**Rereading Russian Poetry** Stephanie Sandler, 1999-01-01 Russia's poets hold a special place in Russian culture perhaps revealing more about their country than poets within any other nation In this unique and wide ranging collection of writings on poets and poetic trends in Russia contributors from the United States Britain and Russia examine the place of poetry in Russian culture Through a variety of critical approaches these scholars translators and poets consider a broad cross section of Russian poets from Pushkin to Brodsky Shvarts and Kibirov

**Rhythm and Meter** Paul Kiparsky, Gilbert Youmans, 2014-05-10 Phonetics and Phonology Volume 1 Rhythm and Meter compiles original articles by 12 linguists and literary critics who have made important contributions to current theories of phonology verse meter and music This book mainly focuses on English poetry on the meters of Shakespeare Milton Blake Longfellow Hopkins Auden and other Renaissance dramatists Poetry in other languages that include Greek Arabic Hebrew Russian and German are also examined This publication emphasizes metrical theory formulating and illustrating metrical principles within the tradition of generative metrics and competing traditions The relationships between rhythm in language and music are likewise analyzed This volume is useful to linguists literary critics and specialists conducting work on rhythm and meter

**English Rhythms in Russian Verse: On the Experiment of Joseph Brodsky** Nila Friedberg, 2011-10-27 Readers of poetry make aesthetic judgements about verse It is quite common to hear intuitive statements about poets rhythms It is said for example that Joseph Brodsky the Russian poet and 1987 Nobel Prize laureate sounds English when he writes in Russian Yet it is far from clear what this statement means from a linguistic point of view What is English about Brodsky's Russian poetry And in what way are his English rhythms different from the verse of his Russian predecessors The book provides an analysis of Brodsky's experiment bringing evidence from an unusually wide variety of disciplines and theories rarely combined in a single study including the generative approach to meter the Russian quantitative approach analysis of readers intuitions about poetic rhythm analysis of the poet's source readings as well as acoustic phonetics statistics and archival research The distinct analytic approaches applied in this book to the same phenomenon complement one another each providing insight alternate approaches do not and showing that only a combination of theories and methods allows us to fully appreciate what Brodsky's English accent really was and what any poetic innovation means

**Twentieth-Century Russian Poetry** Katharine Hodgson, Joanne Shelton, Alexandra Smith, 2017-04-21 The canon of Russian poetry has been reshaped since the fall of the Soviet Union A multi authored study of changing cultural memory and identity this revisionary work charts Russia's shifting relationship to its own literature in the face of social upheaval Literary canon and national identity are inextricably tied together the composition of a canon being the attempt to single out those literary works that best express a nation's culture This process

is of course fluid and subject to significant shifts particularly at times of epochal change This volume explores changes in the canon of twentieth century Russian poetry from the 1991 collapse of the Soviet Union to the end of Putin's second term as Russian President in 2008 In the wake of major institutional changes such as the abolition of state censorship and the introduction of a market economy the way was open for wholesale reinterpretation of twentieth century poets such as Iosif Brodskii Anna Akhmatova and Osip Mandelstam their works and their lives In the last twenty years many critics have discussed the possibility of various coexisting canons rooted in official and non official literature and suggested replacing the term Soviet literature with a new definition Russian literature of the Soviet period Contributions to this volume explore the multiple factors involved in reshaping the canon understood as a body of literary texts given exemplary or representative status as classics Among factors which may influence the composition of the canon are educational institutions competing views of scholars and critics including figures outside Russia and the self canonising activity of poets themselves Canon revision further reflects contemporary concerns with the destabilising effects of emigration and the internet and the desire to reconnect with pre revolutionary cultural traditions through a narrative of the past which foregrounds continuity Despite persistent nostalgic yearnings in some quarters for a single canon the current situation is defiantly diverse balancing both the Soviet literary tradition and the parallel contemporaneous literary worlds of the emigration and the underground Required reading for students teachers and lovers of Russian literature Twentieth Century Russian Poetry brings our understanding of post Soviet Russia up to date

**Turgenev and Russian Culture** Joe Andrew, Derek Offord, Robert Reid, 2008 The present volume has as its central aim a reassessment of the works of Ivan Turgenev for the twenty first century Against the background of a decline in interest in nineteenth century literature the articles gathered here seek to argue that the period in general and his work in particular still have much to offer the modern sensibility The volume also offers a great variety of approaches Some of the contributors tackle major works by Turgenev including *Rudin* and *Smoke* while others address key themes that run through all his creative work Yet others address his influence as well as his broader relationship with Russian and other cultures A final group of articles examines other key figures in Russian literary culture including Belinskii Herzen and Tolstoi The work will therefore be of interest to students postgraduates and specialists in the field of Russian literary culture At the same time they will stand as a tribute to the life and work of Professor Richard Peace a long standing specialist in nineteenth century Russian literature in whose honour the volume has been compiled

*Fast Forward* Tim Harte, 2009-11-24 *Fast Forward* reveals how the Russian avant garde's race to establish a new artistic and social reality over a twenty year span reflected an ambitious metaphysical vision that corresponded closely to the nation's rapidly changing social parameters The embrace of speed after the 1917 Revolution however paradoxically hastened the movement's demise By the late 1920s under a variety of historical pressures avant garde artistic forms morphed into those more compatible with the political agenda of the Russian state Experimentation became politically suspect and abstractionism gave way to orthodox realism ultimately ushering in the socialist realism and aesthetic conformism of the Stalin years

*Brodsky in English* Zakhar Ishov, 2023-08-15 A deeply researched account of Joseph Brodsky's evolution in English as a self translator and a poet in translation Joseph Brodsky's translations of

his own Russian language poems into English new originals have been criticized for their un-Englishness an appraisal based on a narrow understanding of translation itself With this radical reassessment of the Nobel Prize winner's self-translations Zakhar Ishov proposes a fresh approach to poetry translation and challenges the assumption that poetic form is untranslatable Brodsky in English draws on previously unexamined archival materials including drafts and correspondence with translators and publishers to trace the arc of Brodsky's experience with the English language Ishov shows how Brodsky's belief in the intellectual continuity between his former life in the Soviet Union and his new career in the United States including as Poet Laureate anchored his insistence on maintaining the formal architecture of his poems in translation locating the transmission of poetic meaning in the rhythms of language itself This book highlights Brodsky's place within the long history of the compromises translation must make between linguistic material and poetic process The Cambridge Companion to Modern Russian Culture Nicholas Rzhevsky, 2012-04-05 A fully updated new edition of this overview of contemporary Russia and the influence of its Soviet past **The Garland Companion to Vladimir Nabokov** Vladimir E. *Reinventing Romantic Poetry* offers a new look at the Russian literary scene in the nineteenth century While celebrated poets such as Aleksandr Pushkin worked within a male centered Romantic aesthetic the poet as a bard or sexual conqueror nature as a mother or mistress the poet's muse as an idealized woman Russian women attempting to write Romantic poetry found they had to reinvent poetic conventions of the day to express themselves as women and as poets Comparing the poetry of fourteen men and fourteen women from this period Diana Greene revives and redefines the women's writings and offers a thoughtful examination of the sexual politics of reception and literary reputation The fourteen women considered wrote poetry in every genre from visions to verse tales from love lyrics to metaphysical poetry as well as prose works and plays Greene delves into the reasons why their writing was dismissed focusing in particular on the work of Evdokiia Rostopchina Nadezhda Khvoshchinskaia and Karolina Pavlova Greene also considers class as a factor in literary reputation comparing canonical male poets with the work of other men whose work like the women's was deemed inferior at the time The book also features an appendix of significant poems by Russian women discussed in the text Some found in archival notebooks are published here for the first time and others are reprinted for the first time since the mid nineteenth century **Meter,**

**Rhythm, and Performance** Christoph Küper, 2002 This volume includes most papers read at the International Conference on Meter Rhythm and Performance held at the University of Vechta Germany in May 1999 This metrics conference set out to break new ground in two respects It was the first Towards a Typology of Poetic Forms Jean-Louis Arroui, Andy

Arleo, 2009-09-30 Metrics is often defined as a discipline that concerns itself with the study of meters In this volume the term is used in a broader sense that more or less coincides with the traditional notion of versification Understood this way metrics is an eminently complex object that displays variation over time and in space that concerns forms of a great variety and with different statuses meters rhymes stanzas prescribed forms syllabification rules nursery rhymes slogans musical textsetting ablaut reduplication etc and that as a cultural manifestation is performed in a variety of ways sung chanted spoken read that

can have direct consequences on how it is structured This profusion of forms is thought to correspond at the level of perception to a limited number of cognitive mechanisms that allow us to perceive and to represent regularly iterating forms This volume proposes a relatively coherent overall vision by distinguishing four main families of metrical forms each clearly independent of the others and amenable to separate typologies **Historical Dictionary of Russian Literature** Jonathan Stone, 2013 The Historical Dictionary of Russian Literature contains a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 100 cross referenced entries on significant people themes critical issues and the most significant genres
