Out Of Oneself:

Despite Oneself Claudia Welz, Karl Verstrynge, 2008 *The Development of Ethics: Volume 1* Terence Irwin, 2007-09-20
Volume 1 From Socrates to the Reformation *Thinking with Kierkegaard* Arne Grøn, 2022-12-31 Arne Grøn's reading of Søren Kierkegaard's authorship revolves around existential challenges of human identity The 35 essays that constitute this book are written over three decades and are characterized by combining careful attention to the augmentative detail of Kierkegaard's text with a constant focus on issues in contemporary philosophy Contrary to many approaches to Kierkegaard's authorship Grøn does not read Kierkegaard in opposition to Hegel The work of the Danish thinker is read as a critical development of Hegelian phenomenology with particular attention to existential aspects of human experience Anxiety and despair are the primary existential phenomena that Kierkegaard examines throughout his authorship and Grøn uses these negative phenomena to argue for the basically ethical aim of Kierkegaard's work In Grøn's reading Kierkegaard conceives human selfhood not merely as relational but also a process of becoming the self that one is through the otherness of self experience that is the body the world other people and God This book should be of interest to philosophers theologians literary studies scholars and anyone with an interest not only in Kierkegaard but also in human identity *Mystery of God, Mystery of Christ* Ysabel de Andia, 2024-03-28 Now available in English for the first time Ysabel de Andia's double exploration of Christian and Hindu mysticism provides a valuable addition to the field Composed from lectures given in Benares in 2015 to priests of the Missions Etrangères de Paris *Mystery of God* *Mystery of Christ* combines the two main research interests that have defined de Andia's career first an understanding of Christian mysticism as growing out of the Christian mystery of Christ and the sacrament and secondly the relationship between this and Hindu contemplative prayer as articulated by Jules Monchanin Beginning with the Cappadocian fathers de Andia traces the developing interpretation of *Mystery* through Christian thinkers from Origen and Gregory of Nyssa to Basil and Dionysios the Areopagite From here she begins to dovetail this study with an exploration of Hindu contemplation relating the Carmelite mystic St John of the Cross to the Advaitist tradition especially as expounded by Shankara Throughout her masterful understanding of both traditions is apparent For English readers her insight will provide a fresh perspective on this lively subject area **Spiritualism and Phenomenology** Emmanuel Falque, 2025-04-08 The conflict between spiritualism and phenomenology will no longer take place Better it is through their encounter and their backlash that a new fruitfulness for thought will develop The case of Maine de Biran thus comes to exemplify a new beginning à la française for metaphysics on the one hand and for phenomenology on the other But the philosopher from Bergerac in the Dordogne is most often read according to his explicit meaning and not his implicit one He is supposedly the thinker of freedom and consciousness spiritualism or of the inner self and the lived body phenomenology But these readings forget the exceptions to the primitive fact of internal effort illness sleep sleepwalking madness the body object the outer self which mark Biran's oeuvre as one of the summits of a thought that

escapes phenomenality and confers a real consistency upon corporeality A new Columbus of metaphysics as he himself names himself Maine de Biran read otherwise initiates for today a new beginning for thought *Retrograde Planets* Erin Sullivan,2002-03-01 The phenomenon of retrograde motion is based on our Earth centered view of the solar system but the movement and cycles of retrograde planets are based entirely on the apparent motion of the Sun through the zodiac Erin Sullivan organizes and explains retrograde motion from a systems viewpoint the system of the Sun and planets and interprets retrograde planets natally by progression and in transit *Polydoxy* Catherine Keller,Laurel Schneider,2010-10-04 The essays in this book take an exciting and creative approach to doing theology in the twenty first century **The Fictive and the Imaginary** Wolfgang Iser,1993-03-01 The pioneer of literary anthropology Wolfgang Iser presents a wide ranging and comprehensive exploration of this new field in an attempt to explain the human need for the particular form of make believe known as literature Ranging from the Renaissance pastoral to Coleridge to Sartre and Beckett The Fictive and the Imaginary is a distinguished work of scholarship from one of Europe s most respected and influential critics *Willing the Good* Gabriele De Anna,2013-01-16 Science increasingly deals with human behavior biology neuroscience genetics psychology evolutionary theory and ethology all bring new insights into our actions and uncover new facts about our agency However what is the philosophical significance of their findings The answer to this question varies according to one s background philosophical views On the one hand the dominant empiricist view contends that the sciences can in principle tell us everything there is to know about human *Being and Nothingness* Jean-Paul Sartre,2021-09-07 one of the greatest philosophical works of the twentieth century In it Sartre offers nothing less than a brilliant and radical account of the human condition The English philosopher and novelist Iris Murdoch wrote to a friend of the excitement I remember nothing like it since the days of discovering Keats and Shelley and Coleridge What gives our lives significance Sartre argues in Being and Nothingness is not pre established for us by God or nature but is something for which we ourselves are responsible Combining this with the unsettling view that human existence is characterized by radical freedom and the inescapability of choice Sartre introduces us to a cast of ideas and characters that are part of philosophical legend anguish the bad faith of the memorable waiter in the caf e sexual desire and the look of the other brought to life by Sartre s famous description of someone looking through a keyhole Above all by arguing that we alone create our values and that human relationships are characterized by hopeless conflict Sartre paints a stark and controversial picture of our moral universe and one that resonates strongly today This new translation includes a helpful Translator s Introduction notes on the translation a comprehensive index and a foreword by Richard Moran Provided by publisher *RESULTS OF SPIRITUAL RESEARCH* Rudolf Steiner,2022-04-26 In a previously unavailable series of talks to the general public Rudolf Steiner builds systematically lecture by lecture on the fundamentals of spiritual science from the nature of spiritual knowledge and its relationship to conventional science the path of personal development and the task of metaphysical research to specific

questions on the mystery of death the meaning of fairy tales the significance of morality and the roles of individual figures in human evolution such as Leonardo da Vinci Raphael and Jacob Boehme At the time of these presentations Steiner had already worked in Berlin for many years and thus could reckon with a regularly returning audience to whom what mattered was to enter ever more deeply into the areas of knowledge that were newly opening up to them Marie Steiner As a consequence and through a series of inter connecting lectures whose themes are entwined with one another he was able to communicate a coherent and challenging spiritual perception of reality based on his personal research Presented here with notes an index and an introduction by Simon Blaxland de Lange the 14 lectures include How is Spiritual Science Refuted On What Foundation is Spiritual Science Based The Tasks of Spiritual Research for both Present and Future Errors of Spiritual Research Results of Spiritual Research for Vital Questions and the Riddle of Death The World Conception of a Cultural Researcher of the Present Herman Grimm and The Legacy of the Nineteenth Century *Thinking Literature across Continents* Ranjan Ghosh,J. Hillis Miller,2016-12-16 Ranjan Ghosh and J Hillis Miller two thinkers from different continents cultures training and critical perspectives debate and reflect upon what literature is can be and do in variety of contexts ranging from Victorian literature and Chinese literary criticism to Sanskrit Poetics and Continental philosophy

Reclaiming Dietrich Bonhoeffer Charles Marsh,1994 Marsh reappraises Bonhoeffer s theology and attempts to reclaim his promise for contemporary theological inquiry examining his work in the context of the German philosophical tradition from Kant to Heidegger and its relationship to Karl Barth Christliche Ethik bei Schleiermacher - Christian Ethics according to Schleiermacher Hermann Peiter,2010-04-09 No one is so intimately acquainted with Schleiermacher s Christian Ethics material or with the 1821 1822 first edition of his companion volume *Christian Faith* than Hermann Peiter The present volume is a collection of Peiter s nineteen essays and thirty reviews Extensive English summaries are offered for all this material and an English version for four of the essays Professor Peiter s summary of this volume reads as follows This book treats of praxis in the Christian life and of Christian responsibility for the world we have in common The following however forms a background for these considerations Schleiermacher reminds his Christian brethren who often deck themselves out with alien borrowed plumes from morals and metaphysics of their actual theme that of religion which he also designates as a kind or mode of faith Like Luther he also turns against both the practical misconception that considers faith itself to be a good work and the theoretical misconception that faith is a product of thinking a theory Whether a practitioner thinks to give thanks for one s own work or whether a theoretician hopes to find final fulfillment and justification in one s range of metaphysical ideas amounts to the same thing Faith is the courage to be Paul Tillich For Schleiermacher to want to have speculation thus metaphysics and praxis without religion is the nonsalutary intention of Prometheus who faintheartedly stole what he could have expected to possess in restful security If taken seriously the gods to use that pagan expression for once are that nature to which a human being belongs Each human being is their possession When one steals what the gods have

one steals oneself can thank oneself for a robbery For a gift that is stolen one cannot possibly be thankful Only a pure gift awakens true joy A human being has the chance to receive the gift that one is or is not in case it is stolen not from a thief but from religion Thanks to one's birth both physical and spiritual one gains oneself and has oneself To steal means to take away to depreciate In contrast whoever has oneself from elsewhere is no longer extracted from oneself or from the one to whom one belongs

Jean-Jacques Rousseau and Adam Smith Charles L Griswold, 2017-10-02 Jean Jacques Rousseau and Adam Smith are giants of eighteenth century thought The heated controversy provoked by their competing visions of human nature and society still resonates today Smith himself reviewed Rousseau's Discourse on Inequality and his perceptive remarks raise an intriguing question what would a conversation between these two great thinkers look like In this outstanding book Charles Griswold analyzes compares and evaluates some of the key ways in which Rousseau and Smith address what could be termed the question of the self Both thinkers discuss what we are by nature in particular whether we are sociable or not who we have become whether we can know ourselves or each other how best to articulate the human condition what it would mean to be free and whether there is anything that can be done to remedy our deeply imperfect condition In the course of examining their rich and contrasting views Griswold puts Rousseau and Smith in dialogue by imagining what they might say in reply to one another Griswold's wide ranging exploration includes discussion of issues such as narcissism self falsification sympathy the scope of philosophy and the relation between liberty religion and civic order A superb exploration of two major philosophers Jean Jacques Rousseau and Adam Smith A Philosophical Encounter is essential reading for students and scholars of these two figures eighteenth century philosophy the Enlightenment moral philosophy and the history of ideas It will also be of interest to those in related disciplines such as political theory economics and religion

A Study of the Kanuri Language Johannes Lukas, 2017-09-18 Originally published in 1937 this book is a practical manual of Kanuri which will be of use to both the layman and the linguist This

analysis makes it clear that kanuri is a tone language and the author urges the reader to observe the tone system of the language so that the accident can be fully understood as grammatical tone sometimes forms an integral part of it As this is a practical study a practical orthography has been chosen i e one that uses only letters that are absolutely necessary This system improved Kanuri orthography as it was based on scientific principles The Mirage of China Xin Liu, 2012 Today's world is one marked by the signs of digital capitalism and global capitalist expansion and China is increasingly being integrated into this global system of production and consumption As a result China's immediate material impact is now felt almost everywhere in the world however the significance and process of this integration is far from understood This study shows how the a priori categories of statistical reasoning came to be re born and re lived in the People's Republic as essential conditions for the possibility of a new mode of knowledge and governance From the ruins of the Maoist revolution China has risen through a mode of quantitative self objectification As the author argues an epistemological rift has separated the Maoist years from the present age of the People's Republic which appears on the global stage as a mirage This study is an ethnographic investigation of concepts of the conceptual forces that have produced and been produced by two forms of knowledge life and governance As the author shows the world of China contrary to the common view is not the Chinese world it is a symptomatic moment of our world at the present time

The Anthroposophical Soul Calendar and the Incarnation Cycle of Man Roland Schrapp, 2020-12-09 This book takes a completely new look at the Anthroposophical Soul Calendar It is about the deeper meaning of the fifty two weekly verses which has remained essentially unexplored in the last hundred years since the first edition by Rudolf Steiner A dense veil of Isis was spread over them of which is well known that no mortal person can lift it Only the immortal psycho spiritual human being who knows himself at home in the extrasensory higher worlds is capable of doing this Only to him the weekly verses reveal themselves as a travel guide through these worlds and lift him up to ever higher spiritual cosmic realms until he reaches the experience of God from where he gradually descends again into a new life on Earth enriched in spirit and fertilized in his soul If the reader embarks on this journey the spiritual archetype of the Soul Calendar is ultimately unveiled to him and he achieves an extended understanding of Man and Christ By many quotations from Rudolf Steiner's lectures and books the author virtually lets Steiners himself elucidate the breathtaking depths of his mysterious weekly verses
