*The Russian Influence on English Education* W. H. G. Armytage, 2018-05-03 Originally published in 1969 British merchants first penetrated to Moscow in the early 16th century From that time until today developments in Russia have influenced Britain in innumerable ways sometimes unexpectedly In this volume Professor Armytage traces this influence showing how Tolstoy Kropotkin and others better known for their activities in fields other than education have in fact had their effect on education in Britain The lively account of the way in which these ideas have found their way into the British system shows that recent influences have been more direct In particular the rapid development of higher technological education owes a great deal to the Russian example *The Rise of a Central Authority for English Education* A. **International Handbook of Comparative Education** Robert Cowen,Andreas M. Kazamias,2009-08-22 A big project

like this Handbook means that you incur debts and not only to your authors and your publisher As editors we along with our colleague Elaine Unterhalter who edited the section on postcolonialism would like to thank most warmly those authors who delivered on time and who did not fuss but just got on and did a r rate job We would also like to thank all authors who did deliver which was almost everyone we asked We know that some of our authors worked in very dif cult private circumstances as they were nishing their chapters and we hope the publication of the Volumes will later be for them a happy reminder of dif culties and disasters overcome The only sad theme is that some very close colleagues with whom we were wo ing and for whom we had the greatest respect and liking became very ill and died while the volumes were being prepared We decided to ask for copyright permissions to publish something of theirs These permissions were graciously given by two major journals and with the agreement also of our publishers Springer Rolland Paulston and Terry McLaughlin have examples of their writing in this Handbook

The Literature of Education W. Kenneth Richmond,2019-01-15 Original blurb The volume of writing on educational topics has increased so prodigiously in recent years that the student is likely to lose himself in a sea of print This may lead him to opt for the first book that comes to hand or waste time rifling through half a dozen when a thorough grasp of one key text is all that is needed Reading lists commonly look impressive not to say daunting In fact the multifarious titles conceal an enormous amount of duplication an endless raking over of other people s research findings It is a safe bet writes W Kenneth Richmond that less than 5 percent of the contents of any new book on education will be in any way original This critical bibliography originally published in 1972 is concerned with the noteworthy books and major official reports that had appeared in the English language during the twenty five years prior to publication In his introduction and in the commentaries prefacing each section the author explains the background to the genuinely new departures of the period and describes successive changes in the climate of educational opinion
