Quebec Society Tradition Modernity And Nationhood:

Quebec Society Hubert Guindon, 1988 Community Besieged Garth Stevenson, 1999-06-17 In *Community Besieged* Garth Stevenson describes the unusual circumstances that allowed English speaking Quebecers to live in virtual isolation from their francophone neighbours for almost a century after Confederation He describes their relations with Maurice Duplessis and the Union Nationale and their ambivalent response to the Quiet Revolution New political issues language policy educational reform sovereignty and the constitution undermined the old system of elite accommodation in Quebec causing conflicts between anglophones and francophones and creating a new sense of anglophone identity that transcends religious differences The changing relations of Quebec anglophones with the major political parties as well as the role of newer entities such as Alliance Quebec and the Equality Party are also examined Stevenson concludes with a look at the future of anglophones in Quebec Based in part on interviews with more than sixty English speaking Quebecers who have played prominent parts in Quebec s political life *Community Besieged* is a comprehensive and up to date description of the political life of this unique minority at both the federal and provincial level *Canada 2013* Wayne C. Thompson, 2013-08-28 This is an annually updated presentation of Canada past and present *A History of Canadian Catholics* Terence J. Fay, 2002 A history of the first 400 years of Catholic life in Canada **Critical Geographies of Cycling** Glen Norcliffe, 2016-03-09 Examining cycling from a range of geographical perspectives this book uses historical and contemporary case studies to look at the history politics economy and culture of cycling Pursuing a post structural position in viewing understandings of the bicycle as contingent upon time and place author Glen Norcliffe argues for the need for widespread processes such as gendered use of the bicycle the Cyclists Rights Movement and the globalization of bicycle making to be interpreted in different ways in different settings With this in mind the essays in the book are divided into two sections relational aspects are examined as *Spaces of Cycling* which treats technological development innovation and the location of production and trade of cycles while *Places of Cycling* interprets specific sites of consumption the streets of the city in the cycling clubs among men and women and at the trade show Written from a geographer s integrative perspective to offer a broad understanding of cycling this book will also be of interest to other social scientists in urban studies cultural studies technology and society sociology history and environmental planning *Democracy with Justice/La juste democratie* Alain-G. Gagnon, Brian Tanguay, 1992-05-15 The essays in this volume 22 in English 5 in French examine themes important to the late Professor Paltiel including individual vs collective rights constitutional change lobbying and modern Quebec politics

NAFTA & Neocolonialism Laurence French, Magdaleno Manzanárez, 2004-10-22 This work is a study of the impacts of the North American Free Trade Agreement NAFTA By focusing on the issue of justice in the contexts of globalization and neo colonialism the book contributes to a broader discussion of the significance of NAFTA Authors Laurence French and Magdaleno Manzan rez emphasize cultural and ethnic issues in the relations of NAFTA partners and enrich treatment of the

topic by bringing to bear sociology political science justice studies psychology and educational theory The authors relate classical sociological theory to contemporary issues of social and criminal justice Ethnicity and Ethnic Conflict in the Post-Communist World B. Fowkes,2002-03-06 Ethnic and national conflicts have been an unexpected and major source of problems in many parts of the world in recent times Nowhere more so than in the formerly communist countries This book provides a readable introduction to and brief analytical coverage of all the ethnic disputes of the 1990s Full justice is done both to complex present day situations and the deeper roots of ethnic conflict This is followed by a review and evaluation of the main available explanations The book is required reading for anyone who wants to understand why the fall of communism did not introduce an era of goodwill between the nations Rockefeller, Carnegie, and Canada Jeffrey David Brison,2005 In the first half of the twentieth century the Rockefeller Foundation and the Carnegie Corporation helped to create and maintain a cultural and intellectual infrastructure in Canada that benefited key institutions such as University of Toronto McGill University the National Gallery the Humanities Research Council of Canada and the Canadian Social Science Research Council Jeffrey Brison documents how American philanthropy facilitated the transformation from a private localized system of cultural intellectual and academic patronage to a complex nation based system of incorporated patronage a system in which the major patron was the federal state His study calls into question our essentialistic notions of contrasting national identities and the now mythologized juxtaposition of an American culture fuelled by the free market with a Canadian one sustained by state support **Borders and Immigration** Laurence Armand French,Magdaleno Manzanárez,2019-10-16 Borders and immigration are topics dominating world affairs during the 21st century including North America This book examines the historical antecedents to the current crisis notably along the U S A Mexico border under the Trump administration Both the immigration and border issues transcend the current Administration with a history as long as that of America itself Market demands often determined the influx of immigrants into the United States resulting in periods of anti immigrant backlash based on race and ethnic factors The geo politics of market factors and immigrant backlash is rooted in both de jure and de facto politics These factors are examined in detail with particular attention to the treatment of indigenous peoples of the Americas Recent Social Trends in Canada, 1960-2000 Lance W. Roberts,2005 Canadian society has changed dramatically since 1960 This work captures the scope and range of these changes through a systematic documentation of seventy eight social trends The introduction summarizes and locates the major waves of change The authors then document each trend in relation to eighteen thematic groups that include age community women labour management stratification social relations the state mobilizing institutions social forces ideologies households lifestyle leisure education integration and attitudes and values In contrast to many recent works and journalistic reports Recent Social Trends in Canada concentrates on the trajectory of change rather than on current events It provides a longitudinal context in which unfolding events can be interpreted in a broader historical and international context Comparable volumes in the

McGill Queen's Comparative Charting of Social Change series describe similar tendencies in the United States Quebec France Germany Italy Greece Russia and Bulgaria making it possible to situate the Canadian experience in a global context

Relations of Ruling Wallace Clement, John Myles, 1994 For more than two decades sociologists have debated the social and political consequences of an emergent postindustrial society This comparative study addresses these debates using original empirical data from five advanced capitalist economies Canada the United States Sweden Norway and Finland

Small Town in Modern Times David Morton Rayside, 1991 Alexandria a town of about 3 500 people in Glengarry County in Eastern Ontario conforms in some respects to the stereotype of small towns as friendly communities without the strains of city life Although David Rayside found Alexandria to be a pleasant town in this penetrating study he reveals that this community which includes an almost equal mix of anglophones and francophones is also marked by social inequalities and divisions that parallel those in urban centres

Frog Town Laurence Armand French, 2014-07-08 Frog Town describes in detail a French Canadian parish that was unique due to the high density of both Acadian and Quebecois settlers that were situated in a Yankee stronghold of Puritan stock This demography provided for a volatile history that accentuated the inter ethnic sectarian conflicts of the time In this book Laurence Armand French discusses the work language and social activities of the working class French Canadians during the changing times that transformed them from French Canadians to Franco Americans French also articulates the current double standard of justice within New Hampshire with details of actual cases presented alongside their circumstances and judicial outcomes to offer a thorough depiction of the community of Frog Town

Rivals for Power: Ottawa and the Provinces Ed Whitcomb, 2017-05-01 Rivals for Power Ottawa and the Provinces tells the story of the politicians who continually contend over the division of power and money between Ottawa and the provinces The heroes and villains of this story include many of the leading lights of Canadian history from John A Macdonald Wilfred Laurier and Maurice Duplessis to Pierre Trudeau Joe Clark Bill Davis Peter Lougheed and Jean Chretien The unique feature of this book is its focus no matter what their policies Canadian politicians over the years have engaged in an ongoing push and pull over power with both successes and failures As Whitcomb sees it the success of the provinces at preventing Ottawa from becoming the overwhelming power in Canadian life has been the key to the country's stability and its cultural cohesion But the failure of the provinces to achieve an equal measure of power and the growing gap between the have and have not provinces stands as an ongoing challenge and threat to the country's unity

Managing Terrorism and Insurgency Cameron I. Crouch, 2009-09-10 This book examines how governments can weaken the regenerative capabilities of terrorist and insurgent groups The exploration of this question takes the form of a two tier examination of three insurgent actors whose capacity to regenerate weakened in the past the Front de libération du Québec FLQ of Canada the Movimiento de Liberación Nacional Tupamaros MLN T of Uruguay and the Provisional Irish Republican Army PIRA of Northern Ireland during the mid 1970s At the first level of its examination the book investigates the extent to which the regenerative capacities of the FLQ

MLN T and PIRA weakened because of an increase in attrition and a decrease in recruitment The primary objectives of this analysis are to uncover whether a declining intake of recruits played a lesser equal or greater role than a burgeoning loss of personnel in weakening the capacities to regenerate of the three insurgent actors and in turn to shed greater light on the broader validity of the prevailing view in conflict studies that a decrease in recruitment is more important than an increase in attrition in effecting the corrosion of an insurgent actor s capacity to regenerate At the second level of its exploration the book assesses the effectiveness of five of the most prominent policy prescriptions in the literature and insurgent recruitment and attrition ameliorating grievances selective repression discrediting insurgent ideology improving intelligence collection and restricting civil liberties This book will be of much interest to students of terrorism and counter terrorism conflict studies strategic studies and security studies in general Cameron Crouch is currently an Analyst at Allen Consulting Group an Australian economics and public policy consulting firm He has a PhD from the Strategic and Defence Studies Centre at The Australian National University

The Routledge Handbook of Comparative Rural Policy Matteo Vittuari, John Devlin, Marco Pagani, Thomas G. Johnson, 2019-10-16 This volume represents the result of almost two decades of trans Atlantic collaborative development of a policy research paradigm the International Comparative Rural Policy Studies program Over this period dozens of scientists from different disciplines but with a common interest in rural issues and policy have collaboratively studied the policies in North America Europe and other parts of the world A core element of the book is the idea and practice of comparative research and analysis what can be learned from comparisons how and why policies vary in different contexts and what lessons might or might not be transferable across borders It provides skills for the use of comparative methods as important tools to analyze the functioning of strategies and specific policy interventions in different contexts and a holistic approach for the management of resources in rural regions It promotes innovation as a tool to valorize endogenous resources and empower local communities and offers case studies of rural policy in specific contexts The book largely adopts a territorial approach to rural policy This means the book is more interested in rural regions their people and economies and in the policies that affect them than in rural sectors and sectoral policies per se The audience of the book is by definition international and includes students attending courses in agricultural and rural policy rural and regional studies and natural resource management lecturers seeking course material and case studies to present to their students in any of the courses listed above professionals working in the field of rural policy policy makers and civil servants at different levels seeking tools to better understand rural policy both at the local and global scale and to better recognize and comprehend how to transfer best practices

Religion on the Edge Courtney Bender, 2013 The thirteen essays in this volume offer a challenge to conventional scholarly approaches to the sociology of religion They urge readers to look beyond congregational settings beyond the United States and to religions other than Christianity and encourage critical engagement with religion's complex social consequences By expanding conceptual categories the essays reveal how aspects of the religious have always been part of allegedly non religious spaces and show how by attending to these intellectual blindspots we can understand aspects of identity modernity and institutional life that have long been obscured Religion on the Edge addresses a number of critical questions What is revealed about the self pluralism or modernity when we look outside the U S or outside Christian settings What do we learn about how and where the religious is actually at work and what its role is when we unpack the assumptions about it embedded in the categories we use Religion on the Edge offers groundbreaking new methodologies and models bringing to light conceptual lacunae re centering what is unsettled by their use and inviting a significant reordering of long accepted political and economic hierarchies The book shows how social scientists across the disciplines can engage with the sociology of religion By challenging many of its long standing empirical and analytic tendencies the contributors to this volume show how their work informs and is informed by debates in other fields and the analytical purchase gained by bringing these many conversations together Religion on the Edge will be a crucial resource for any scholar seeking to understand our post modern post secular world
