Quest Seeking The New Adam:

A New Dictionary of the English Language Charles Richardson, 1837 **The Century Dictionary and Cyclopedia: The Century dictionary ... prepared under the superintendence of William Dwight Whitney ... rev. & enl. under the superintendence of Benjamin E. Smith**, 1911 **The Wilderness Within** Kristina K. Groover, 1999-01-01

America's literature is notably marked by a preoccupation with the spiritual quest. Questing heroes from Huck Finn to Nick Adams have undertaken solitary journeys that pull them away from family and society and into a transformative wilderness that brings them to a new understanding of the spiritual world. Women, however, have not often been portrayed as questing heroes. Bound to home and community, they have been more frequently cast as representatives of that stifling world from which the hero is compelled to flee. Are women in American literary texts thus excluded from spiritual experience? Kristina K. Groover, in examining this question, finds that books by American women writers offer alternative patterns for seeking revelation: patterns which emphasize not solitary journeys but the sacredness of everyday life. Drawing on the work of feminist theorists and theologians including Carol Gilligan, Naomi Goldenberg, and Rosemary Ruether, Groover explores the spiritual nature and force of domesticity, community storytelling, and the garden in the works of such writers as Toni Morrison, Katherine Anne Porter, Kaye Gibbons, and Alice Walker. Ordinary personal experience in these works becomes a source for spiritual revelation. Wisdom is gained, lessons are learned, and lives are healed not in spite of home and communal ties but because of them. Thus American women writers, Groover argues, make alternative literary and spiritual paradigms possible. Similarly, Kristina K. Groover in this lucid and groundbreaking work opens up new fields of exploration for any reader interested in women's spirituality or in the rich, diverse field of American literature.

City of Nature Bernard Rosenthal, 1980. This book reexamines traditional assumptions about early American attitudes toward nature. It also reopens and redefines the relationships of nature and civilization in the previous century and, in so doing, offers today's reader an insight into the basis for some contemporary attitudes toward the environment. The works of major and minor American writers are considered.

Divine Covenants and Moral Order David VanDrunen, 2014-05-14. This book addresses the old question of natural law in its contemporary context. David VanDrunen draws on both his Reformed theological heritage and the broader Christian natural law tradition to develop a constructive theology of natural law through a thorough study of Scripture. The biblical covenants organize VanDrunen's study. Part 1 addresses the covenant of creation and the covenant with Noah, exploring how these covenants provide a foundation for understanding God's governance of the whole world under the natural law. Part 2 treats the redemptive covenants that God established with Abraham, Israel, and the New Testament church, and explores the obligations of God's people to natural law within these covenant relationships. In the concluding chapter of *Divine Covenants and Moral Order*, VanDrunen reflects on the need for a solid theology of natural law and the importance of natural law for the Christian's life in the public square.
