Quasi States Sovereignty International Relations And The Third World

Robert H. Jackson

Quasi States Sovereignty International Relations And The Third World:

Quasi-states Robert H. Jackson,1990 In this book Professor Robert Jackson develops an original interpretation of Third World underdevelopment explaining it in terms of international relations and law He describes Third World countries as quasi states arguing that they are states in name only demonstrating how international changes during the post 1945 period made it possible for many quasi states to be created and to survive despite the fact that they are usually inefficient illegitimate and domestically unstable Quasi-states Robert Houghwout Jackson,1993 **A Radical Green Political**

Theory Alan B. Carter,1999 This volume is the first systematic comprehensive and cogent environmental political philosophy It will be of enormous value to all those with an interest in the environment political theory and moral and political philosophy *A Radical Green Political Theory* Alan Carter,2013-12-16 This volume is the first systematic comprehensive and cogent environmental political philosophy It exposes the relationships between the ever worsening environmental crises the nature of prevailing economic structures and the role of the modern state and concludes that the combination of these factors is driving humanity towards destruction Innovative provocative and cutting edge A Radical Green Political Theory will be of enormous value to all those with an interest in the environment political theory and moral and political philosophy

Netherlands Yearbook of International Law 1997 T. M. C. Asser Instituut,1998-07-15 Contains an extensive review of Dutch state practice from the parliamentary year 1998 1999 Elgar Encyclopedia of International Relations Beate Jahn,Sebastian Schindler,2025-03-12 This Encyclopedia provides a comprehensive account of the theoretical and practical development of international relations Experts in the field examine the intellectual and political relevance of core concepts from liberalism and constructivism to war and conspiracy This title contains one or more Open Access chapters Taming the Sovereigns Kalevi Jaakko Holsti,2004-01-22 Many analysts claim that international politics has recently entered a new era following the end of the Cold War and then the events of September 11th In this book Kalevi Holsti asks what we mean by change in international politics How do we identify it How do we distinguish between significant and unimportant changes Do we really live in a new era or do we see more continuity than transformation in the texture of international politics Combining theoretical and empirical argument Holsti investigates eight major international institutions including the state sovereignty territoriality international law diplomacy trade and war Having identified the types of change these institutions have undergone during the last three centuries Holsti analyses the sources of those changes and speculates on their consequences This is a major book likely to have lasting influence in the study of international politics Re-envisioning Sovereignty Trudy Jacobsen,2016-04-08 Sovereignty as a concept is in a state of flux In the course of the last century traditional meanings have been worn away while the limitations of sovereignty have been altered as transnational issues compete with domestic concerns for precedence This volume presents an interdisciplinary analysis of conceptions of sovereignty Divided into six overarching elements it explores a wide range of issues that have altered the theory and practice

of state sovereignty such as human rights and the use of force for human protection purposes norms relating to governance the war on terror economic globalization the natural environment and changes in strategic thinking The authors are acknowledged experts in their respective areas and discuss the contemporary meaning and relevance of sovereignty and how it relates to the constitution of international order

Africa at the Millennium NA NA,2016-04-30 This book is aimed at providing a framework for African issues in the 21st century Apart from its African centered approach it argues that previously marginalized areas of research require in depth study It also introduces new areas of interest absent in existing works The book pays particular attention to the relative success of African countries and regions in their attempt to find solutions to Africa s problems and the changing role in African states in international relations

Recognizing States Mikulas Fabry,2010-02-25 This book examines recognition of new states the practice historically employed to regulate membership in international society The last twenty years have witnessed new or lingering demands for statehood in different areas of the world The claims of some like those of Bosnia and Herzegovina Eritrea Croatia Georgia and East Timor have achieved general recognition those of others like Kosovo Tamil Eelam South Ossetia Abkhazia and Somaliland have not However even as most of these claims gave rise to major conflicts and international controversies the criteria for acknowledgment of new states have elicited little systematic scholarship Drawing upon writings of English School theorists this study charts the practice from the late eighteenth century until the present Its central argument is that for the past two hundred years state recognition has been tied to the idea of self determination of peoples Two versions of the idea have underpinned the practice throughout most of this period self determination as a negative and a positive right The negative idea dominant from 1815 to 1950 took state recognition to be acknowledgment of an achievement of de facto statehood by a people desiring independence Self determination was expressed through and externally gauged by self attainment The positive idea prevalent since the 1950s took state recognition to be acknowledgment of an entitlement to independence in international law The development of self determination as a positive international right however has not led to a disappearance of claims of statehood that stand outside of its confines Groups that are deeply dissatisfied with the countries in which they presently find themselves continue to make demands for independence even though they may have no positive entitlement to it The book concludes by expressing doubt that contemporary international society can find a sustainable basis for recognizing new states other than the original standard of de facto statehood

The Law and Politics of Engaging De Facto States Benedikt Harzl,2018-05-08 The secessionist entities that emerged out of the turbulent upheavals in the 1990s in the South Caucasus have over many years and with enormous external assistance successfully defied the jurisdiction of their metropolitan states As entities that have attained a status of de facto statehood they epitomize unresolved conflicts between core principles and doctrines in public international law This study addresses the interplay between law and politics against this context and problematizes false dichotomies that have arguably hindered the transformation of these territorial disputes

The author devotes particular attention to different ways of engagement with the de facto states below the level of political endorsement *Security and Southeast Asia* Alan Collins, 2003 From internal oppression in Burma to interstate conflict in the South China Sea the people of Southeast Asia face a range of threats This book identifies and explains the security challenges both traditional and nontraditional confronting the region Collins addresses the full spectrum of security issues discussing the impact of ethnic tensions and competing political ideologies the evolving role of ASEAN and Southeast Asia's interactions with key external actors China Japan and the United States The final section of the book explores how the region's security issues are reflected in two current cases the South China Sea dispute and the war on terrorism **Private**

International Law and Global Governance Horatia Muir Watt, Diego P. Fernández Arroyo, 2014-12-18 Contemporary debates about the changing nature of law engage theories of legal pluralism political economy social systems international relations or regime theory global constitutionalism and public international law Such debates reveal a variety of emerging responses to distributional issues which arise beyond the Western welfare state and new conceptions of private transnational authority However private international law tends to stand aloof claiming process based neutrality or the apolitical nature of private law technique and refusing to recognize frontiers beyond those of the nation state As a result the discipline is paradoxically ill equipped to deal with the most significant cross border legal difficulties from immigration to private financial regulation which might have been expected to fall within its remit Contributing little to the governance of transnational non state power it is largely complicit in its unhampered expansion This is all the more a paradox given that the new thinking from other fields which seek to fill the void theories of legal pluralism peer networks transnational substantive rules privatized dispute resolution and regime collision have long been part of the daily fare of the conflict of laws The crucial issue now is whether private international law can or indeed should survive as a discipline This volume lays the foundations for a critical approach to private international law in the global era While the governance of global issues such as health climate and finance clearly implicates the law and particularly international law its private law dimension is generally invisible This book develops the idea that the liberal divide between public and private international law has enabled the unregulated expansion of transnational private power in these various fields It explores the potential of private international law to reassert a significant governance function in respect of new forms of authority beyond the state To do so it must shed a number of assumptions entrenched in the culture of the nation state but this will permit the discipline to expand its potential to confront major issues in global governance *The Everyday Lives of Sovereignty* Rebecca Bryant, Madeleine Reeves, 2021-06-15 Around the world border walls and nationalisms are on the rise as people express the desire to take back sovereignty The contributors to this collection use ethnographic research in disputed and exceptional places to study sovereignty claims from the ground up While it might immediately seem that citizens desire a stronger state the cases of compromised contested or failed sovereignty in this volume point instead to political imaginations beyond the state form

Examples from Spain to Afghanistan and from Western Sahara to Taiwan show how calls to take back control or to bring back order are best understood as longings for sovereign agency By paying close ethnographic attention to these desires and their consequences *The Everyday Lives of Sovereignty* offers a new way to understand why these yearnings have such profound political resonance in a globally interconnected world Contributors Panos Achniotis Jens Bartelson Joyce Dalsheim Dace Dzenovska Sara L Friedman Azra Hromad i Louisa Lombard Alice Wilson and Torunn Wimpelmann

De Facto State Identity and International Legitimation Sebastian Klich, 2021-11-28 Examining the state identity formation and international legitimation of de facto states this book provides a deeper understanding of the relationship between de facto states the international state system and international society The book integrates International Relations theories to construct a framework of normative standing for de facto states to better understand the social system they inhabit and the stasis in their relationship with international society demonstrated through detailed case study analysis Klich appraises the recognition narrative of de facto states in order to analyse their state identities and constructs a framework for normative standing in an original synthesis of English School constructivism and legitimacy scholarship The explanatory utility of that framework is then applied and analysed through detailed fieldwork conducted across an original set of case studies Nagorno Karabakh Somaliland and the Kurdistan Region of Iraq that have varying degrees of international engagement and parent state relationships It will be of interest to scholars and students of International Relations International Relations theory Peace and Conflict studies Comparative Politics as well as Middle Eastern studies East African studies and Post Soviet studies

Nordic Cosmopolitanism Jarna Petman, Jan Klabbers, 2021-11-01 The present collection of essays for Martti Koskeniemi provides a wide ranging overview of the state of Nordic international legal scholarship In addition to the more theoretical discussions it engages with a variety of current debates such as the war on terrorism the criminalization of international law and the position of human rights in the European Union for example The collection with a mixture of academics and practitioners will prove useful to scholars in international law international relations and related disciplines as well as officials of states and international organizations

The United States' Subnational Relations with Divided China Czeslaw Tubilewicz, Natalie Omond, 2021-05-23 This book examines US subnational engagement in foreign relations or paradiplomacy with China and Taiwan from 1949 to 2020 As an alternative diplomatic history of the United States relations with divided China it offers an in depth chronological and thematic discussion of state and local communities responses to the China Taiwan sovereignty conflict and their impact on US diplomacy The book explains why paradiplomacy matters not only in the low politics of economic and cultural cooperation but also in the high politics of diplomatic recognition Presenting case studies of US states and cities developing policies towards divided China that paralleled clashed or aligned with those pursued by federal agencies it also identifies Chinese and Taiwanese objectives and strategies deployed when competing for US subnational ties Conceptually the book builds upon Constructivism redefining paradiplomacy as an institutional fact

reflective of subnational identities and interests rather than as a subnational pursuit of foreign markets driven by objective economic forces Featuring new empirical evidence and a novel conceptual framework for paradiplomacy The United States Subnational Relations with Divided China will be a useful resource for students and scholars of US foreign policy the politics of China and Taiwan paradiplomacy and international relations

Constructing Sovereignty between Politics and Law Tanja Aalberts,2012-08-06 This book explores the interplay between sovereignty politics and law through different conceptualizations of sovereignty Despite developments such as European integration globalization and state failure sovereignty proves to be a resilient institution in contemporary international politics This book investigates both the continuity and change of sovereignty through an examination of the different ways it is understood sovereignty as an institution as identity as a language game and as subjectivity In this illuminating book Aalberts examines sovereign statehood as a political legal concept an institutional product of modern international society and seeks an interdisciplinary approach that combines international relations and international law This book traces the consequences of this origin for the conceptualization of sovereign statehood in modern academic discourse drawing on key jurisprudence and international treaties and provides a new framework to consider the international significance of sovereignty As an innovative approach to a critical institution Constructing Sovereignty between Politics and Law will be of interest to students and scholars of international relations international relations theory and international law

Central Asia Rein Mullerson,2014-04-04 This is an important analysis of a key but little known region in the wider context of world politics Central Asia has huge oil and gas resources divided between five independent states Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan each with their own problems and interests The region is energy rich and being situated between Russia and China and close to Afghanistan and other potential trouble spots it has acquired immense geo strategic importance History is seen and felt everywhere Old legacies whether they go back to Genghis Khan or stem from the recent Soviet past have a profound effect on contemporary issues and political choices Concentrating on today s problems against a complex historical background the book draws on the author s extensive involvement with the region Considerable attention is paid to Central Asian Islam human rights issues in the region and Central Asia s place in the war against terrorism

Just and Unjust Military Intervention Stefano Recchia,Jennifer M. Welsh,2013-09-26 Leading scholars explore how the arguments of classical European thinkers relate to the ethics and politics of military intervention today

Quasi States Sovereignty International Relations And The Third World Introduction

In this digital age, the convenience of accessing information at our fingertips has become a necessity. Whether its research papers, eBooks, or user manuals, PDF files have become the preferred format for sharing and reading documents. However, the cost associated with purchasing PDF files can sometimes be a barrier for many individuals and organizations. Thankfully, there are numerous websites and platforms that allow users to download free PDF files legally. In this article, we will explore some of the best platforms to download free PDFs. One of the most popular platforms to download free PDF files is Project Gutenberg. This online library offers over 60,000 free eBooks that are in the public domain. From classic literature to historical documents, Project Gutenberg provides a wide range of PDF files that can be downloaded and enjoyed on various devices. The website is user-friendly and allows users to search for specific titles or browse through different categories. Another reliable platform for downloading Quasi States Sovereignty International Relations And The Third World free PDF files is Open Library. With its vast collection of over 1 million eBooks, Open Library has something for every reader. The website offers a seamless experience by providing options to borrow or download PDF files. Users simply need to create a free account to access this treasure trove of knowledge. Open Library also allows users to contribute by uploading and sharing their own PDF files, making it a collaborative platform for book enthusiasts. For those interested in academic resources, there are websites dedicated to providing free PDFs of research papers and scientific articles. One such website is Academia.edu, which allows researchers and scholars to share their work with a global audience. Users can download PDF files of research papers, theses, and dissertations covering a wide range of subjects. Academia.edu also provides a platform for discussions and networking within the academic community. When it comes to downloading Quasi States Sovereignty International Relations And The Third World free PDF files of magazines, brochures, and catalogs, Issuu is a popular choice. This digital publishing platform hosts a vast collection of publications from around the world. Users can search for specific titles or explore various categories and genres. Issuu offers a seamless reading experience with its user-friendly interface and allows users to download PDF files for offline reading. Apart from dedicated platforms, search engines also play a crucial role in finding free PDF files. Google, for instance, has an advanced search feature that allows users to filter results by file

type. By specifying the file type as "PDF," users can find websites that offer free PDF downloads on a specific topic. While downloading Quasi States Sovereignty International Relations And The Third World free PDF files is convenient, its important to note that copyright laws must be respected. Always ensure that the PDF files you download are legally available for free. Many authors and publishers voluntarily provide free PDF versions of their work, but its essential to be cautious and verify the authenticity of the source before downloading Quasi States Sovereignty International Relations And The Third World. In conclusion, the internet offers numerous platforms and websites that allow users to download free PDF files legally. Whether its classic literature, research papers, or magazines, there is something for everyone. The platforms mentioned in this article, such as Project Gutenberg, Open Library, Academia.edu, and Issuu, provide access to a vast collection of PDF files. However, users should always be cautious and verify the legality of the source before downloading Quasi States Sovereignty International Relations And The Third World any PDF files. With these platforms, the world of PDF downloads is just a click away.

FAQs About Quasi States Sovereignty International Relations And The Third World Books

How do I know which eBook platform is the best for me? Finding the best eBook platform depends on your reading preferences and device compatibility. Research different platforms, read user reviews, and explore their features before making a choice. Are free eBooks of good quality? Yes, many reputable platforms offer high-quality free eBooks, including classics and public domain works. However, make sure to verify the source to ensure the eBook credibility. Can I read eBooks without an eReader? Absolutely! Most eBook platforms offer web-based readers or mobile apps that allow you to read eBooks on your computer, tablet, or smartphone. How do I avoid digital eye strain while reading eBooks? To prevent digital eye strain, take regular breaks, adjust the font size and background color, and ensure proper lighting while reading eBooks. What the advantage of interactive eBooks? Interactive eBooks incorporate multimedia elements, quizzes, and activities, enhancing the reader engagement and providing a more immersive learning experience. Quasi States Sovereignty International Relations And The Third World is one of the best book in our library for free trial. We provide copy of Quasi States Sovereignty International Relations And The Third World in digital format, so the resources that you find are reliable. There are also many Ebooks of related with Quasi States Sovereignty International Relations And The Third World. Where to download Quasi States Sovereignty International Relations And The Third World online for free? Are you looking for Quasi States Sovereignty International Relations And The Third World PDF? This is definitely going to save you time and cash in something you should think about.
