Queering Gay and Lesbian Studies Thomas Piontek, 2010-10-01 Queering Gay and Lesbian Studies is a broadly interdisciplinary study that considers a key dilemma in gay and lesbian studies through the prism of identity and its discontents the field studies has modeled itself on ethnic studies programs perhaps to be intelligible to the university community but certainly because the ethnic studies route to programs is well established Since this model requires a stable and identifiable community gay and lesbian studies have emphasized stable and knowable identities The problem of course is that sexuality is neither stable tidy nor developmental With the advent of queer theory there are now other perspectives available that frequently find themselves at odds with traditional gay and lesbian studies In this pioneering new study Thomas Piontek provides a critical analysis of the development of gay and lesbian studies alongside the development of queer theory the disputes between them and criticism of their activities from both in and outside of the gay academic community Examining disputes about transgendering gay male promiscuity popular culture gay history political activism and non normative sexual practices Piontek argues that it is vital to queer gay and lesbian studies opening this emerging discipline to queer critical interventions without however further institutionalizing queer theory

Reclaiming Queer Erin J. Rand,2014-05-19 The activist reclamation of the word queer is one marker of this shift in ideology and practice and it was mirrored in academic circles by the concurrent emergence of the new field of queer theory That is as queer activists were mobilizing in the streets queer theorists were producing a similar foment in the halls and publications of academia questioning regulatory categories of

gender and sexuality and attempting to illuminate the heteronormative foundations of Western thought. Notably, the narrative of queer theory's development often describes it as arising from or being inspired by queer activism. In *Reclaiming Queer*, Erin J. Rand examines both queer activist and academic practices during this period, taking as her primary object the rhetorical linkage of queer theory in the academy with street-level queer activism.

Thomas C. Foster, Carol Siegel, Ellen E. Berry, 1997-07

Queering Paradigms
Burkhard Scherer, 2009
This book brings together original, peer-reviewed research providing new perspectives on the status quo and challenges for the future of Queer Theory and Queer Studies. Drawing inspiration from the conference in Queer Studies that was held at Canterbury Christ Church University in February and March 2009, the chapters offer analyses and insights into changing academic and public discourses on sexual and gender normativities within a wide, multi- and trans-disciplinary scope. Transcending the binary axis of homo vs. heterosexuality, the book analyzes queries and challenges, multiple overt and hidden heteronormative and gender binarist assumptions in six larger areas. Paradigmatic discourses in academia and public life are discussed: Queered Identities, Queer Politics, Queering Public Discourses, Queering the Classroom, Pop Queer, and Queer Readings. The contributing authors represent the wide spectrum of scholarship engaged with Queer Theory, including political and social science, philosophy, history, literary criticism, cultural studies, education, psychology, and legal studies. They conversely and discursively contribute to the evaluation, reformulation, and if appropriate, reclaiming of academic approaches in Queer Studies.
