harmonious conjugal and family life Romantic love is a fascinating passion and an ecstatic experience The very word romance captures our imagination and fills our hearts with exciting feelings The book is not a scientific treatise on love It only encapsulates romantic love with all its appealing themes My effort is to describe the splendid experience called love exclusively through my impressions The book is a product of the year 2020 marred by the Covid 19 pandemic and the terrible human exodus during the lockdown of 2020 The unexpected global and national scenario gave ample time and opportunity for reading writing and reflection Writing on a subject like romantic love helped overcome the lethargy and the feeling of devastation during the lockdown It has been an exciting creative activity and a marvellous sensation of diversion

The Power of a Story Rev. James W. Moore,2014-08-05 In this book popular author James W Moore talks about the power of a story such as those told by Jesus in the Bible The author recalls I would be sitting there in the sanctuary of our church doing what young boys do in church drawing pictures on the back of the bulletin working puzzles looking constantly at Granny s watch wishing the seconds hand would move faster daydreaming about sports kicking my feet in the air impatiently counting the organ pipes And then the preacher would start telling a story and I was hooked He had my full attention I couldn t wait to hear the story Jesus knew the importance of telling stories to convey a message or a Biblical truth and used this technique often when speaking or ministering to others throughout the Bible in the form of parables Stories are a natural way to give detail and perspective while teaching an important point

**A Book About Love** Jonah Lehrer,2017-07-25 Weaving together scientific studies from clinical psychologists longitudinal studies of health and happiness historical accounts and literary depictions child rearing manuals and the language of online dating sites Jonah Lehrer s A Book About Love plumbs the most mysterious most formative most important impulse governing our lives Love confuses and compels us and it can destroy and define us It has inspired our greatest poetry defined our societies and our beliefs and governs our biology From the way infants attach to their parents to the way we fall in love with another person to the way some find a love for God or their pets to the way we remember and mourn love after it ends this book focuses on research that attempts even in glancing ways to deal with the long term and the everyday The most dangerous myth of love is that it s easy that we fall into the feeling and then the feeling takes care of itself While we can easily measure the dopamine that causes the initial feelings of falling in love the partnerships and devotions that last decades or longer remain a mystery This book is about that mystery Love Lehrer argues is not built solely on overwhelming passion but fascinatingly on a set of skills to be cultivated over a lifetime
