Opdahl, 2020-06-09 The Russian State and Russian Energy Companies analyses the development of relations between the state and five major energy companies and how this shaped Russia's foreign policy in the post Soviet region The book argues that the development of Russia's political economy mattered for foreign policy over the quarter of a century from 1992 to 2018 Energy companies roles in institutional development enabled them to influence foreign policy formation and they became available as tools to implement foreign policy The extent to which it happened for each company varied with their accessibility to the Russian state Institutional development increased state capacity in a way that strengthened Russia's political regime The book shows how the combined power of several companies in the gas oil electricity and nuclear energy industry was a key feature of Russian foreign policy both in bilateral relationships and in support of Russia's regional position In this way Russia's energy resources were converted to regional influence The book contributes to our understanding of Russia's political economy and its influence on foreign policy and of the formation of policy towards post Soviet states **The Legacy of the Soviet Union** W. Slater, A. Wilson, 2004-03-31 The Legacy of the Soviet Union offers a distillation by a group of eminent scholars of their experience of the post Soviet years Analysis of the post Soviet landscape is accompanied by meditations on the impact of the post Soviet transition on both policy makers and academics The book therefore examines both assumptions of transition and reconsiders the experience of Soviet communism in the light of its demise *East Central Europe and the Former Soviet Union* David Turnock, 2024-11-01 Since 1898 the former communist countries of Eastern Europe have gained international prominence The continuing socio economic transition and the instability evident in areas like the Caucasus and Former Yugoslavia have drawn the western world into uneasy interactions with the region At the same time closer commercial and cultural contacts are providing opportunities for rewarding relationships which have now resulted in many of these countries joining the EU This book provides detailed coverage of the transition from communism to a market economy Covering the whole range of East Central European and former Soviet Union countries it charts the diversity within the region offering in depth coverage of specific areas as well as a broad view of development across the region The book is organised into three comprehensive sections the historical socio economic and environmental The socio economic section considers the critical issues of restructuring to effect the transition from central planning to a market economy while the historical material provides an essential context for the constraints and opportunities affecting the region The environmental section places emphasis on results of environmental neglect inherited from communism as well as looking to the future implications of EU directives on the problems of biodiversity and pollution in the region Environmental Change and Security Project Report , 1999
