National Narratives in Mexico Enrique Florescano, 2006 If history is written by the victors then as the rulers of a nation change so too does the history Mexico has had many distinct periods of history demonstrating clearly that the tale changes with the writer In *National Narratives in Mexico* Enrique Florescano examines each historical vision of Mexico as it was interpreted in its own time revealing the influences of national or ethnic identity culture and evolving concepts of history and national memory Florescano shows how the image of Mexico today is deeply rooted in ideas of past Mexicos ancient Mexico colonial Mexico revolutionary Mexico and how these ideas can be more fully understood by examining Mexico's past historians An awareness of the historians' cultural perspective helps us to understand which types of evidence would be considered valid in constructing a national narrative These considerations are important in modern Mexican historiography as historians begin to question the validity of Mexico's collective memory Enhanced by more than two hundred drawings photographs and maps *National Narratives in Mexico* offers a new vision of

Mexico's turbulent history      *The Boom Femenino in Mexico* Nuala Finnegan, Jane E. Lavery, 2010-04-16 The Boom Femenino in Mexico Reading Contemporary Women's Writing is a collection of essays that focuses on literary production by women in Mexico over the last three decades. In its exploration of the boom femenino phenomenon, the book traces the history of the earlier boom in Latin American culture and investigates the implications of the use of the same term in the context of contemporary women's writing from Mexico. In this way, it engages critically with the cultural, historical, and literary significance of the term, illuminating the concept for a wide range of readers. It is clear that the entry of so many women writers into an arena traditionally reserved for men has prompted discussion around concepts such as women's writing and the very definition of literature itself. Many of the contributors grapple with the theoretical tensions that such debates provoke, offering an important opportunity to think critically about the texts produced during this period and the ways in which they have impacted on the Mexican and international cultural spheres. The project is comprehensive in its scope and for the first time brings together scholars from Mexico, the U.S., and Europe in a transnational forum. The book posits that despite certain aesthetic and thematic commonalities, the increased output by women writers in Mexico cannot be appraised as a unified literary movement. Instead, it embraces a wide range of different generic forms and the subjects under study in the essays in the book include the best-selling work of Angeles Mastretta, Elena Poniatowska, and Laura Esquivel, as well as the social and political preoccupations of journalists Rosanna Reguillo and Cristina Pacheco. Contributors offer readings of the aesthetic visions of writers as diverse as Carmen Boullosa, Ana Garc a Bergua, and Eve Gil, while other essays examine the nuances of contemporary gender identity in the work of Ana Clavel, Sabina Berman, Brianda Domecq, and Mar a Luisa Puga. There are essays devoted to poetry by indigenous Mayan women and an analysis of the complex place of poetry within the broader framework of literary production. The problems that emerge as a result of literary cataloguing based on gender politics are also considered at length in a number of essays that take a panoramic view of literary production over the period. Various critical approaches are employed throughout, and the collection as a whole demonstrates that academic interest in Mexican women's writing of the boom femenino is thriving. Above all, the essays here provide a space in which the location of women within prevailing cultural paradigms in Mexico and their role in the mapping of power in evolving textual canons may be interrogated. It is clear from the collection that interest in such issues is still alive and that the debate is far from over.

Christ and the Maya Calendar Kevin Dann, 2009-03 Cosmic Christianity describes the relationship between the earthly and supra-earthly cosmic worlds by showing the relationship between the cosmos as expressed in the movements of the stars and the activities of Christ during his three years of ministry on Earth. The gesture of each astrological planet during those years is worked out and correlated with specific acts of the Christ as recorded in the Gospels. The apparent looping movements of Mercury, for example, are connected with the seven signs of St. John's gospel. The author goes on to explore the many ways in which these healing acts, which have been inscribed in the heavens, continue to work in evolution.

through the events of history and through our individual human lives By studying this we begin to understand our responsibility for developing the new Christian mysteries and consequently renewing the starry cosmos Sucher presents a real foundation for modern star wisdom Topics include the evolution of cosmology the origins of the planetary symbols our new relationship to the stars as revealed in human lives and historical events and the role of the Archangel Michael in our individual relationship to the stars This is an excellent place to begin one's study of the stars and their meaning for both our individual lives and for the world

Enrique Florescano,2016-05-13 Enrique Florescano narra la formación de los dioses en Mesoamérica desde las cosmogonías más antiguas hasta los relatos ritos y cantos de los pueblos indígenas de la actualidad Cómo se hace un dios es una búsqueda por comprender cómo fueron creados los dioses y cómo a pesar de sus transformaciones constantes las deidades principales conservaron sus identidades y funciones originales así como sus cultos y ritos a través de los siglos Tras la creación del cosmos surgen dioses más cercanos a los seres humanos como el dios del maíz y el del viento Este libro sigue las transformaciones de ambos quienes se asemejan a los seres humanos en sus representaciones y llevan una vida cercana a la de ellos nacen se desarrollan realizan hazañas memorables y a veces mueren Solo el dios del maíz resucita en cada cosecha y se vuelve inmortal Al morir se transforma en semilla que viaja al inframundo donde es sembrada y luego renace como planta portentosa que

derrama los granos que alegran la vida de los seres humanos El relato de los dioses del maíz y del viento es una página indeleble en la historia de Mesoamérica Los dioses cambian se multiplican los antiguos cultos se conjugan con los nuevos y adquieren formas distintas en cada región Sin embargo las historias más antiguas y los relatos de los sobrevivientes actuales de Mesoamérica tienen como actor principal a la planta del maíz transformada en dios la planta que significa la recreación imperecedera de la vida Nueva Atenea, 1929 **A History of Literature in the Caribbean** A.
