Russia Modern Industrial:

New Rich, New Poor, New Russia Bertram Silverman, Murray Yanowitch, 2016-07-08 Now expanded to cover the consequences of Russia's 1998 financial collapse this book focuses on the social consequences of a modern day great depression The text examines the unequal distribution of the costs and benefits of Russia's leap into capitalism The topics covered include the emergence of the new poor the recruitment of a business elite the changing social and economic status of women and the impact of marketization on employment The study draws on a range of statistics and survey research data to present a portrait of the lives and circumstances of contemporary Russians

The Coming of New Industrial State Sergey Bodrunov, 2024-02-20 The book explores the effect of modern technological shifts on human society showing that technologies are undergoing accelerating qualitative changes that open up new opportunities for personal development and satisfaction of wants and simultaneously engender risks associated with growing opportunities of human interference with nature and technogenic stress on the environment Based on the study of cutting edge technologies and resulting socioeconomic shifts Bodrunov's analysis outlines the shape of the civilizational crisis we face It can only be overcome by founding a new industrial society of the second generation if we consider the new industrial state described by J K Galbraith as the first generation reliant on knowledge intensive material production

Civil Society in Putin's Russia Elena Chebankova, 2013-03-05 Unlike other books on civil society in Russia which argue that Russia's civil society is relatively weak and that democratisation in Russia went into reverse following Vladimir Putin's coming to power this book contends that civil society in Russia is developing in a distinctive way It shows that government and elite led drives to encourage civil society have indeed been limited and that the impact of external promotion of civil society has also not been very successful It demonstrates however that independent domestic grassroots movements are beginning to flourish despite difficulties and adverse circumstances and that this development fits well into the changing nature of contemporary Russian society

Government, Industry and Rearmament in Russia, 1900-1914 Peter Gatrell, 1994-03-10 This book provides an economic historian's perspective on major questions that confront all students of Russian history how stable were the economic and administrative structures of late imperial Russia and how well prepared was Russia for war in 1914 The decade following the Russo Japanese War witnessed profound changes in the political system and in the industrial economy The regime faced challenges to its authority from industrialists caught in the throes of recession and from parliamentary critics of tsarist administration Peter Gatrell provides a comprehensive account of the attempts made by government and business to confront these challenges examining the organisation and performance of a key industry and showing how decisions were reached about the allocation of resources and the far reaching consequences these decisions entailed

Russia , China's Rise, Russia's Fall Peter Nolan, 1995-10-30 A lively and well written comparison of economic transformation in China and the USSR Russia combining

a good knowledge of the Chinese economy with a radical critique of Western transition orthodoxy this very topical and very controversial book will be useful reading for students administrators in many countries and international agencies and business people Michael Ellman University of Amsterdam Peter Nolan makes a pungent challenge to conventional wisdom by arguing that the Chinese approach to system reform has been vastly more successful than the shock therapy applied to Russia His book is based on extensive comparison and deep insight into the political economy of both countries John Toye Institute of Development Studies Sussex This book is the first attempt to analyse systematically the dramatic contrast in the results of post Stalinist reform in China and Russia It argues that there emerged a transition orthodoxy about how to reform the communist systems of political economy However it was deeply flawed The advice which flowed from this orthodoxy was the primary cause of the Soviet disaster The decision not to follow it was the main reason for China s enormous success in its reform programme **The Mongols in Russia** Jeremiah Curtin,1908 Russia Jean Radvanyi,Marlene

Laruelle,2023-07-27 Thirty years after the end of the Soviet Union multiple ghosts haunt Russia its elites and its society from concern over demographic and economic decline to worry about the country s vulnerability to external intervention reviving the old notion of Russia as a besieged fortress Faced with both a West that emerged victorious from the Cold War and a shockingly dynamic China Russia constantly questions its identity and the notion that its fate is to bridge East and West This book offers a comprehensive overview of Russia s fears and challenges that could help the American public to understand how the country deals with its own issues and how this influences Russia s foreign policy including the ongoing war in Ukraine This is critical to understanding Russia s international stance and its impact on US policy and security *The Soviet Colossus* Michael G. Kort,2015-05-18 The twentieth century was not kind to Russia Despite its great potential and remarkable achievements the country also bore the weight of two world wars a revolution and civil war totalitarian tyranny famine and ecological destruction economic ruin and imperial decline Will Russia ever be prosperous peaceful and free Seeking clues in the past Michael Kort revisits earlier turning points in Russia s history from the fall of the old regime to the establishment of the Bolshevik dictatorship and Stalinist totalitarianism from the reforms and counter reforms of Khrushchev and Brezhnev to the tumultuous years of change under Gorbachev and Yeltsin Which strands of Russia s past is their successor Vladimir Putin weaving into the fabric of the present and which are being allowed to fade for better or worse This new edition of *The Soviet Colossus* brings the story up through the first decade of the twenty first century Distinctively readable judicious and focused on critical events and questions it integrates new revelations about the Soviet past and ongoing debates about the Soviet regime as well as its successor It is the ideal text for as one semester history course or background for a political science course **Russia's Economic Transitions** Nicolas Spulber,2003-04-10 Russia s Economic Transitions examines the three major transformations that the country underwent from the early 1860s to 2000 The first transition under Tsarism involved the partial break up of the feudal framework of land ownership and the move

toward capitalist relations The second following the Communist revolution of 1917 brought to power a system of state ownership and administration a sui generis type of war economy state capitalism subjecting the economy's development to central commands The third started in the early 1990s and still unfolding is aiming at reshaping the inherited economic fabric on the basis of private ownership The three transitions originated within different settings but with a similar primary goal namely the changing of the economy's ownership pattern in the hopes of providing a better basis for subsequent development The treatment's originality impartiality and historical breadth have cogent economic social and political relevance

Strategic Asia 2009-10: Economic Meltdown and Geopolitical Stability Ashley J. Tellis, Mercy Kuo, Andrew Marble, 2009 Examines the effects of the global economic crisis on the economic performance and strategic goals of selected Asian states Discusses implications of the crisis for the power and hegemony of the United States Considers attitudes of Asian powers toward nuclear nonproliferation and disarmament

Unattainable Bride Russia Ellen Rutten, 2010-03-08 Throughout the twentieth century and continuing today personifications of Russia as a bride occur in a wide range of Russian texts and visual representations from literature and political and philosophical treatises to cartoons and tattoos Invariably this metaphor functions in the context of a political gender allegory which represents the relationships between Russia the intelligentsia and the Russian state as a competition of two male suitors for the former's love In Unattainable Bride Russia Ellen Rutten focuses on the metaphorical role the intelligentsia plays as Russia's rejected or ineffectual suitor Rutten finds that this metaphor which she covers from its prehistory in folklore to present day pop culture references to Vladimir Putin is still powerful but has generated scarce scholarly consideration Unattainable Bride Russia locates the cultural thread and places the political metaphor in a broad contemporary and social context thus paying it the attention to which it is entitled as one of Russia's modern cultural myths

Big Business In Russia Jonathan A. Grant, 2010-11-23 Jonathan A Grant has written a highly original study of the Putilov works the most famous industrial conglomerate in the Russian Empire during the late nineteenth and early twentieth centuries With the emergence of a capitalist system in the Russian federation in the 1990s scholarly debate over the nature of Russian capitalism has been revived and with this study Grant issues a major challenge to the conventional wisdom on the nature of the Russian economy in the years before the Bolshevik revolution Grant argues that the

Putilov Company which manufactured arms for the Russian state and a wide range of heavy industrial equipment for civilian use adopted business practices that resembled the experiences of large machinery and armaments manufacturers in Britain France the Austro Hungarian Empire and Germany This interpretation runs directly counter to the traditional and widely held view that Russian capitalism was shaped by the tsarist state's orders and subsidies and that the tsarist system was incompatible with the development of modern capitalism Grant makes direct comparisons between Putilov and the famous western firm of Krupp and Vickers illustrating similar business decisions made by both companies in terms of diversification of the product line and a penchant for private as opposed to state markets for primary income Grant has gone beyond Soviet works on the Putilov plant examining archival documents of the company and offering critical comments on both Soviet and Western scholarship on Russian economic and social history from the perspective of this important industrial enterprise Grant not only repeatedly demonstrates that the Putilov firm responded effectively to the changing market for its wide range of industrial products but also shows that the tsarist regime provided far more of the systemic regularity needed for capitalist development than generally believed Grant's work is a significant contribution to this ongoing debate offering a much needed case study of Russian business history and a comparative study that extends across national boundaries *Big Business in Russia* is essential reading for graduate students in Russian and European history and will also appeal to American and European business leaders eager to understand the historical background of the current economic challenges facing Russia
