Que Peindre:

Lyotard and the 'figural' in Performance, Art and Writing Kiff Bamford, 2012-06-14 This original study offers a timely reconsideration of the work of French philosopher Jean François Lyotard in relation to art performance and writing How can we write about art whilst acknowledging the transformation that inevitably accompanies translations of both media and temporality That is the question that persistently dogs Lyotard's own writings on art and to which this book responds through reference to artists from the recently formed canon of performance art history including the myths of seminal figures Marina Abramovic and Vito Acconci and the controlled documentation of Gina Pane's actions Through the unstable untranslatable element that Lyotard calls the figural his thought is brought to bear on attempts to write a history of performance art and to question the paradoxically prescriptive demand for rules to govern re performance Kiff Bamford contextualises Lyotard's writings and approach with reference to both his contemporaries including Deleuze and Kristeva and the contemporary art about which they wrote whilst arguing for the pertinence of Lyotard's provocations today *Jean-Luc Nancy among the Philosophers* Irving Goh, 2023-02-21 This volume focuses on the relational aspect of Jean Luc Nancy's thinking As Nancy himself showed thinking might be a solitary activity but it is never singular in its dimension Building on or breaking away from other thoughts especially those by thinkers who had come before thinking is always plural relational This singular plural dimension of thought in Nancy's philosophical writings demands explication In this book some of today's leading scholars in the theoretical humanities shed light on how Nancy's thought both shares with and departs from Descartes Hegel Marx Heidegger Weil Lacan Merleau Ponty and Lyotard elucidating the sharing of voices in Nancy's phrase between Nancy and these thinkers Contributors Georges Van Den Abbeele Emily Apter Rodolphe Gasch Werner Hamacher Eleanor Kaufman Marie Eve Morin Timothy Murray Jean Luc Nancy and John H Smith **Rereading Jean-François Lyotard** Heidi Bickis, 2016-04-08 What does Lyotard's thought offer contemporary theory By focusing on key concepts and themes from his later texts such as affect aesthetics Andre Malraux St Paul nihilism infancy space and writing *Rereading Jean François Lyotard Essays on His Later Works* explores the impact and relevance of Lyotard's largely undiscussed late philosophical works for contemporary theoretical debates In his works produced from 1990 until his death in 1998 Lyotard addresses a number of themes that both revisit and move beyond those from his earlier work These include art and aesthetics affect ethics and politics modernity and the subject Despite designating these texts as part of a late period the chapters do not exclude a wider engagement with Lyotard's thought and often seek to engage in connections resonances and developments across his many texts Each chapter within this book places Lyotard as a figure with much to offer current theoretical debates reasserts Lyotard as an important thinker for developments in social thought and draws out the many links between his philosophical work and broader social questions This is the first work in English to focus on Lyotard's later writings and will therefore be a key text to all scholars of his ideas **Abjection Incorporated** Maggie Hennefeld, Nicholas

As you age you're freer and you have only your own pleasure to think of. The brain changes with time and you tend to be braver too and more likely to produce something that is completely unexpected. One reason is that you worry less about what the world thinks. You gain a certain peacefulness. This creates fertile ground for your imagination to flourish as you get older. The increase of self-esteem these activities bring is nourishing to the soul and to the body. Isn't it wonderful to find some good news in the world today? Emblematics and Seventeenth-century French Literature Laurence Grove, 2000 **Japan, France, and East-West Aesthetics** Jan Hokenson, 2004

Japan France is the first comprehensive history of the idea of Japan in France as tracked through close readings of canonical French writers and thinkers from the 1860s to the present. The focus is literary and intellectual; the context cultural. The discovery of Japanese woodblock prints in Paris following the opening of Japan to the West in 1854 was a startling aesthetic encounter that played a crucial role in the Impressionists and Post Impressionists' invention of Modernism. French writers also experimented with Japanese aesthetics in their own work in ways that similarly thread into the foundations of literary Modernism. Japonisme, the practice of adapting Japanese aesthetics to creative work in the West, became a sustained French tradition in texts by such writers as Zola and Proust through Barthes and Bonnefoy. Each generation discovered new Japanese arts and genres, commented on the work of their predecessors in this vein, and broke still more ground in East-West aesthetics to innovate in the forms of Western literature and thought. To read literary history in this way unsettles Eurocentric assumptions about many of the French writers who are commonly considered the
