing through the mediumistic work of James E Padgett between 1914 and 1920 They reveal information such as the realities of the spirit and soul universe the qualities and attributes of the Creator laws of Divine Love and natural Love qualities of Absolute Truth understanding the human soul spirit body and mortal body soul progression on earth and in the spirit world spiritual laws such as the law of compensation and the law of attraction the two paths of spiritual development as first presented by Jesus in the first century each path resulting in the purification of the soul but only one path resulting in eternal progression complete emotional bliss and immortality The major theme of the basic principles governing the reception of Divine Love by the human soul is also covered

**Creating Eartheaven in Your Life Profound Transformation of Your Soul** David H. Fastiggi,2014-05-17 Creating Eartheaven in Your Life is unique and it is innate in all human beings Humanitys quest for a wholesome peaceful life goes unabated Our search for our better self that identifies with the reality of the world we live in all too often filled with grief and stress is juxtaposed with faith and hope for change or a miracle Do we just have faith expecting God will deliver humanity from the ills we have caused Should we just buckle down and be practical seeking solution with our rational self What kind of

God do we actually know or are we seeking a relationship with an image of God taught to us What is the divine matrix and does a personal God speak to us Science stands for one view of creation and faith stands for another Is there a joining point of the two Has our species Homo sapiens stalled out in evolutionary development Is the world becoming a village of cooperation and mutual peace seeking Can we continue the way we have been and survive our own arrogance What is the future of faith religion and spirituality The author in a comprehensive way takes us on a journey to explore answers to these questions and much more Eartheaven is a paradigm of integration between the souls development and our biological body and by extension all creation He delves into scientific reality while preserving in the beginning God created Creating Eartheaven in Your life is a deep exploratory of the souls life in the experience of hurt and suffering and the potential for there to be personal divine human embodiment and therefore earth peace Through ten fundamental teaching combining Jesus words of two thousand years ago an Aramaic understanding the authors revelatory experience in an apparition of Jesus his 44 years life experience psychology and science your reading and learning experience will be a challenge and liberation of the soul Profound transformation is needed and this codex offers the leverage needed to shift our life course towards personal awakening and transformation as well as providing a blue print for future generations Creating Eartheaven in Your Life brings us into universal principles of life a meeting for humanity without walls This volume of two addresses specifically transformation of the soul heaven unfolding Volume two addresses transformation of the body representing the earth and thus eartheaven Granted this book is not an easy read but proves to be a strong mirror reflecting back to us our lives and what we can become fulfilling humanitys evolutionary life potential and perhaps vital to our survival as a people
