Russian Communism A Challenge And A Fraud:

Russian Communism William Hale Wilbur, 1964 *World Communism, 1964-1969, a Selected Bibliography* United States. Congress. Senate. Committee on the Judiciary, 1971 **Dimensions and Challenges of Russian Liberalism** Riccardo Mario Cucciolla, 2019-05-22 Liberalism in Russia is one of the most complex multifaced and indeed controversial phenomena in the history of political thought Values and practices traditionally associated with Western liberalism such as individual freedom property rights or the rule of law have often emerged ambiguously in the Russian historical experience through different dimensions and combinations Economic and political liberalism have often appeared disjointed and liberal projects have been shaped by local circumstances evolved in response to secular challenges and developed within often rapidly changing institutional and international settings This third volume of the Reset DOC Russia Workshop collects a selection of the Dimensions and Challenges of Russian Liberalism conference proceedings providing a broad set of insights into the Russian liberal experience through a dialogue between past and present and intellectual and empirical contextualization involving historians jurists political scientists and theorists The first part focuses on the Imperial period analyzing the political philosophy and peculiarities of pre revolutionary Russian liberalism its relations with the rule of law Pravovoe Gosudarstvo and its institutionalization within the Constitutional Democratic Party Kadets The second part focuses on Soviet times when liberal undercurrents emerged under the surface of the official Marxist Leninist ideology After Stalin s death the thaw intelligentsia of Soviet dissidents and human rights defenders represented a new liberal dimension in late Soviet history while the reforms of Gorbachev s New Thinking became a substitute for liberalism in the final decade of the USSR The third part focuses on the time of troubles under the Yeltsin presidency and assesses the impact of liberal values and ethics the bureaucratic difficulties in adapting to change and the paradoxes of liberal reforms during the transition to post Soviet Russia Despite Russian liberals having begun to draw lessons from previous failures their project was severely challenged by the rise of Vladimir Putin Hence the fourth part focuses on the 2000s when the liberal alternative in Russian politics confronted the ascendancy of Putin surviving in parts of Russian culture and in the mindset of technocrats and system liberals Today however the Russian liberal project faces the limits of reform cycles of public administration suffers from a lack of federalist attitude in politics and is externally challenged from an illiberal world order All this asks us to consider what is the likelihood of a reboot of Russian liberalism **The Communist Economic Challenge** David Ingram, 2023-06-14 The Communist Economic Challenge 1965 examines the substantial industrial development in the Soviet Union and its European satellites and China looking at Khrushchev s boast that by 1970 the USSR s industrial output would surpass that of the USA The book analyses the communist record and evaluates the reality of the Soviet claims that its growth was a mark of the inherent superiority of its economic system over capitalism Power and Legitimacy - Challenges from Russia Per-Arne Bodin, Stefan Hedlund, Elena Namli, 2012-08-21 This book sheds new light on the continuing debate

within political thought as to what constitutes power and what distinguishes legitimate from illegitimate power. It does so by considering the experience of Russia a polity where experiences of the legitimacy of power and the collapse of power offer a contrast to Western experiences on which most political theory formulated in the West is based. The book considers power in a range of contexts: philosophy and discourse, the rule of law and its importance for economic development, the use of culture and religion as means to legitimate power, and liberalism and the reasons for its weakness in Russia. The book concludes by arguing that the Russian experience provides a useful lens through which ideas of power and legitimacy can be re-evaluated and re-interpreted and through which the idea of the West as the ideal model can be questioned.

The Challenges for Russia's Politicized Economic System Susanne Oxenstierna, 2015-04-10. During the early 2000s the market liberalization reforms to the Russian economy begun in the 1990s were consolidated. But since the mid 2000s economic policy has moved into a new phase characterized by more state intervention with less efficiency and more structural problems. Corruption, weak competitiveness, heavy dependency on energy exports, an unbalanced labour market, and unequal regional development are trends that have arisen and which this book argues will worsen unless the government changes direction. The book provides an in-depth analysis of the current Russian economic system, highlighting especially structural and institutional defects and areas where political considerations are causing distortions, and puts forward proposals on how the present situation could be remedied.

The Library Catalogs of the Hoover Institution on War, Revolution, and Peace, Stanford University Hoover Institution on War, Revolution, and Peace, 1969. Challenges for Russian Economic Reform Alan Smith, 2010-12-01. The transition to a market economy proves to be far more difficult in Russia than in the former centrally planned economies of eastern Europe. The Russian economy continues to face serious problems including substantial inflationary pressures, falling output, and capital flight. The most positive aspect of the transition has been the relatively fast pace of privatization. Challenges for Russian Economic Reform contains papers published by the post-Soviet Business Forum at the Royal Institute of International Affairs that have been revised for this volume. The contributors, specialists in Russian economic affairs, examine the principal economic and institutional factors that have hindered transformation in Russia. The sheer size of the country has complicated the problem of exposing domestic producers to foreign competition and has weakened the ability of central authorities to control the regions. Economic stabilization has been hampered by the difficulties in establishing sound economic relations with the former Soviet republics. David Dyker and Michael Barrow analyze the problems of monopoly and competition policy in Russia. Philip Hanson assesses the obstacles to economic stabilization posed by regional economic interests and examines regional diversity in reform implementation. Michael Kaser examines the problems of privatization by regions and sectors in Russia and the CIS and the institutional obstacles encountered by foreign investors. Alan Smith explores the problems created by the breakup of traditional trade and payment relations with the non-Russian republics of the former Soviet Union and bilateral trade links with Eastern Europe. He also provides an overall assessment of Russian

Quality of Democracy in Post-Communist Europe DEREK HUTCHESON, Elena A. Korosteleva, 2017-07-05 The countries of the former Eastern Bloc and Soviet Union have exhibited remarkable diversity in their post communist regime paths Whereas some states have become demonstrably more democratic and have moved in the space of fifteen years from the periphery to the centre of European politics in others the political and economic climates seem hardly to be better and their societies no more free than in the final years of the Cold War Assessing progress towards democracy in the former Eastern Bloc or the lack of it requires a qualitative examination of post communist polities This collection of articles brings together a number of perspectives both macro and micro analytical on the quality of democracy in post communist Europe This volume was previously published as a special issue of the Journal of Communist Studies and Transition Politics **The Department of State Bulletin** ,1963 The official monthly record of United States foreign policy University of California Union Catalog of Monographs Cataloged by the Nine Campuses from 1963 Through 1967: Subjects University of California (System).
