argues that the Russian Empire's bi-continental geography and the complicated nature of its encounter with Asia have all resulted in a variegated understanding of the East among its people *Spies and Scholars* Gregory Afinogenov, 2020-04-14

A Financial Times Best Book of the Year The untold story of how Russian espionage in imperial China shaped the emergence of the Russian Empire as a global power From the seventeenth to the nineteenth century the Russian Empire made concerted efforts to collect information about China It bribed Chinese porcelain makers to give up trade secrets sent Buddhist monks to Mongolia on intelligence gathering missions and trained students at its Orthodox mission in Beijing to spy on their hosts From diplomatic offices to guard posts on the Chinese frontier Russians were producing knowledge everywhere not only at elite institutions like the Academy of Sciences in St Petersburg But that information was secret not destined for wide circulation Gregory Afinogenov distinguishes between the kinds of knowledge Russia sought over the years and argues that they changed with the shifting aims of the state and its perceived place in the world In the seventeenth century Russian bureaucrats were focused on China and the forbidding Siberian frontier They relied more on spies including Jesuit scholars stationed in China In the early nineteenth century the geopolitical challenge shifted to Europe rivalry with Britain drove the Russians to stake their prestige on public facing intellectual work and knowledge of the East was embedded in the academy None of these institutional configurations was especially effective in delivering strategic or commercial advantages But various knowledge regimes did have their consequences Knowledge filtered through Russian espionage and publication found its way to Europe informing the encounter between China and Western empires Based on extensive archival research in Russia and beyond *Spies and Scholars* breaks down long accepted assumptions about the connection between knowledge regimes and imperial power and excavates an intellectual legacy largely neglected by historians *Red at Heart* Elizabeth McGuire, 2018

guide to primary and secondary sources on Christian enterprises and individuals in China that are preserved in hundreds of libraries archives historical societies headquarters of religious orders and other repositories in the United States It includes data from the beginnings of Christianity in China in the early eighth century through 1952 when American missionary activity in China virtually ceased For this new edition the institutional base has shifted from the Princeton Theological Seminary Protestant to the Ricci Institute for Chinese Western Cultural Relations at the University of San Francisco Jesuit reflecting the ecumenical nature of this monumental undertaking The Sichuan Frontier and Tibet Yingcong Dai,2011-07-01 During China s last dynasty the Qing 1644 1911 the empire s remote bleak and politically insignificant Southwest rose to become a strategically vital area This study of the imperial government s handling of the southwestern frontier illuminates issues of considerable importance in Chinese history and foreign relations Sichuan s rise as a key strategic area in relation to the complicated struggle between the Zunghar Mongols and China over Tibet Sichuan s neighbor to the west and consequent developments in governance and taxation of the area Through analysis of government documents gazetteers and private accounts Yingcong Dai explores the intersections of political and social history arguing that imperial strategy toward the southwestern frontier was pivotal in changing Sichuan s socioeconomic landscape Government policies resulted in light taxation immigration into Sichuan and a military market for local products thus altering Sichuan but ironically contributing toward the eventual demise of the Qing Dai s detailed objective analysis of China s historical relationship with Tibet will be useful for readers seeking to understand debates concerning Tibet s sovereignty Tibetan theocratic government and the political dimension of the system of incarnate Tibetan lamas of which the Dalai Lama is one
