**Literature in Post-communist Russia and Eastern Europe** Rajendra A. Chitnis, 2005 This book considers Russian Czech and Slovak fiction in the late communist and early post communist periods It focuses on the most innovative trend to emerge in this period on those writers who during and after the collapse of communism characterised themselves as liberators of literature It shows how these writers in their fiction and critical work reacted against the politicisation of literature by Marxist Leninist and dissident ideologues rejecting the conventional perception of literature as moral teacher and redefining the nature and purpose of writing The book demonstrates how this quest enacted in the works of these writers served for many critics and readers as a metaphor for the wider disorientation and crisis precipitated by the collapse of communism

**The absurd in literature** Neil Cornwell, 2013-07-19 Neil Cornwell's study while endeavouring to present an historical survey of absurdist literature and its forbears does not aspire to being an exhaustive history of absurdism Rather it pauses on certain historical moments artistic movements literary figures and selected works before moving on to discuss four key writers Daniil Kharmis Franz Kafka Samuel Beckett and Flann O'Brien The absurd in literature will be of compelling interest to a considerable range of students of comparative European including Russian and Central European and English literatures British Isles and American as well

as those more concerned with theatre studies the avant garde and the history of ideas including humour theory It should also have a wide appeal to the enthusiastic general reader *Preserving Petersburg* Helena Goscilo, Stephen M.

Maus, 2012-10-15 *Unvarnishing Reality* draws original insight to the literature politics history and culture of the cold war by closely examining the themes and goals of American and Russian satirical fiction As Derek C Maus illustrates the paranoia of nuclear standoff provided a subversive storytelling mode for authors from both nations including Thomas Pynchon Robert Coover John Barth Walker Percy Don DeLillo Kurt Vonnegut Jr Vasily Aksyonov Yuz Aleshkovsky Alexander Zinoviev Vladimir Voinovich Fazil Iskander and Sasha Sokolov Maus surveys the background of each nation's culture language sociology politics and philosophy to map the foundation on which cold war satire was built By highlighting common themes of utopianism technology and propaganda Maus effectively shows the ultimate motive of satirists on both sides was to question the various forces contributing to the cold war and to expose the absurdity of the continuous tension that pulsed

between the United States and the Soviet Union for nearly half a century. Although cold war literature has been studied extensively, few critics have focused so keenly on comparisons of satirical fictions by Russian and American writers that condemn and subvert the polarizing ideologies inherent in superpower rivalry. Such a comparison reveals thematic and structural similarities that transcend specific national and cultural origins. In considering these works together, Maus locates a thoroughgoing humanistic refutation of the cold war and its operative doctrines as well as a range of proposed alternatives. Just as the cold war combatants ultimately reconciled in 1991 with the fall of the Soviet Union, Maus seeks to bring these two literary canons together now. Their thematic scope transcends cultural differences, and as Maus demonstrates, these writers saw that there was not only the atomic bomb to fear but also the dangers of complete national militarization and the constant polarizing threat of emergency. Thus, their cold war critiques still resonate today and invite further comparative studies such as this one.
