

¿QUÉ ES UN PREJUICIO?

El **prejuicio** es una opinión o actitud negativa que se tiene hacia una persona o grupo de personas sin tener una base real o fundamentada.

Se trata de juzgar y estereotipar a alguien por su raza, religión, género, orientación sexual u otras características, sin conocer realmente a esa persona individualmente.

Los **prejuicios** pueden generar discriminación y tratar a las personas de manera injusta, limitando la igualdad y el respeto.

Es importante cuestionar nuestros propios prejuicios y fomentar la tolerancia y el entendimiento entre todos, para construir una sociedad más inclusiva y justa.

Se trata de los semiconductores de potencia que consisten en una clase separada de componentes que necesitan un estudio apropiado por parte de todos los que los necesitan. Este volumen hace justamente eso enseñando cómo funcionan los semiconductores de potencia de una forma simple directa dando aplicaciones prácticas y los conocimientos básicos para aquellos que pretenden convertirse en ingenieros o proyectistas con un avance en los conceptos que involucren su uso. Sugerimos que antes de la lectura de este volumen los lectores hayan obtenido previamente conocimientos básicos en los volúmenes anteriores citados arriba.
