## **Questioning Extreme Programming:**

Questioning Extreme Programming Pete McBreen, 2003 Ever since Extreme Programming burst on to the application development scene in 1998 it has been a lightning rod for controversy In Questioning Extreme Programming author McBreen puts this agile approach to application development under the microscope and closely examines both sides of this heated **Extreme Programming Refactored** Don Rosenberg, Matt Stephens, 2008-01-01 Extreme Programming Refactored The Case Against XP featuring Songs of the Extremos takes a satirical look at the increasingly hyped extreme programming XP methodology It explores some quite astonishing Extremo quotes that have typified the XP approach quotes such as XPers are not afraid of oral documentation Schedule is the customer's problem Dependencies between requirements are more a matter of fear than reality and Concentration is the enemy In between the chuckles though there is a serious analysis of XP s many flaws The authors also examine C3 the first XP project whose team most of whom went on to get XP book deals shortly before C3 s cancellation described themselves as the best team on the face of the Earth In a later chapter the authors also note that one problem which can affect pair programmers is overconfidence or is that eXcessive courage The authors examine whether the problems that led to C3 s inexplicable cancellation could also afflict present day XP projects In the final chapter Refactoring XP Matt and Doug suggest some ways of achieving the agile goals of XP using some XP practices used in moderation combined with other less risk laden methods Testing Extreme Programming Lisa Crispin, Tip House, 2003 Testing is a cornerstone of XP as tests are written for every piece of code before it is programmed This workbook helps testers learn XP and XP devotees learn testing This new book defines how an XP tester can optimally contribute to a project including what testers should do when they should do it and how they should do it **Extreme Programming** Kent Beck, Martin Fowler, 2001 Without careful ongoing planning the software development process can fall apart Extreme Programming XP is a new programming discipline or methodology that is geared toward the way that the vast majority of software development projects are handled in small teams In this new book noted software engineers Kent Beck and Martin Fowler show the reader how to properly plan a software development project with XP in mind The authors lay out a proven strategy that forces the reader to plan as their software project unfolds and therefore avoid many of the nasty problems that can potentially spring up along the way Extreme Programming Explained Kent Beck, 2000 Beck wants to encourage readers to re examine their preconceptions of how software development ought to occur He does just that in this overview of Extreme Programming a controversial approach to software development which challenges the notion that the cost of changing a piece of software must rise dramatically over the course of time Extreme Programming and Agile Processes in Software Engineering Michele Marchesi, Giancarlo Succi, 2003-05-13 The LNCS series reports state of the art results in computer science research development and education at a high level and in both printed and electronic form Enjoying tight cooperation with the R D community with numerous individuals as well as with prestigious organizations and

societies LNCS has grown into the most comprehensive computer science research forum available The scope of LNCS including its subseries LNAI spans the whole range of computer science and information technology including interdisciplinary topics in a variety of application fields Book jacket **Extreme Programming and Agile Methods -**XP/Agile Universe 2004 Carmen Zannier, Hakan Erdogmus, Lowell Lindstrom, 2004-11-29 It was 1999 when Extreme Programming Explained was rst published making this year s event arguably the fth anniversary of the birth of the XP Agile movement in software development Our fourth conference rejected the evolution and the learning that have occurred in these exciting ve years as agile practices have become part of the mainstream in software development These pages are the proceedings of XP Agile Universe 2004 held in beautiful Calgary gateway to the Canadian Rockies in Alberta Canada Evidentintheconferenceis thefactthatourlearningis still inits earlystages While at times overlooked adaptation has been acore principle of agile software development since the earliest literature on the subject The conference and these proceedings re force that principle Although some organizations are able to practice agile methods in the near pure form most are not re ecting just how radically innovativethese methods areto thisday Anyinnovationmustcoexistwithan existing environmentand agiles oware development is no different There are numerous challenges confronting IT and software development organizations today with many solutions pitched by a cadre of advocates Be it CMM offshoring outsourcing security or one of many other current topics in the industry teams using or transitioning to Extreme Programming and other agile practices must integrate with the rest of the organization in order to succeed The papers here offer some of the latest experiences that teams are having in those efforts XP Agile Universe 2004consisted of workshops tutorials papers panels the Open Space session the Educators Symposium keynotes educational games and industry presentations Extreme Programming and Agile Processes in Software Engineering Jutta Eckstein, Hubert Baumeister, 2004-06-01 Software development is being revolutionized The heavy weight processes of the 1980s and 1990s are being replaced by light weight so called agile processes Agile processes move the focus of software development back to what really matters running software This is only made possible by accepting that software development is acreative jobdone by with and for individual human beings. For this reason agile software development encourages interaction communication and fun This was the focus of the Fifth International Conference on Extreme P grammingandAgileProcessesinSoftwareEngineeringwhichtookplacebetween June 6 and June 10 2004 at the conference center in Garmisch Partenkirchen at the foot of the Bavarian Alps near Munich Germany In this way the conference provided a unique forum for industry and academic professionals to discuss their needs and ideas for incorporating Extreme Programming and Agile Metho logies into their professional life under consideration of the human factor We celebrated this year's conference by rejecting on what we had achieved in the last half decade and we also focused on the challenges we will face in the near future Extreme Programming and Agile Methods - XP/Agile Universe 2003 Frank

Maurer, 2003-07-29 This book constitutes the refereed proceedings of the XP Agile Universe 2003 Conference held in New Orleans LA USA in August 2003 The 17 revised full papers presented together with abstracts or papers from an educator symposium and workshop summaries were carefully reviewed and selected from 35 submissions. The papers are organized in topical sections on becoming agile agile methods and processes agile testing and tool support for agile teams Programming for Web Projects Doug Wallace, Isobel Raggett, Joel Aufgang, 2003 Allowing readers to tailor cutting edge best practices from software development to achieve success in Web development is the goal of this comprehensive guide The book details a proven process that helps readers deliver Web projects on time within budget and with fewer defects Agile Processes in Software Engineering and Extreme Programming Pekka Abrahamsson, Michele Marchesi, Frank Maurer, 2009-05-19 The field of software engineering is characterized by speed and turbulence in many regards While new ideas are proposed almost on a yearly basis very few of them live for a decade or a longer Lightweight software development methods were a new idea in the latter part of the 1990s Now ten years later they are better known as agile software development methods and an active community driven by practitioners has formed around the new way of thinking Agile software development is currently being embraced by the research community as well As a sign of increased research activity most research oriented conferences have an agile software development track included in the conference program The XP conference series established in 2000 was the first conference dedicated to agile processes in software engineering The idea of the conference is to offer a unique setting for advancing the state of the art in research and practice of agile processes This year's conference was the tenth consecutive edition of this international event Due to the diverse nature of different activities during the conference XP is claimed to be more of an experience rather then a regular conference It offers several different ways to interact and strives to create a truly collaborative environment where new ideas and exciting findings can be presented and shared This is clearly visible from this year s program as well *Agile Processes in Software* Engineering and Extreme Programming Alberto Sillitti, Xiaofeng Wang, Angela Martin, Elizabeth Whitworth, 2010-06-03 Interest in agile development continues to grow the number of practitioners adopting such methodologies is increasing as well as the number of researchers investigating the effectiveness of the different practices and proposing improvements The XP c ference series has actively participated in these processes and supported the evolution of Agile promoting the conference as a place where practitioners and researchers meet to exchange ideas experiences and build connections XP 2010 continued in the tradition of this conference series and provided an int esting and varied program As usual we had a number of different kinds of activities in the conference program including research papers experience reports tutorials workshops panels lightning talks and posters These proceedings contain full search papers short research papers and experience reports Moreover we have also included in these proceedings the abstracts of the posters the position papers of the PhD symposium and the abstract of the panel This year we had two different program committees for evaluating research papers and experience reports Each committee included experts in the specific area This approach allowed us to better evaluate the quality of the papers and provide better suggestions to the authors to improve the quality of their contributions

Extreme Programming and Agile Methods - XP/Agile Universe 2002 Don Wells, Lauris Williams, 2003-08-02 The second XP Universe and rst Agile Universe brought together many p ple interested in building software in a new way Held in Chicago August 4 7 2002 it attracted software experts educators and developers Unlike most c ferences the venue was very dynamic Many activities were not even well de ned in advance All discussions were encouraged to be spontaneous Even so there were some written words available and you are holding all of them now We have collected as much material as possible together into this small volume It is just the tip of the iceberg of course A reminder to us of what we learned the people we met and the ideas we expressed The conference papers including research and experience papers are rep duced in these proceedings Forty one 41 papers were submitted Each subm ted paper received three reviews by program committee members The program committee consisted of 40 members Papers submitted by program committee members were referred separately This ensured that reviewers could provide an honest feedback not seen by the paper submitters In many cases the program committee shepherded authors to signi cantly improve their initial submission prior to completing the version contained in these proceedings In the end the program committee chose 25 papers for publication 60% acceptance Software Process Improvement Frank Bomarius, Markku Oivo, Päivi Jaring, Pekka Abrahamsson, 2009-06-18 On behalf of the PROFES Organizing Committee we are proud to present the proce things of the 10 International Conference on Product Focused Software Process provement PROFES 2009 held in Oulu Finland Since the first conference in 1999 the conference has established its place in the software engineering community as a respected conference that brings together participants from academia and industry The roots of PROFES are in professional software process improvement motivated by product and service quality needs The conference addresses both the solutions found in practice as well as relevant research results from academia To ensure that PROFES retains its high quality and focus on the most relevant research issues the conference has actively maintained close collaboration with industry and sub quently widened its scope to the research areas of collaborative and agile software development A special focus for 2009 was placed on software business to bridge research and practice in the economics of software engineering This enabled us to cover software development in a more comprehensive manner and tackle one of the most important current challenges identified by the software industry and software research community namely the shift of focus from products to services The current global economic downturn emphasizes the need for new methods and so tions for fast and business oriented development of products and services in a gl ally distributed environment Agile Processes in Software Engineering and Extreme Programming Hubert Baumeister, Horst Lichter, Matthias Riebisch, 2017-04-12 This book is open access under a CC BY license The volume constitutes the proceedings of the 18th International Conference on Agile Software Development XP 2017 held in Cologne
