Poverty and Place Anjanette Wells,Vetta L. Sanders Thompson,Will Ross,Carol Camp Yeakey,Sheri Notaro,2018-12-31 This book examines ways in which cancer health disparities exist due to class and context inequities even in the most advanced society of the world

This volume while articulating health disparities in the St Louis Missouri metropolitan area including East St Louis Illinois seeks to move beyond deficit models to focus on health equity As cancer disparities continue to persist for low income and women of color the promotion and attainment of health equity becomes a matter of paramount importance The volume demonstrates the importance of place and the historical inequity in socio environmental settings that have contributed to marked health disparities Through original research this volume demonstrates that addressing the causes and contributors to women s health disparities is a complex process that requires intervention from a socio ecological framework at micro meso and macro levels of influence The book highlights critical aspects of a practical multidimensional model of community engagement with important influences of the various levels of research policy and practice More pointedly the authors support a new model of community engagement that focuses on individuals in their broader ecological context In so doing they seek to advance the art and science of community engagement and collaboration while disavowing the parachute model of research policy and practice that reinforces and sustains the problems associated with the status quo The book concludes with broader national policy considerations in the face of the erosion of the social safety net for America s citizenry

Khadijah Costley White,2018-08-02 From the start of Barack Obama s presidency in 2009 conservative populist groups began fomenting political fractiousness dissent and surprising electoral success The Tea Party was one of the major characters driving this story But as Khadijah Costley White argues in this book the Tea Party s ascent to major political phenomenon can be attributed to the way in which partisan and non partisan news outlets branded the Party as a pot stirrer in political conflicts over race class and gender In other words the news media played a major role in developing cultivating and promoting populism s brand particularly within the news spaces of commentary and opinion Through the language of political marketing branding and promotion the news media not only reported on the Tea Party but also acted as its political strategist and brand consultant Moreover the conservative press acted more as a political party than a news medium deliberately promoting the Tea Party and aiding in organizing headlining and galvanizing a conservative political base around specific Tea Party candidates values and events In a media environment in which everyone has the opportunity to tune out tune in and speak back *The Branding of Right Wing Activism* ultimately shows that distinctions between citizens journalists activists politicians celebrities and consumers are more symbolic than concrete
