**Nations and Nationalism** Guntram H. Herb, David H. Kaplan, 2008-05-22 A comprehensive and revealing compilation of essays analyzing the varied dimensions of national identities and nationalisms across world regions and through time The pervasiveness of nationalism its many manifestations over the centuries and the widely scattered way it has been studied make it a particularly difficult subject to approach and explore ABC CLIO offers the finest comprehensive reference available on an essential topic in modern world history Across four volumes Nations and Nationalism A Global Historical Overview covers all aspects of nationalism in all parts of the world from the time of the French Revolution to the present day Nations and Nationalism helps students researchers and other interested readers explore national identities and nationalistic movements in historical context Organized chronologically its four volumes combine thematic essays on different characteristics of nationalism with case studies of key historical developments involving specific nations at specific times The encyclopedia focuses on Europe Latin America Africa and Asia with featured coverage of nationalist cultural creations

including literature music symbols and mythologies      *Do 'Zimbabweans' Exist?* Sabelo J. Ndlovu-Gatsheni, 2009 This book examines the triumphs and tribulations of the Zimbabwean national project providing a radical and critical analysis of the fossilisation of Zimbabwean nationalism against the wider context of African nationalism in general The book departs radically from the common praise texts in seriously engaging with the darker aspects of nationalism including its failure to create the nation as people and to install democracy and a culture of human rights The author examines how the various people inhabiting the lands between the Limpopo and Zambezi Rivers entered history and how violence became a central aspect of the national project of organising Zimbabweans into a collectivity in pursuit of a political end      **Child Soldiers in Context** Artur Bogner, Gabriele Rosenthal, 2020 Long before IS and Boko Haram the messianic Lord's Resistance Army LRA in Uganda was considered as one of the most brutal rebel groups in Africa or in the world and as one which clearly specialized in the abduction recruitment and deployment of children and adolescents as combatants This book presents the results of a research project on former child soldiers and rebels in northern Uganda and their reintegration into society after their return to civilian life The authors investigate their biographies and the social figurations or relationships between them and members of the civilian population that emerged following their return not least in their families of origin and show which conditions facilitate or hinder their reintegration into civilian life The discussion also shows what distinguishes them from former members of rebel groups in the neighboring region of West Nile in respect of their history and how they were recruited as well as in their present situation and social position      Social Media and Digital Dissidence in Zimbabwe Trust Matsilele, 2022-08-29 This book proposes a new theorisation when studying cyber dissidents in an African digital sphere It argues that social media dissidents are a recent development in a long lineage of dissidents in African societies Using Zimbabwe as a case study the study locates contemporary dissidents in the same family with other historical dissident figures found in African orature the Chimurenga wars through music poetry and other forms of expression The book argues against techno deterministic approaches to studying social media born digital dissidence in Africa It is aimed at scholars dedicated to studying social media movements in African contexts and the global south generally prompting them to re evaluate their earlier conclusions and adopt a more nuanced and contextspecific approach      *The Resolution of African Conflicts* Alfred G. Nhema, Paul Tiyambe Zeleza, 2008 These two volumes clearly demonstrate the efforts by a wide range of African scholars to explain the roots routes regimes and resolution of African conflicts and how to re build post conflict societies They offer sober and serious analyses eschewing the sensationalism of the western media and the sophistry of some of the scholars in the global North for whom African conflicts are at worst a distraction and at best a confirmation of their pet racist and petty universalist theories From the introduction by Paul Tiyambe Zeleza This book offers analyses of a range of African conflicts and demonstrates that peace is too important to be left to outsiders
