World, Class, Britain C. Paton, 2015-12-22 This book begins by tracing the sea change in British politics from the 1970s to the end of the twentieth century The dominance of market ideology the decline of social democracy and the marketization of public policy are related to a widespread acceptance of globalization Contemporary global capitalism is analyzed not least as to its likely effect on countries such as Britain New Labour's Third Way is portrayed as reinforcing the apparent inevitability of globalization In this environment political and economic alternatives tend to be dismissed fatalistically Politics is no longer about real choice The second part of the book as well as sketching an economic alternative investigates how political theory and ethical concepts can help us today to re-establish the search for human freedom and a balanced society Such a vision can

appeal to conservatives liberals and socialists alike It argues that a political coalition to further such ends is conceivable if very difficult to organise or maintain Finally the postmodern stance of eschewing ethical and political progress is criticized
