Jason E. Shelton

Negros Faith In America:

A Negro's Faith in America Spencer Logan, 1946 **Critical Bibliography of Religion in America, Volume IV, parts 3, 4, and 5** Nelson Rollin Burr, 2015-12-08 Volume IV bound as two volumes provides a critical and descriptive bibliography of religion in American life that is unequalled in any other source Arranged topically so that books and articles on a single subject are discussed in relation to each other and carefully cross referenced and indexed it will be an indispensable tool for anyone exploring further into American religion or related subjects Originally published in 1961 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Blacks and Whites in Christian America** Jason E. Shelton, 2012-01-01 Conventional wisdom holds that Christians as members of a universal religion all believe more or less the same things when it comes to their faith Yet black and white Christians differ in significant ways from their frequency of praying or attending services to whether they regularly read the Bible or believe in Heaven or Hell In this engaging and accessible sociological study of white and black Christian beliefs Jason E Shelton and Michael O Emerson push beyond establishing that there are racial differences in belief and practice among members of American Protestantism to explore why those differences exist Drawing on the most comprehensive and systematic empirical analysis of African American religious actions and beliefs to date they delineate five building blocks of black Protestant faith which have emerged from the particular dynamics of American race relations Shelton and Emerson find that America's history of racial oppression has had a deep and fundamental effect on the religious beliefs and practices of blacks and whites across America **Black World/Negro Digest**, 1969-10 Founded in 1943 Negro Digest later Black World was the publication that launched Johnson Publishing During the most turbulent years of the civil rights movement Negro Digest Black World served as a critical vehicle for political thought for supporters of the movement

The Integration of the Negro Into the United States Navy, 1776-1947 Dennis Denmark Nelson, 1948 **Black Messiahs and Uncle Toms** Wilson Jeremiah Moses, 2010-11-01 **Blacks in Colonial America** Oscar Reiss, 2015-09-03 By the time of the American Revolution blacks made up 20 percent of the colonial population Early in colonial history many blacks who came to America were indentured servants who served out their contracts and then settled in the colonies as free men Over time however more and more blacks arrived as slaves and the position of blacks in colonial society suffered precipitous decline This book discusses the lives of blacks both slave and free as they struggled to make homes for themselves among the white European settlers in the New World The author thoroughly examines colonial slavery and the laws supporting it as early as 1686 for example New Jersey had laws demanding the return of fugitive slaves as well as the

emancipation movement active from the beginning of the slave trade Other topics include blacks and the practice of Christianity in the colonies and the service of blacks in the Revolution The Negro in Africa and America Joseph Alexander Tillinghast,1902 **Negro Poetry in America** Lena Beatrice Morton,1925 Tri-Faith America Kevin M. Schultz,2013-01-15 In Tri Faith America Kevin Schultz explains how the United States left behind the idea that it was a Protestant nation and embraced the notion that Protestants Catholics and Jews were Americans all Schultz describes how the tri faith idea surfaced after World War I and how by the end of World War II the idea was becoming widely accepted During the Cold War the public religiosity spurred by the fight against godless communism led to widespread embrace of the tri faith idea Blacks and Jews in America Terrence L. Johnson,Jacques Berlinerblau,2024-04 A Black Jewish dialogue lifts a veil on these groups unspoken history shedding light on the challenges and promises facing American democracy from its inception to the present and modeling the honest conversation needed for Blacks and Jews to forge a new understanding **The Harvard Guide to African-American History** Evelyn Brooks Higginbotham,2001 This massive guide sponsored by the W E B Du Bois Institute for Afro American Research at Harvard University and compiled by renowned experts offers a compendium of information and interpretation on over 500 years of black experience in America **Negro Digest** ,1945 Presbyterian Survey ,1928 *History of the American Negro in the Great World War* William Allison Sweeney,1919 The Nation ,1922 *Opportunity* Charles Spurgeon Johnson,1923 African Americans and the Bible Vincent L. Wimbush,2001-01-01 A unique study of how the Bible constructs African Americans and how African Americans construct the bibleFrom literature and the arts to popular culture and everyday life the Bible courses through black society and culture Despite the enormous recent surge of interest in African American religion scant attention has been paid to the diversity of ways in which African Americans have utilized the Bible African Americans and the Bible is the fruit of a four year collaborative research project directed by Vincent L Wimbush and funded by the Lilly Endowment It brings together scholars and experts sixty eight in all from a wide range of academic and artistic fields and disciplines including ethnography cultural history and biblical studies and also music film dance drama and literature The book is less about the meaning s of the Bible than about the Bible and meaning s less about the world s of the Bible than about how worlds and the Bible interact in short about how a text constructs a people and a people construct a text It is about a particular socio cultural formation but also about the dynamics that occur in the interrelation between any group of people and sacred texts in general African Americans and the Bible offers a critical lens through which the process of socio cultural formation can be viewed

History of the Negro Race in America George Washington Williams,1882 **The Burden of Black Religion** Curtis J. Evans,2008-04-17 Religion has always been a focal element in the long and tortured history of American ideas about race In The Burden of Black Religion Curtis Evans traces ideas about African American religion from the antebellum period to the middle of the twentieth century Central to the story he argues was the deep rooted notion that blacks were somehow

naturally religious At first this assumed natural impulse toward religion served as a signal trait of black people s humanity potentially their unique contribution to American culture Abolitionists seized on this point linking black religion to the black capacity for freedom Soon however these first halting steps toward a multiracial democracy were reversed As Americans began to value reason rationality and science over religious piety the idea of an innate black religiosity was used to justify preserving the inequalities of the status quo Later social scientists both black and white sought to reverse the damage caused by these racist ideas and in the process proved that blacks were in fact fully capable of incorporation into white American culture This important work reveals how interpretations of black religion played a crucial role in shaping broader views of African Americans and had real consequences in their lives In the process Evans offers an intellectual and cultural history of race in a crucial period of American history
