Return to the Center Lawrence A. Herzog, 2010-01-01 The redesign and revitalization of traditional urban centers is the cutting edge of contemporary urban planning as evidenced by the intense public and professional attention to the rebuilding of city cores from Berlin to New York City's Ground Zero Spanish and Latin American cities have never received the recognition they deserve in the urban revitalization debate yet they offer a very relevant model for this return to the center These cultures have consistently embraced the notion of a city whose identity is grounded in its organic public spaces plazas promenades commercial streets and parks that invite pedestrian traffic and support a rich civic life This groundbreaking book explores Spanish Mexican and Mexican American border cities to learn what these urban areas can teach us about effectively using central public spaces to foster civic interaction neighborhood identity and a sense of place Herzog weaves the book around case studies of Madrid and Barcelona Spain Mexico City and Querétaro Mexico and the Tijuana San Diego border metropolis He examines how each of these urban areas was formed and grew through time with attention to the design lessons of key public spaces The book offers original and incisive discussions that challenge current urban thinking about politics and public space globalization and the future of privatized communities from gated suburbs to cyberspace Herzog argues that well designed human scaled city centers are still vitally necessary for maintaining community and civic life Applicable to urban renewal projects around the globe Herzog's book will be important reading for planners architects designers and all citizens interested in creating more livable cities

Roots, Routes, and Roofs..... the Road so Far Tejas Bharadhwaj, 2021-02-17 Roots Routes and Roofs The Road so Far explains the lifestyles and experiences Tejas has embraced in four countries that differ from one another culturally religiously and historically Therefore he gets to celebrate life's little joys by learning each of the country's languages by integrating with the local communities and most importantly by finding his true identity through the travels and adaptations As an Indian family Tejas and his family members carry their knowledge of India everywhere they live and embrace their Indian background as much as embracing their residence country's background The gift he once received when he was young the gift of travelling is no longer of use due to the outbreak of a horrible pandemic Everything is disrupted institutions forced to shut down jobs lost and what personally affects Tejas the most the prohibition on travelling Tejas wrote this book to touch on several emotions and evoke different moments from his childhood that remind him what travel felt like Hopefully travellers who face the same problem as Tejas can read this book reminding them of a nostalgic moment of their life and feel like they are actually travelling somewhere just as Tejas feels when he writes about his personal perspectives and descriptions of the countries he has lived in
