These five forms of Fanonism allow contemporary critical theorists to innovatively explore the ways in which his thought and texts can be dialectically put to use in relieving the wretched experience of this generation's wretched of the earth. Critics can also apply these forms to deconstruct and reconstruct Africana Studies radical politics and critical social theory using their anti imperialist interests. Collating for the first time the key writings of Leonard Harris this volume introduces readers to a leading figure in African American and liberatory thought. Harris' writings on honor insurrectionist ethics tradition and his work on Alain Locke have established him as a leading figure in critical philosophy. His timely and urgent responses to structural racism and structural violence mark him out as a bold cultural commentator and a deft theoretician. The wealth and depth of Harris' writings are brought to the fore in this collection and the incisive introduction by Lee McBride serves to orient contextualize and frame an oeuvre that spans four decades. In his prolegomenon Harris eschews the classical meaning of philosophy supplanting it with an idiosyncratic conception of philosophy philosophia nata ex conatu that features an avowedly value laden dimension. As well as serving as an introduction to Harris' philosophy *A Philosophy of Struggle* provides new insights into how we ought conceptualize philosophy race tradition and insurrection in the 21st century.
