A Question of Identity Anne J. Kershen, 1998. A Question of Identity is a multi-disciplinary exploration of one of the most vital issues in the contemporary world. Never was this topic more relevant than now on the threshold of the twenty-first century. At a time when the global economy, European citizenship and worldwide religion are the order of the day, nationalism as in eastern Europe and the Balkans and regionalism in Wales and Scotland provide perfect examples right high on the agenda. It is the problems and paradoxes that emerge immediately the subject is raised that form the core of this book. A Question of Identity breaks new ground by drawing together eminent academics from a variety of disciplines including anthropology, history, law, linguistics, politics, psychology and sociology to examine the way in which issues of identity have impacted on society and the way in which changes in society have resulted in a re-evaluation of identity. Topics covered include Britishness within the context of devolution, language and identity, religion, gender and identity, the political and legal problems of European citizenship, elderly migrants and identity and German identity after reunification. The book explores questions of identity in two sections: British and global. The main conclusion to be reached is that at any period of history the question of identity is complex, composed of interacting facets which combine in larger or smaller proportions to create the whole. Be that individual, group, ethnic, religious, national or supranational. This book sets out to identify some of the facets that contribute to the whole and by so doing answers some of the questions which are currently circulating around the question of identity.

The Kurdish Question: Identity, Representation and the Struggle for Self-Determination, 2015-07-15. The book examines several models which have been advocated for a workable and acceptable solution to the Kurdish problem which would be absolutely necessary for stability in the West Asian region. The book evaluates how the more than two-decade-long experience of Kurdish self-rule in a democratic framework in Iraqi Kurdistan affects the debate over the other Kurdish regions in West Asia. With Turkey's European Union accession process contributing to the opening of the political space to ethno-nationalism, there is a need for a non-military solution to the Kurdish issue. The book analyses the role of the Kurdish diaspora which plays a significant part in placing the Kurdish question on the European political agenda. It also examines the role of the Kurds in the aftermath of the Arab Spring and the changing geopolitics in the region. Now the Kurds maintain the strongest platform in battling against the ISIS terrorists.
