Enchantments of Modernity Saurabh Dube, 2020-08-11 The notion of modernity hinges on a break with the past such as superstitions

medieval worlds and hierarchical traditions It follows that modernity suggests the disenchantment of the world yet the processes of modernity also create their own enchantments in the mapping and making of the modern world Straddling a range of disciplines and perspectives the essays in this edited volume eschew programmatic solutions focusing instead in new ways on subjects of slavery and memory global transformations and vernacular and vernacular modernity imperial imperatives and nationalist knowledge cosmopolitan politics and liberal democracy and governmental effects and everyday affects It is in these ways that the volume attempts to unravel the enchantments of modernity in order to approach anew modernity's constitutive terms formative limits and particular possibilities

Colonialism in Question Frederick Cooper, 2005-06-06 In this closely integrated collection of essays on colonialism in world history Frederick Cooper raises crucial questions about concepts relevant to a wide range of issues in the social sciences and humanities including identity globalization and modernity Rather than portray the past two centuries as the inevitable movement from empire to nation state Cooper places nationalism within a much wider range of imperial and diasporic imaginations of rulers and ruled alike well into the twentieth century He addresses both the insights and the blind spots of colonial studies in an effort to get beyond the tendency in the field to focus on a generic colonialism located sometime between 1492 and the 1960s and somewhere in the West Broad ranging cogently argued and with a historical focus that moves from Africa to South Asia to Europe these essays most published here for the first time propose a fuller engagement in the give and take of history not least in the ways in which concepts usually attributed to Western universalism including citizenship and equality were defined and reconfigured by political mobilizations in colonial contexts

The Mechanics of Modernity in Europe and East Asia Erik Ringmar, 2005 This book provides a new answer to the old question of the rise of the west why did some countries embark on a path of sustained economic growth while others stagnated Taking a global view Ringmar investigates the implications of his conclusions on issues facing the developing world today

Iran's Troubled Modernity Ali Mirsepassi, 2019 Mirsepassi uses interviews with thirteen individuals to relate the colourful life and times of Ahmad Fardid and his intellectual legacy

Forms of Modernity Rachel Schmidt, 2011-04-09 It's a critical cliché that Cervantes Don Quixote is the first modern novel but this distinction raises two fundamental questions First how does one define a novel And second what is the relationship between this genre and understandings of modernity In *Forms of Modernity* Rachel Schmidt examines how seminal theorists and philosophers have wrestled with the status of Cervantes masterpiece as an exemplary novel in turn contributing to the emergence of key concepts within genre theory Schmidt's discussion covers the views of well known thinkers such as Friedrich Schlegel Jos Ortega y Gasset and Mikhail Bakhtin but also the pivotal contributions of philosophers such as Hermann Cohen and Miguel de Unamuno These theorists examinations of Cervantes's fictional knight errant character point to an ever shifting boundary between the real and the virtual Drawing from both intellectual and literary history *Forms of Modernity* richly explores the development of the categories and theories that we use today to

analyze and understand novels

Understanding Youth In Late Modernity France, Alan, 2007-04-01 Understanding Youth in Late Modernity is a highly readable book which lends itself both as a solid introduction and a reference point to the historical developments and theoretical debates taking place within the discipline of youth studies. This book provides a highly accessible text for anybody interested in the subject of youth and its changing role in late modernity. I thoroughly recommend it. *Journal of Contemporary European Studies*. This illuminating new book embeds our understanding of the youth question within a historical context. It shows how the ideas of past political action in conjunction with the diverse paradigms of social science disciplines have shaped modern conceptions of the youth question. This relationship between the political and the academic is then explored through a detailed examination of contemporary debates about youth in areas such as transitions, education, crime policy and criminology, consumption and youth culture. From this analysis, the book is able to show how the youth question in late modernity is being shaped. This important text includes a historical overview of the making of modern youth, identifying major changes that took place over three centuries. Examples of how political and academic responses construct youth as a social problem. An evaluation of the impact of social change in late modernity on our understanding of the youth question and the everyday lives of the young. The book concludes by suggesting that in contemporary understandings of the youth question, significant differences exist between the political and the academic. Major challenges exist if this gap is to be addressed and a new public social science needs to emerge that reconstitutes debates about youth within a form of communicative democracy. Understanding Youth in Late Modernity is key reading for students and academics interested in the historical conception of the youth problem, its evolution throughout modernity and endeavours to find a solution.

Revolt Against Modernity Ted V. McAllister, 1996 Provides the first comparison of the thought of these two political philosophers and its influence on contemporary American conservatism.

Modernity And Postmodern Culture McGuigan, Jim, 2006-07-01 Modernity and Postmodern Culture critically assesses claims made about the postmodernization of culture and society and explores the complex interplay between the modern and the postmodern in an increasingly globalized world. The author argues that although culture may be postmodern in terms of art, entertainment and everyday life, modernity still exists and is pervasive. The second edition is revised throughout, updating the literature and viewing international events through a modernist/postmodernist gaze. The theories of Baudrillard, Beck, Castells, Giddens, Jameson, Lyotard and others are discussed and specific issues concerning architecture, theme parks, screen culture, science, technology and the environment are examined. Topics include Postmodern architecture and the hyperreality of Disney. How poststructuralist theory questions modern rationality and reason. The relations between postmodern culture, global capitalism and the technological changes brought about by electronics and computing. The network society. The book is key reading for students on courses in cultural politics, cultural theory, popular culture and sociology.

Mead and Modernity Filipe Carreira da Silva, 2010-07-08 Filipe Carreira da Silva addresses the basic questions: How should we read Mead and Why

should we read Mead today by showing that the history of ideas and theory building are closely related endeavors Following a contextualist approach in exploring the meaning of Mead's writings Carreira da Silva reads the entire corpus of Mead's published and unpublished writings in light of the context in which they were originally produced from concrete events like the American involvement in World War I to more general debates like that of the nature of modernity Mead and Modernity attests to the relevance of Mead's ideas by assessing the relative merits of his responses to three fundamental modern problematics science selfhood and democratic politics The outcome is an innovative intellectual portrait of Mead as a seminal thinker whose contributions extend beyond his well known social theory of the self and include important insights into the philosophy of science and radical democratic theory

Routledge Revivals: In Modernity's Wake (1989) Michael Phillipson, 2017-02-17 First published in 1988 this book attempts to tackle the problem of how to write about art culture and the issues of postmodernism in a style appropriate to what is being claimed The letters are written on art's behalf to a range of institutions and individuals and have as their recurring concern the relation between art culture and representation both art as representation and how art is represented to and for the surrounding culture They explore the context and viability of art through a range of themes including writing the aestheticisation of everyday life style design pleasure fragmentation hyphenation technology and the museum drawing on materials from the visual arts music literature post structuralism contemporary criticism philosophy and sociology

Consumer Society and the Post-modern City David B Clarke, 2004-03-01 The fact that we inhabit a consumer society has incredibly far reaching implications Working through the often controversial ideas of the consumer society's most influential theorists Jean Baudrillard and Zygmunt Bauman this book assesses the ways in which consumerism is reshaping the nature and meaning of the city It examines the nature of consumption and its increasing centrality to post modern society by considering the development of consumerism as a central facet of social life demonstrating that social inequalities are increasingly structured around consumption uncovering the hidden consequences of consumerism pondering the meaning of lifestyle revealing how the nature of reality is changing in an age of globalization Employing a sustained and engaging theoretical analysis the book ranges across a variety of sometimes unexpected topics It represents an impassioned plea for everyone interested in the social life of cities to take the notion of the consumer society and the arguments of its major theorists seriously

Fractured Modernity Thomas Welskopp, Alan Lessoff, 2016-07-11 The ten essays in this volume deal with the debates and conflicts about modernity in a period of American history when the tensions and strains caused by seemingly unrestrained change and the reactions to it were particularly severe and tangible Partly concentrating on the margins or dark underworlds of modernity such as racism and violence partly focusing on the allegedly unlimited space to negotiate and create social order from scratch the contributions to this volume show that and discuss why modernity was an issue in contemporary United States which seemed to have been even more hotly contested than in Europe at the same time albeit sometimes in terms of Americanism rather than modernism In this book European

scholars of the United States apply variations on the transnational discourse on modernity to unexpected dimensions of U S history making this volume a fascinating example of the present day enterprise of internationalizing American studies

Mass Media, Modernity, and Development
Fayad Kazan, 1993-11-30 Kazan tests several hypotheses on development communications derived from the ideas of Marx Toynbee Lerner McLuhan Frey and Schiller through three years of research he conducted in Saudi Arabia Oman Bahrain the United Arab Emirates Kuwait and Qatar He focuses on whether media content rather than the process of media exposure i e vicarious exposure to different experiences is the decisive factor in cultivating modernity Particularly Kazan examines whether Gulf media which convey socially and politically restricted traditional content in traditional societies cultivate attitudinal traditionality or modernity Investigated are the differences in the impact of local regional and foreign media and various media organs including newspapers magazines radio television video and electronic media Kazan also tests the notion of cultural imperialism such as the degrees of credibility that respondents lend to Western media their interest in and satisfaction with Western and regional media and the amount of time respondents allocate to Western and local media Specific media studied include the Voice of America Radio Moscow Monte Carlo Radio the BBC Voice of the Arabs Voice of the Arab Homeland Radio of the Islamic Republic of Iran and the local broadcasting services of each Gulf country Dr Kazan presents both a review and a critique of classical and mainstream theories of modernization in general and those of development communication in particular to determine the degrees of validity relevance and applicability of these theories to the development situation of Gulf societies Furthermore Kazan develops an integrated mass media effects model that factors in both macro and micro processes that are dynamically interconnected interdependent and continuously evolving and changing to account for the impact of media on modernity and development Media impact according to this model should be understood not only in terms of the socio economic and psychological characteristics of the media audience but also in terms of the dynamics of the whole socio cultural and political system Kazan concludes his study with a critique of the Western paradigm of development and presents the outline of a new paradigm of development that is more in harmony with the new physics with the ecosystems and with social justice
