Ecotourism Development in Costa Rica Andrew P. Miller,2012-08-17 Ecotourism Development in Costa Rica The Search for Oro Verde by Andrew P Miller examines the use of ecotourism as a development strategy in Costa Rica and its applicability to other Central American states Ecotourism provides an important environmental check on industry giving the environment a voice by making its preservation an economic necessity due to the number of people who derive their income from it The move away from agriculture to ecotourism is a natural fit because many of those who are engaged in agriculture have extensive knowledge of plants and animals that can be utilized by the ecotourism industry The use of ecotourism as a development strategy is distinctive For ecotourism to succeed it must preserve the natural environment but it must do so in a way that does not preclude growth in other sectors of the economy Miller shows how the successful pursuit of foreign direct investment coupled with Costa Rica s immense biodiversity and its attractiveness to tourists is key to understanding the success of the Costa Rican economy Many of the preferences that ecotourists have for a vacation destination also help create an amenable atmosphere for business These factors include political and social stability high quality of life low levels of corruption economic freedom high levels of education and a suitable infrastructure The most important part of this research is its development of strategies based upon the Costa Rican model that would be useful for other states in the region When

looking at whether states can replicate the development strategy of Costa Rica environmental sustainability is an important concern Ecotourism Development in Costa Rica is an essential text for students and scholars interested in Latin American politics and history development studies and environmental sustainability A Democratic Theory of Judgment Linda M.G. Zerilli,2016-12-12 In this sweeping look at political and philosophical history Linda M G Zerilli unpacks the tightly woven core of Hannah Arendt s unfinished work on a tenacious modern problem how to judge critically in the wake of the collapse of inherited criteria of judgment Engaging a remarkable breadth of thinkers including Ludwig Wittgenstein Leo Strauss Immanuel Kant Frederick Douglass John Rawls J rgen Habermas Martha Nussbaum and many others Zerilli clears a hopeful path between an untenable universalism and a cultural relativism that forever defers the possibility of judging at all Zerilli deftly outlines the limitations of existing debates both those that concern themselves with the impossibility of judging across cultures and those that try to find transcendental rational values to anchor judgment Looking at Kant through the lens of Arendt Zerilli develops the notion of a public conception of truth and from there she explores relativism historicism and universalism as they shape feminist approaches to judgment Following Arendt even further Zerilli arrives at a hopeful new pathway seeing the collapse of philosophical criteria for judgment not as a problem but a way to practice judgment anew as a world building activity of democratic citizens The result is an astonishing theoretical argument that travels through and goes beyond some of the most important political thought of the modern period *Understanding Central America* John A.
