**Qu'est-ce que le structuralisme? 1. le structuralisme en linguistique** O. Ducrot,1973      Emotive Language in Argumentation Fabrizio Macagno,Douglas Walton,2014-02-17 This book analyzes the uses of emotive language and redefinitions from pragmatic dialectical epistemic and rhetorical perspectives investigating the relationship between emotions persuasion and meaning and focusing on the implicit dimension of the use of a word and its dialectical effects It offers a method for evaluating the persuasive and manipulative uses of emotive language in ordinary and political discourse Through the analysis of political speeches including President Obama's Nobel Peace Prize address and legal arguments the book offers a systematic study of emotive language in argumentation rhetoric communication political science and public speaking      Lectures on Language Theory 1942-1943 Louis Hjelmslev,2024-12-15 The present book is the English translation of Louis Hjelmslev's lectures on glossematics the theory of language developed in the forties by him and Hans Jrgen Uldall and taught at the University of Copenhagen in 1942 43 thoroughly taken down in shorthand by his student Harry Wett Frederiksen The document unpublished so far is one of a kind in its pedagogical dimension as it aims to introduce students and now readers to the glossematician's workshop informally discussing its theoretical framework the operations employed in description and the reasons why such operations were devised via a concrete analysis of Hans Christian Andersen's fairy tale The Sweethearts Overall the document offers a unique glimpse into the machinery of one of the most epistemologically aware and rigorous theories of language developed in the 20th century

**politique et ses langages Volume 2** Marta Degani, Paolo Frassi, Maria Ivana Lorenzetti, 2016-12-14 The Languages of Politics La politique et ses langages provides a multifaceted view of major approaches to the study of political discourse from an interdisciplinary perspective To date most contributions to the analysis of political discourse have come from the fields of rhetoric critical discourse analysis cognitive linguistics pragmatics lexicology lexicography and more recently multimodal discourse analysis The papers in this volume build their investigations on these perspectives and provide new and diversified insights into this vast area of research Besides considering multiple approaches the book also adds to the current debate on the languages of politics by combining a range of theoretical and methodological considerations and by featuring contributions in both English and French     Critical Perspectives on Christopher Okigbo Donatus Ibe Nwoga, 1984 A collection of essays and reviews both favourable and negative about the Igbo poet The book begins with a memorial essay by Chinua Achebe Other contributors examine the imagery that Okigbo drew from nature history and politics exploring the surrealistic qualities of his work     **Textual Strategies** Josue V. Harari, 2019-06-30 A stellar cast of fifteen contributors seeks to show the direction in which continental and continentally oriented American literary criticism has evolved in recent years Nine of the essays are published here for the first time five of the remaining six were translated by the editor from the French only one has previously appeared in English The essays make available some of the most important and most representative work that has been done in the wake of structuralism Among the topics treated are the relationships between semiology and literature anthropology and literature and psychoanalysis and literature modern American poetics algebraic models as epistemological operators the modes of production of a poem Flaubert's view of history and poetic language Professor Harari has arranged the essays to move from the general to the particular and from the abstract to the concrete In an informative and ambitious introduction he discusses each essay in relation to the whole and explains the interrelationships among the various theories and strategies that are represented in the anthology A book meant for the specialist as well as the novice for the teacher of literature and criticism as well as the student Textual Strategies is a brilliant introduction to post structuralist critical theories and practices     **Linguistique générale et romane** Bertil Malmberg, 2017-12-04 No detailed description available for Linguistique générale et romane     **History of Structuralism: The sign sets, 1967-present** François Dosse, 1997 Content Description Includes bibliographical references and index     **Why There Is No Poststructuralism in France** Johannes Angermuller, 2015-10-08 French thinkers such as Lacan and Derrida are often labelled as representatives of poststructuralism in the Anglophone world However in France where their work originated they use no such category this group of theorists the poststructuralists were never perceived as a coherent intellectual group or movement Outlining the institutional contexts affinities and rivalries of among others Althusser Barthes Foucault Irigaray and Kristeva Angermuller drawing from Bourdieu's concepts of cultural capital and the academic field insightfully explores post structuralism as a phenomenon By tracing the evolution of the French intellectual field after the war Why There is No
