Quest For Total Bliss:

Osho Rajaneesh and His Disciples Harry Aveling, 1999 Osho Never Born Never Died Only visited this Planet Earth between December 11 1931 January 19 1990 As this final inscription suggests Osho Rajneesh was a paradox an individual with no claims to being an individual a Master with thousands of disciples who refused to be a Master He has variously been seen as the god that failed the most dangerous man since Jesus Christ and the Buddha for the future This book brings together some of the best short writings in English on Osho and neo Sannyasa Some of the pieces are celebratory some inquisitive but uncommitted some scholarly and some frankly sceptical The book is divided into four parts dealing with Osho himself his Community Meditation and Therapy and the Decline and Renewal of his movement with a postscript on the present commune Together the papers provide a full picture of a complex man and a vibrant if turbulent religious movement

Quest Mrs. J. C. Bates, 1864 **Psychobiographies and Godly Visions** Stephen A. Kent, 2025-08-06 This book argues that the religious visions and experiences of many religious founders were the result of mental health disorders or neurological conditions thereby calling into question supernatural origins about the faiths that they developed It constructs this argument by extensively utilizing psychiatric and other mental health and medical material that social scientists and religious studies scholars have underutilized in their analyses of religious experiences Using a multi disciplinary approach to examine psychobiographies of numerous major and minor religious figures in Judaism Christianity and Islam Ezekiel Sabbatai evi St Paul John Wesley and Muhammad along with leaders of many newer or alternative sects and cults Rajneesh Charles Manson L Ron Hubbard David Berg Marshall Applewhite Jim Jones Sun Myung Moon and Elizabeth Clare Prophet The book integrates material from religious studies psychiatry and psychology neurology and the social sciences to address issues related to religions origins Its extensive bibliography makes it an indispensable resource for scholars of psychiatry and religion new religious movements and religious narcissism *Research in the Social Scientific Study of Religion* Joanne Marie Greer, David O. Moberg, Monty L. Lynn, 2001-04-01 Various articles are presented covering psychological sociological and cross cultural topics or relevance to religious spiritual researchers and academics Language and Nationality Pietro Bortone, 2021-09-23 What role does language play in the formation and perpetuation of our ideas about nationality and other social categories And what role does it play in the formation and perpetuation of nations themselves and of other human groups Language and Nationality considers these questions and examines the consequences of the notion that a language and a nationality are intrinsically connected Pietro Bortone illustrates how our use of language reveals more about us than we think is constantly judged and marks group insiders and group outsiders Casting doubt on several assumptions common among academics and non academics alike he highlights how languages significantly differ among themselves in structure vocabulary and social use in ways that are often untranslatable and can imply a particular culture Nevertheless he argues this does not warrant the way language has been used for promoting a national outlook and for teaching us to identify with a

nation Above all the common belief that languages indicate nationalities reflects our intellectual and political history and has had a tremendous social cost Bortone elucidates how the development of standardized national languages while having merits has fostered an unrealistic image of nations and has created new social inequalities He also shows how it has obscured the history of many languages artificially altered their fundamental features and distorted the public understanding of what a language is

to the exploration of the stories by which they live and to the creation of new narratives for their future lives Guru English Srinivas Aravamudan, 2006 Guru English is a bold reconceptualization of the scope and meaning of cosmopolitanism examining the language of South Asian religiosity as it has flourished both inside and outside of its original context for the past two hundred years The book surveys a specific set of religious vocabularies from South Asia that Aravamudan argues launches a different kind of cosmopolitanism into global use Using Guru English as a tagline for the globalizing idiom that has grown up around these religions Aravamudan traces the diffusion and transformation of South Asian religious discourses as they shuttled between East and West through English language use The book demonstrates that cosmopolitanism is not just a secular Western discourse that results from a disenchantment with religion but something that can also be refashioned from South Asian religion when these materials are put into dialogue with contemporary social movements and literary texts Aravamudan looks at religious forms of neoclassicism nationalism Romanticism postmodernism and nuclear millenarianism bringing together figures such as Swami Vivekananda Sri Aurobindo Mahatma Gandhi and Deepak Chopra with Rudyard Kipling James Joyce Robert Oppenheimer and Salman Rushdie Guru English analyzes writers and gurus literary texts and religious movements and the political uses of religion alongside the literary expressions of religious teachers showing the cosmopolitan interconnections between the Indian subcontinent the British Empire and the American New Age **From Your Mat to Your Memoir** Rebecca Lyn Gold, 2024-02-11 When we encounter obstacles in our writing it's easy to assume the problem is all in our heads But yoga philosophy teaches us that nothing is all in our heads in part because our minds are just one layer through which we experience our world We must make space for the stories to reveal themselves before we write But how do we do that Rebecca Lyn Gold tackles that question by introducing the pancha kosha theory in yogic philosophy which highlights the five layers of awareness through which we experience life She explores how to balance the philosophy alongside practices that bring awareness to each layer in a way that reveals memories and stories She also leads readers on a twenty one day journey that includes yogic practices and writing prompts to find and write your life stories You will be introduced to yoga poses to open areas of the body where trauma or memories may be stored breath control practices to stimulate and balance the brain and meditations with mudras and mantras to gain insight and inspiration Discover how to write deep authentic life stories with the insights lessons and exercises in *From Your Mat to Your Memoir* *Religion and Anthropology* Brian Morris, 2006 This important textbook provides a critical introduction to the social anthropology of religion focusing on more recent classical ethnographies Comprehensive free of scholastic jargon engaging and comparative in approach it covers all the major religious traditions that have been studied concretely by anthropologists Shamanism Buddhism Islam Hinduism Christianity and its relation to African and Melanesian religions and contemporary Neopaganism Eschewing a thematic approach and treating religion as a social institution and not simply as an ideology or symbolic system the book follows the dual heritage of social anthropology in combining an interpretative understanding and sociological
