Povelikhina, 1991-01-01 **Mikhail Larionov and the Cultural Politics of Late Imperial Russia** Sarah Warren, 2017-07-05 In the turbulent atmosphere of early twentieth century Tsarist Russia avant garde artists took advantage of a newly pluralistic culture in order to challenge orthodoxies of form as well as social prohibitions Very few did this as effectively or to as broad an audience as Mikhail Larionov This groundbreaking study examines the complete range of his work painting book illustration performance and curatorial work and demonstrates that Larionov was taking part in a broader cultural conversation that arose out of fundamental challenges to autocratic rule Sarah Warren brings the culture of late Imperial Russia out of obscurity highlighting Larionov s specific interventions into conversations about nationality and empire democracy and autocracy and people and intelligentsia that colonized all areas of cultural production Rather than analyzing Larionov s works within the same interpretive frameworks as those of his contemporaries in France or Germany such as Matisse or Kirchner Warren explores the Russian s negotiations with both nationalism and modernism Further this study shows that Larionov s group exhibitions public debates and face painting performances were more than a derivative repetition of the techniques of the Italian Futurists Rather these activities were the culmination of his attempt to create a radical primitivism one that exploited the widespread Russian desire for an authentic collective identity while resisting imperial efforts to appropriate this revivalism to its own ends **Information and Empire** Simon Franklin, Katherine Bowers, 2017-11-27 From the mid sixteenth to the mid nineteenth century Russia was transformed from a moderate sized land locked principality into the largest empire on earth How did systems of information and communication shape and reflect this extraordinary change Information and Mechanisms of Communication in Russia 1600 1850 brings together a range of contributions to shed some light on this complex question Communication networks such as the postal service and the gathering and circulation of news are examined alongside the growth of a bureaucratic apparatus that informed the government about its country and its people The inscription of space is considered from the point of view of mapping and the changing public graphosphere of signs and monuments More than a series of institutional histories this book is concerned with the way Russia discovered itself envisioned itself and represented itself to its people Innovative and scholarly this collection breaks new ground in its approach to communication and information as a field of study in Russia More broadly it is an accessible contribution to pre modern information studies taking as its basis a country whose history often serves to challenge habitual Western models of development It is important reading not only for specialists in Russian Studies but also for students and non Russianists who are interested in the history of information and communications *Defining Russian Graphic Arts* Alla Rosenfeld, 1999 Defining Russian Graphic Arts explores the energy and innovation of Russian graphic arts during the period which began

with the explosion of artistic creativity initiated by Serge Diaghilev at the end of the nineteenth century and which ended in the mid 1930s with Stalin's devastating control over the arts. This beautifully illustrated book represents the development of Russian graphic arts as a continuum during these forty years and places Suprematism and Constructivism in the context of the other major but lesser known manifestations of early twentieth century Russian art. The book includes such diverse categories of graphic arts as lubki popular prints, posters and book designs, journals, music sheets and ephemera. It features not only standard types of printed media and related studies and maquettes but also a number of watercolor and gouache costume and stage designs. About 100 works borrowed from the National Library of Russia and the Research Museum of the Academy of Fine Arts in St Petersburg, Russia, many seen here for the first time outside of Russia, are featured in this book. Additional works have been drawn from the Zimmerli Art Museum, The New York Public Library and from other public and private collections. Together they provide a rare opportunity to view and learn about a wide variety of artists from the acclaimed to the lesser known. This book is a companion volume to an exhibition appearing at the Jane Voorhees Zimmerli Art Museum at Rutgers University.

Advertising has been and remains one of the most visible and influential forms of communication globally and the advertising industry is valued in the hundreds of billions worldwide. While its size, reach and influence have attracted considerable scholarly attention, the insights from its historical growth and development are less well understood yet provide invaluable insights. This Companion is a comprehensive source of current scholarship and debate on the history of advertising for advanced students, educators and researchers in advertising, marketing, communication and media studies and will provide an invaluable one-stop literature resource for academics and informed professionals alike.
