Evaluation and Translation Carol Maier, 2014-04-23 The definition of value or quality with respect to work in translation has historically been a particularly vexed issue Today however the growing demand for translations in such fields as technology and business and the increased scrutiny of translators work by scholars in many disciplines is giving rise to a need for more nuanced more specialized and more explicit methods of determining value Some refer to this determination as evaluation others use the term assessment Either way the question is one of measurement and judgement which are always unavoidably subjective and frequently rest on criteria that are not overtly expressed This means that devising more complex evaluative practices involves not only quantitative techniques but also an exploration of the attitudes preferences or individual values on which criteria are established Intended as an interrogation and a critique that can serve to prompt a more thorough and open consideration of evaluative criteria this special issue of The Translator offers examinations of diverse evaluative practices and contains both empirical and hermeneutic work Topics addressed include the evaluation of student translations using more up to date and positive methods such as those employed in corpus studies the translation of non standard language translation into the second language terminology the application of theoretical criteria to practice a social textual perspective and the reviewing of literary translations in the press In addition reviews by a number of literary translators discuss specific translations both into and out of English

T. S. Eliot and the Ideology of Four Quartets John Xiros Cooper, 1995-12-14 Criticism of Eliot has ignored the public dimension of his life and work His poetry is often seen as the

private record of an internal spiritual struggle Professor Cooper shows how Eliot deliberately addressed a North Atlantic mandarin fearful of social disintegration during the politically turbulent 1930s Almost immediately following publication Four Quartets was accorded canonical status as a work that promised a personal harmony divorced from the painful disharmonies of the emerging postwar world Cooper connects Eliot's careers as banker director and editor to a much wider cultural agenda He aimed to reinforce established social structures during a period of painful political transition This powerful and original study re-establishes the public context in which Eliot's work was received and understood It will become an essential reference work for all interested in a wider understanding of Eliot and of Anglo American cultural relations

Donelan, 2008-03-24 James H Donelan describes how two poets a philosopher and a composer Herderlin Wordsworth Hegel and Beethoven developed an idea of self consciousness based on music at the turn of the nineteenth century This idea became an enduring cultural belief the understanding of music as an ideal representation of the autonomous creative mind Against a background of political and cultural upheaval these four major figures all born in 1770 developed this idea in both metaphorical and actual musical structures thereby establishing both the theory and the practice of asserting self identity in music Beethoven still carries the image of the heroic composer today this book describes how it originated in both his music and in how others responded to him Bringing together the fields of philosophy musicology and literary criticism Donelan shows how this development emerged from the complex changes in European cultural life taking place between 1795 and 1831 **In The Shoes of the Other** Samia Mehrez, 2019-12-10 In the Shoes of the Other Interdisciplinary Essays in Translation Studies from Cairo This anthology continues a tradition that is intended to give impetus to the development of Egyptian and Arab discourses on translation both within and beyond the American University in Cairo It is a welcome and important contribution to raising the profile of translation in all its forms and of translators in the region Mona Baker University of Manchester Since its founding the Center for Translation Studies has hosted an astonishing number of academic events that are among the most intellectually serious and internationally prominent of AUC s activities in the
