Comrades at Odds Andrew J. Rotter, 2018-10-18 *Comrades at Odds* explores the complicated Cold War relationship between the United States and the newly independent India of Jawaharlal Nehru from a unique perspective that of culture broadly defined In a departure from the usual way of doing diplomatic history Andrew J Rotter chose culture as his jumping off point because he says Like the rest of us policymakers and diplomats do not shed their values biases and assumptions at their office doors They are creatures of culture and their attitudes cannot help but shape the policy they make To define those attitudes Rotter consults not only government documents and the memoirs of those involved in the events of the day but also literature art and mass media An advertisement a photograph a cartoon a film and a short story he finds tell us in their own ways about relations between nations as surely as a State Department memorandum does While expanding knowledge about the creation and implementation of democracy Rotter carries his analysis across the categories of race class gender religion and culturally infused practices of governance strategy and economics Americans saw Indians as superstitious unclean treacherous lazy and prevaricating Indians regarded Americans as arrogant materialistic uncouth profane and violent Yet in spite of these stereotypes Rotter notes the mutual recognition of profound similarities between the

two groups they were indeed comrades at odds *The Natures of Science* Neville McMorris,1989 A too swift examination for the benefit evidently of fairly naive readers of broad philosophical and historical themes in the development of science The ten chapters are grouped by pairs under five topical heads which treat respectively the philosophical aesthetic cultural methodological scientific nature of science Mathematical material encountered in the final chapter Classical duality in modern physics is likely to be considered off putting by many of the intended readers Rather awkwardly composed though attractively printed and bound The author is chairman of the Physics Department at the University of the West Indies NW Annotation copyrighted by Book News Inc Portland OR **Perspectives on Indian Development** R.
