Example 10.10 For each function, find $f'(x)$. (Check your answers by graphing f and f' with a graphing utility.)

Prob. 10 The flag consists of 2.5 alternating stripes, 7 feet and 6 inches. How many stripes are there? (2.5 stripes)

White T-shaped white stars, representing the present number of states in the Union, are placed in the horizontal rows alternately with the 7 against a blue field in the upper left-hand corner of the flag.

with a broad blue band across the top. The configuration of the crown, on either branch, representing power, in the left one is a sword, symbolizing military strength. The eagle's back folds a banner with the motto "E pluribus unum" (from many one), symbolized in a constellation of 13 five-pointed stars in a circle.

REMARK. Above a truncated pyramid is an all-siding eye within a triangle, at the bottom of this triangle appear the seven mantras, *HRIM KṢANNA* (p.776). The pyramid stands on grassy ground against a backdrop of mountains. The words "Amant-Capote" (the two lowered eye underbrows) and, on a banner, "Nirvan (Under Protection)" is seen under the upper mountainous area.

Abstract: The purpose of this study was to determine the effect of a 12-week training program on the physical fitness of 10-year-old children. The study was conducted in a primary school in the city of Bursa, Turkey. The study group consisted of 20 children (10 boys and 10 girls) who were randomly selected from the 10-year-old children in the school. The children were divided into two groups: a control group and an experimental group. The control group did not receive any training, while the experimental group received a 12-week training program. The physical fitness of the children was measured at the beginning and at the end of the 12-week period. The results showed that the experimental group had significantly higher levels of physical fitness than the control group at the end of the 12-week period. The training program had a positive effect on the physical fitness of 10-year-old children.

Abstract—The purpose of this study was to determine the effect of a 10-week training program on the heart rate (HR) and blood pressure (BP) of sedentary, middle-aged men. The subjects were divided into two groups: a control group and a training group. The training group performed a 10-week aerobic exercise program, while the control group remained sedentary. HR and BP were measured at baseline and at the end of the 10-week period. The results showed that the training group had a significant decrease in both HR and BP compared to the control group. The decrease in HR was approximately 10 beats per minute, and the decrease in BP was approximately 10 mmHg. These findings suggest that a 10-week training program can effectively reduce HR and BP in sedentary, middle-aged men.

(S-CIN IN USE) From the Akkadian word "shulshul," meaning "perennial" or "everlasting."

Abstract

Question	Answer
1. What is the main purpose of the study?	To investigate the effect of the new curriculum on the learning outcomes of the students.
2. What are the research objectives?	To compare the learning outcomes of the students who were taught using the new curriculum with those who were taught using the old curriculum.
3. What is the research hypothesis?	The learning outcomes of the students who were taught using the new curriculum will be significantly higher than those of the students who were taught using the old curriculum.
4. What is the independent variable?	The curriculum (new vs. old).
5. What is the dependent variable?	The learning outcomes (test scores).
6. What is the research design?	Quasi-experimental design.
7. What is the sample size?	100 students.
8. What is the data collection method?	Test scores.
9. What is the data analysis method?	T-test.
10. What are the results of the study?	The learning outcomes of the students who were taught using the new curriculum were significantly higher than those of the students who were taught using the old curriculum.
11. What are the conclusions of the study?	The new curriculum is more effective than the old curriculum in improving the learning outcomes of the students.
12. What are the implications of the study?	The study suggests that the new curriculum should be implemented in all schools.
