## **Russias Food Policies And Globalization:**

**Russia's Food Policies and Globalization** Stephen K. Wegren, 2005-01-01 The post Soviet period has witnessed Russia's increasing interdependence with other nations in its food trade as in the economy as a whole President Putin has repeatedly identified international integration as an economic necessity if Russia is to share in the benefits of globalization In *Russia's Food Policies and Globalization* author Stephen K Wegren analyzes the primary questions affecting Russia and globalization How do Russia's domestic and external food policies affect its efforts at international integration How prepared is Russia for global economic integration for instance entrance into the World Trade Organization What are the structural economic and political obstacles that exist in Russia's food policies which in turn hinder closer integration In short will Russia integrate or fall behind and what is the role of food policy in deciding this crucial issue Through an analysis of Russia's contemporary food policies and strategies Wegren places Russia's economic development in a new international context Political scientists economists policymakers and scholars of the Soviet and post Soviet period as well as those interested in rural studies must read this book

**Russia's Food Revolution** Stephen K. Wegren, 2020-09-21 This book analyzes the food revolution that has occurred in Russia since the late 1980s documenting the transformation in systems of production supply distribution and consumption It examines the dominant actors in the food system explores how the state regulates food considers changes in patterns of food trade interactions with other states and discusses how all this and changing habits of consumption have impacted consumers It contrasts the grim food situation of 1980s and 1990s with the much better food situation that prevails at present and sets the food revolution in the context of the wider consumer revolution which has affected fashion consumer electronics and other sectors of the economy

**Food Policy and Food Security** Stephen K. Wegren, Alexander Nikulin, Irina Trotsuk, 2018-03-28 This book provides a comprehensive analysis of Russian food policy Food policy is defined as the way government policy influences food production and distribution Russia's food policy is important for several reasons The first and most obvious reason is that a dysfunctional food policy is symptomatic of larger political and societal problems A failing food policy is often the precursor to political instability Russian food policy is also important is due to the agricultural recovery since 2004 that has allowed Russia to become self sufficient in grain production Being food sufficient in grain means that Russia is not drawing upon global grain supply Even more important Russia now produces surpluses and has become a global grain supplier Moreover the agricultural recovery has made the country food secure traditionally defined as having enough food for a healthy life An analysis of food policy reveals that the structure of food production has changed with the emergence of mega farms called agroholdings that are horizontally and vertically integrated Agroholdings represent a concentration of capital and land with a small number of farms producing large percentages of total food output The book explores alternatives to the industrial agricultural model by discussing different variants of sustainable agriculture A final importance of Russian food policy concerns food trade Russia has become more protectionist

since 2012 The food embargo against Western nations 2014 2017 is one example so too is import substitution that is a core component of food policy The book demonstrates the politicalization of external food trade Food trade and denial of access to the Russian market is used as an instrument of foreign policy to punish countries with whom Russia has disagreements Current Russian policymakers have food resources to augment support and extend national interests abroad Russia historically has cycled through periods of integration and isolation from the West This book raises the question whether a new normal has arisen that is characterized by the permanent withdrawal from integration as evidenced by its nationalist and protectionist food policy The book is entirely original rich in detail and broad in scope It is based on field work survey data a wide reading of primary sources and the secondary literature all of which are linked to important policy questions in development studies and food studies It is destined to become a classic book on Russian food policy     Russia's Role in the Contemporary International Agri-Food Trade System Stephen K. Wegren, Frode Nilssen, 2021-11-11 This Open Access book analyses the emergence of Russia as a global food power and what it means for global food trade Russia's strategy for food production and trade has changed significantly since the end of the Soviet period and this is the first book to take account of Russia's rise as a food power and the global implications of that rise It includes food trade policy and practice and developments in regional food trade This book will be of interest to academics and practitioners in agricultural economics international trade and international food trade     **Putin's Russia** Stephen K. Wegren, 2015-07-16 Now in a thoroughly revised expanded and updated sixth edition this classic text provides the most authoritative and current analysis available of the challenges facing Russia today Leading scholars explore the daunting domestic and international problems confronting Putin Evaluating the regime's continued efforts to rebuild a country once on the verge of collapse they consider a comprehensive array of economic political foreign policy and social issues Putin has his own approach for dealing with the myriad problems facing Russia emphasizing recentralization of power and a strong state He has returned to power amid unresolved policy issues both domestically and from the international community Only by understanding these concerns and previous efforts to deal with them will it be possible to understand the country's trajectory Well written and clearly organized this text is an indispensable guide for anyone wanting to understand contemporary Russia Contributions by Alfred Evans Kathleen J Hancock Timothy Heleniak Kathryn Hendley Dale R Herspring Janet Elise Johnson Taylor Ren Lane Maria Lipman Jeffrey Mankoff Alexander M Nikulin Alexandra Novitskaya Nikolai Petrov Thomas F Remington Richard Sakwa Louise Shelley Darrell Slider Pekka Sutela Andrei P Tsygankov Stephen K Wegren     **Russia's Agriculture in Transition** Zvi Lerman, 2008-01-01 This book explores the development of factor markets in Russian agriculture during the transition to a market economy identifying the impact of existing constraints on agricultural growth     The Moral Economy Reconsidered S. Wegren, 2005-08-19 Sure to be controversial and spur debate this book presents a powerful analysis of rural change to marketization and globalization Using Russia as a case study it examines the how the rural population responded to reform

policies during the transition away from communism Wegren draws upon extensive field work survey data interviews and wide ranging Russian language source material to investigate adaptive behaviours by different groups of the rural population The differentiated and nuanced analysis sheds considerable light on debates over whether actors are motivated mainly by rational or moral considerations Putin's Russia Dale Roy Herspring,2007 A fifth edition of this book is now available This thoroughly revised and updated edition of the classic text provides the most current and authoritative assessment of Russia available Distinguished scholars offer a full scale assessment of Putin s leadership exploring the daunting domestic and international problems facing Russia today Evaluating the regime s continued efforts to rebuild a country in shambles the contributors consider a comprehensive array of economic political and social issues In addition to updated core chapters the book includes new essays on Putin s leadership law foreign policy and the decline of democracy The book concludes that Putin will continue to address his country s problems in an incremental and centralized manner as he moves toward his goal of restoring Russia to the status of a world power Black Earth, White Bread Susanne A. Wengle,2022-03-15 Introduction setting the table Governance or How to solve the grain problem Production Consumption or The Perestroika of the quotidian Nature Conclusion vulnerabilities *Measuring Social and Economic Change in Rural Russia* David J. O'Brien,V. V. Pat[s]iorkovskii,2006-01-01 *Measuring Social and Economic Change in Rural Russia* is based upon nine household surveys in seven rural regions of Russia from 1991 to 2003 including a four wave panel study over an eight year period The findings that O'Brien and Patsiorkovsky share in this important work are the only long term indicators of how ordinary people have learned to adapt to an economic system that was thrust upon them when the Soviet Union collapsed Three main themes are explored the relationship between formal and informal institutional change regional responses to reforms and the impact of household labor social networks and community involvement and physical capital on inequality in material social and psychological conditions This comprehensive study s conceptual and interdisciplinary approach will appeal to anyone interested in the transition of countries from socialist to market economies *Land Reform in Russia* Stephen K. Wegren,2009-11-24 This ambitious work is the definitive account of Russia s land reform initiatives from the late 1980s to today In Russia a country controlling more land than any other nation land ownership is central to structures of power class division and agricultural production The aim of Russian land reform for the past thirty years to undo the collectivization of the Soviet era and encourage public ownership has been largely unsuccessful To understand this failure Stephen Wegren examines contemporary land reform policies in terms of legislation institutional structure and human behavior Using extensive survey data he analyzes household behaviors in regard to land ownership and usage based on socioeconomic status family size demographic distribution and regional differences Wegren s study is important and timely as Russian land reform will have a profound effect on Russia s ability to compete in an era of globalization **Russia's Energy Policies** Pami Aalto,2012-01-01 Russia is an increasingly important player in global energy markets yet its policies are under researched

and little understood This collection represents an important and sophisticated contribution to the debate While much of the commentary on Russian energy consists of generalizations about Russia s political strategy this work lifts the lid and looks inside the process through which Russian energy policies are designed and implemented It brings together essays by top specialists in the field and makes a conscious effort to integrate the various disciplines of politics economics and geography by developing a model of the cognitive frames through which the policy process is shaped It addresses both domestic and international dimensions of the problem and gives equal weight to traditional customers in Europe and new markets in Asia Peter Rutland Wesleyan University US The book explains Russian energy policies instead of a policy It portrays a picture with multiple policy drivers including institutional regional and federal environmental and commercial The study markedly improves our understanding of the multifaceted nature of Russian energy policy a topical and complex issue This is a highly commendable book that should be included in the reading lists of anyone with an interest in the role of energy in Russia s political economy or energy matters more generally Kim Talus University College London Australia Russia s vast energy reserves and its policies towards them have enormous importance in the current geopolitical landscape This important book examines Russia s energy policies on the national interregional and global level It pays particular attention to energy policy actors ranging from state federal and regional actors to energy companies and international financial actors and organizations The book models the formation of Russia s energy policies in terms of how energy policy actors perceive and map their policy environment The case studies cover federal regional and environmental aspects of Russian energy policy Russia s energy relations with Europe and the CIS North East Asia the globalization of Russian oil companies and the political economy of Russian energy It is found that there are several concurrent energy policies in contemporary Russia and that this situation is likely to continue These policies are conducted primarily from the business frame perspective while notions of energy superpower Russia are found more ambiguous Russia s Energy Policies will benefit advanced master s level students doctoral students researchers policy makers and practitioners The book will be a great resource for advanced international relations political economy international business and globalisation courses alongside energy policy courses as well as area studies courses on Russian post Soviet and European politics and environmental politics **Russian Civil**

**Society: A Critical Assessment** Alfred B. Evans, Laura A. Henry, Lisa Sundstrom, 2016-07-22 A vibrant civil society characterized by the independently organized activity of people as citizens undirected by state authority is an essential support for the development of freedom democracy and prosperity Thus it has been one important indicator of the success of post communist transitions This volume undertakes a systematic analysis of the development of civil society in post Soviet Russia An introduction and two historical chapters provide background followed by chapters that analyze the Russian context and consider the roles of the media business organized crime the church the village and the Putin administration in shaping the terrain of public life Eight case studies then illustrate the range and depth of actual citizen organizations in various

national and local community settings and a concluding chapter weighs the findings and distills comparisons and conclusions

**Rural Inequality in Divided Russia** Stephen Wegren, 2013-07-24 This book examines economic and political polarisation in post Soviet Russia and in particular analyses the development of rural inequality It discusses how rural inequality has developed in post Soviet Russia and how it differs from the Soviet period and goes on to look at the factors that affect rural stratification and inequality using human and social capital profession gender and village location as independent variables The book uses survey data from rural households and fieldwork in Russia in order to highlight the multiplicity of divisions that act as fault lines in contemporary rural Russia Globalisation and Emerging Economies Brazil, Russia, India, Indonesia, China and South Africa OECD, 2009-03-19 This book analyses key elements of the trade performance of the so called BRIICS Brazil Russia India Indonesia China and South Africa in relation to the rest of the world focusing on trade and other policies influencing that performance It also presents a separate chapter for each country *Strategic International Marketing* T C Melewar, Suraksha Gupta, 2017-09-16 Strategic International Marketing collates the most recent ideas trends and original research in the theory and practice of global marketing strategy and tactics Straightforward language and illustrative case studies feature throughout this text from the leading thinkers in the international marketing field The Challenge of Sustainability in Agricultural Systems Aleksei V. Bogoviz, 2021-06-05 This book brings together segmental knowledge and creates new insights on the sustainability of agricultural systems critically analyzing not only individual system components but also focusing on interactions between them and external environments This book is primarily devoted to 1 agricultural agribusiness 2 policies and institutions and 3 farming systems The compelling collection of chapters presents critical comparative and balanced perspectives on what changes are needed to achieve and maintain sustainability in agricultural systems actively leading to new ways of thinking about these complex issues The research presented relies on an array of methods developed within complex systems science addresses the existing gaps in the scholarship and uses original data collected on the development of agricultural systems Finally the authors provide robust conclusions and recommendations for both scholars and practitioners in the field of studying constructing and maintaining sustainable agricultural systems The special focus of the book is on technologies policies and management systems enabling sustainable agricultural development A rich collection of practical cases could be used to move from theories to reality The book appeals to both academics and professionals working in the field Russia Direct Guidebook to Russian Foreign Policy Russia Direct, Yaroslav Cohen, Dominic Basulto, Alexei Pilko, Oleg Boyko, Alexey Dolinskiy, George Joffé, Mark Katz, Evgeny Pakhomov, Elena Potapova, 2014-12-22 The Russia Direct Guidebook to Russian Foreign Policy including work by prominent international experts looks back at some of the defining moments in Moscow's relations with the world over the past year and analyzes the challenges ahead From the build up and execution of the Sochi Olympics to the developments in U S Russia nuclear cooperation we've taken a nuanced look into some of the most critical issues that have had an effect on Russia's

**Rural Transition in Azerbaijan** Zvi Lerman, David Sedik, 2010-02-15 In 1995 96 the President of Azerbaijan Heydar Aliyev launched a program of agrarian reforms that caused a sweeping and irreversible shift from Soviet style collective agriculture to individual farming in his country These reforms led to an impressive recovery and substantial productivity improvements in agriculture The agrarian transition in Azerbaijan contrasts with that in Russia Ukraine and Kazakhstan where land privatization has been accompanied by policies encouraging the persistence of large corporate farms and where agricultural recovery has been much less impressive For this reason Azerbaijan is today viewed as one of the few examples of successful land reform in the former Soviet Union The impact of the Aliyev agrarian reforms went far beyond the recovery of agricultural production The new policies had a significant impact on rural poverty and they were instrumental in increasing the incomes of Azerbaijan s

large rural population which relies on agriculture for a substantial part of the family budget To understand the successes and limitations of land reform Rural Transition in Azerbaijan evaluates the record of rural reforms focusing on policy change farm level performance and the impact of reforms on rural incomes and rural family well being issues that today are at the core of the agenda in many international organizations *Handbook of Research on Agricultural Policy, Rural Development, and Entrepreneurship in Contemporary Economies* Jean Vasile, Andrei,Subic, Jonel,Grubor, Aleksander,Privitera, Donatella,2019-11-29 Promoting rural entrepreneurship is a necessary step to limit the negative effects of classical agricultural policy based on a linear process and attracting secondary resources to the economic process The analysis of agricultural policy and rural development in conjunction to entrepreneurship in terms of production may represent a further step in understanding the role and importance of diversifying the rural potentials in contemporary economies The Handbook of Research on Agricultural Policy Rural Development and Entrepreneurship in Contemporary Economies is an essential publication of academic research that examines agricultural policy and its impact on shaping future resilient economy in rural areas and identifies green business models and new business patterns in rural communities Covering a range of topics such as entrepreneurship product management and marketing this book is ideal for researchers policymakers academicians economists agriculture professionals rural developers business investors and students
