Rusted Dreams Hard Times In A Steel Community:

Rusted Dreams David Bensman, Roberta Lynch, 1987 The larger consequences of the sharp decline of the American steel industry in the late 1970s and the 1980s are epitomized in the experience of a South Chicago neighborhood where two large steel mills shut down mass unemployment and hardship family tensions deterioration of community institutions decay of local businesses and helplessness of business political and union leaders when confronted by the larger economic and political forces that had engulfed the industry Bensman and Lynch believe that only a comprehensive strategy encompassing permanent import restrictions industry modernization and measures to widen the market for steel will save the industry and its workers This is a perceptive and sympathetic account

Steel and Steelworkers John Hinshaw, 2012-02-01 Steel and Steelworkers is a fascinating account of the forces that shaped Pittsburgh big business and labor through the city's rapid industrialization in the mid nineteenth century its lengthy era of industrial maturity its precipitous deindustrialization toward the end of the twentieth century and its reinvention from hell with the lid off to America's most livable post industrial city Hinshaw examined a wide variety of company union and government documents oral histories and newspapers to reconstruct the steel industry and the efforts of labor business and government to refashion it A compelling report of industrialization and deindustrialization in which questions of organization power and politics prove as important as economics Steel and Steelworkers shows the ways in which big business and labor helped determine the fate of steel and Pittsburgh

the railroads spurred by some of the United States's most dynamic entrepreneurs Cornelius Vanderbilt John Pierpont Morgan Jay Gould moved from a single transcontinental link to become the most influential and far reaching technological innovation of the Industrial Age extending into virtually every facet of American culture and commerce *American Empire* Joshua Freeman, 2013-08-06 A landmark history of postwar America and the second volume in the Penguin History of the United States series edited by Eric Foner In this momentous work acclaimed labor historian Joshua B Freeman presents an epic portrait of the United States in the latter half of the twentieth century revealing a nation galvanized by change even as conflict seethed within its borders Beginning in 1945 he charts the astounding rise of the labor movement and its pitched struggle with the bastions of American capitalism in the 1940s and 50s untangling the complicated threads between the workers agenda and that of the civil rights and women's movements Through the lens of civil rights the Cold War struggle and the labor movement *American Empire* teaches us something profound about our past while illuminating the issues that continue to animate American political discourse today *Making a New Deal* Lizabeth Cohen, 2014-11-06 This book examines how it was possible and what it meant for ordinary factory workers to become effective unionists and national political participants by the mid 1930s We follow Chicago workers as they make choices about whether to attend ethnic benefit society meetings or to go to the movies whether to shop in local neighborhood stores or patronize the new A P As they made daily decisions like these they declared their loyalty in ways that would ultimately have political significance When the depression worsened in the 1930s workers adopted new ideological perspectives and overcame longstanding divisions among themselves to mount new kinds of collective action Chicago workers experiences all converged to make them into New Deal Democrats and CIO unionists First printed in 1990 *Making a New Deal* has become an established classic in American history The second edition includes a new preface by Lizabeth Cohen ***A Companion to Post-1945 America*** Jean-Christophe Agnew, Roy Rosenzweig, 2008-04-15 *A Companion to Post 1945 America* is an original collection of 34 essays by key scholars on the history and historiography of Post 1945 America Covers society and culture people and movements politics and foreign policy Surveys and evaluates the best scholarship on every important era and topic Includes book review section on essential readings *Chicago's Industrial Decline* Robert Lewis, 2020-12-15 In *Chicago's Industrial Decline* Robert Lewis charts the city's decline since the 1920s and describes the early development of Chicago's famed and reviled growth machine Beginning in the 1940s and led by local politicians downtown business interest financial institutions and real estate groups place dependent organizations in Chicago implemented several industrial renewal initiatives with the dual purpose of stopping factory closings and attracting new firms in order to turn blighted property into modern industrial sites At the same time a more powerful coalition sought to adapt the urban fabric to appeal to middle class consumption and residential living As Lewis shows the two aims were never well integrated and the result was on going disinvestment and the inexorable decline of Chicago's industrial space By the 1950s Lewis argues it was evident that the early incarnation of the growth machine had

failed to maintain Chicago's economic center in industry. Although larger economic and social forces specifically competition for business and for residential development from the suburbs in the Chicagoland region and across the whole United States played a role in the city's industrial decline, Lewis stresses the deep incoherence of post WWII economic policy and urban planning that hoped to square the circle by supporting both heavy industry and middle to upper class amenities in downtown Chicago.

Social Work Intervention in an Economic Crisis Martha Baum, Pamela Twiss, 2014-03-18

With the collapse of the steel industry in the 1980s, economic devastation hit the Pittsburgh/Pennsylvania region. *Social Work Intervention in an Economic Crisis* strives to deepen understanding of the impact of the economic tragedy in the Pittsburgh region and to present social workers' efforts to enhance recovery. This case study serves as a model for social workers, human service educators, and agency personnel, public health professionals, community organizers, policymakers, economic strategists, and researchers in social work, public health, sociology, anthropology, and political science to design and implement human service interventions for similar communities using techniques of action research, community organization, and demonstration projects. *Social Work Intervention in an Economic Crisis* shows readers relatively simple and highly effective ways of assessing the social economic situation in their given geographical area. This allows professionals to be in touch with their surrounding communities and estimate the clientele to be served, their particular needs, and their abilities to access services. Chapters in *Social Work Intervention in an Economic Crisis* describe the responses of local institutions, the roles of informal and formal support networks, and the economic devastation inflicted upon individuals, households, and whole communities. To this end, Hide Yamatani, Lambert Maguire, Robin K. Rogers, and Mary Lou O. Kennedy take the socioeconomic pulse of six communities, launching a longitudinal monitoring effort that can be replicated elsewhere for long range planning and intervention. Martha Baum, Barbara K. Shore, and Kathy Fleissner address the special problems women face. Mary Page and Myrna Silverman focus upon the elderly and their families. Phyllis D. Coontz, Judith A. Martin, and Edward W. Sites look at fathers facing altered childrearing, and Lambert Maguire and Hide Yamatani discuss youth facing altered economic opportunities. With this knowledge in hand, readers acquire skills for using action research to assess how economic tragedy affects people's lives, mobilizing appropriate actors to engage in intervention, learning from community groups and leaders about their concerns to work with them rather than for them, recognizing the properties of community cohesion versus fragmentation as they affect efforts of renewal, identifying individuals and families suffering most under economic devastation, realizing the limits of micro level intervention, generating macro policies at the state and federal levels, disseminating findings from action research and intervention demonstration efforts. Finally, *Social Work Intervention in an Economic Crisis* offers proposals for new societal mechanisms that might reduce the impact of future recessions. The findings and policy proposals set forth in this book help households and institutions deal with the effects of economic change which continue to afflict many families and small communities in the 1990s.

The Jobless Future Stanley Aronowitz, 1994

The Jobless Future

challenges beliefs in the utopian promise of a knowledge based high technology economy Reviewing a vast body of encouraging literature about the postindustrial age Aronowitz and DiFazio conclude that neither theory history nor contemporary evidence warrants optimism about a technological economic order Instead they demonstrate the shift toward a massive displacement of employees at all levels and a large scale degradation of the labor force As they clearly chart a major change in the nature scope and amount of paid work the authors suggest that notions of justice and the good life based on full employment must change radically as well They close by proposing alternatives to our dying job culture that might help us sustain ourselves and our well being in a science and technology based economic future One alternative discussed is reducing the workday to fewer hours without reducing pay

The Cul-de-Sac Syndrome John F. The End of the Line Kathryn Marie Dudley, 1997-06-23 This volume tells the story of what the 1988 closing of the Chrysler assembly plant in Kenosha Wisconsin meant to the people who lived in that town Through interviews with displaced autoworkers and other members of the community it dramatizes the lessons Kenoshans drew from the plant shutdown This volume tells the story of what the 1988 closing of the Chrysler assembly plant in Kenosha Wisconsin meant to the people who lived in that company town Since the early days of the 20th century Kenosha had forged its identity and politics around the interests of the auto industry When nearly 6000 workers lost their jobs in the shutdown the community faced not only a serious economic crisis but also a profound moral one In this study Dudley describes the painful often confusing process of change that residents of Kenosha like the increasing number of Americans who are caught in the crossfire of de industrialization were forced to undergo Through interviews with displaced autoworkers and Kenosha's community leaders high school counsellors and a rising class of upwardly mobile professionals Dudley dramatizes the lessons Kenoshans drew from the plant shutdown

Voices of Guinness Tim Strangleman, 2019-05-02 Imagine a workplace where workers enjoyed a well paid job for life one where they could start their day with a pint of stout and a smoke and enjoy free meals in silver service canteens and restaurants During their breaks they could explore acres of parkland planted with

hundreds of trees and thousands of shrubs Imagine after work a place where employees could play more than thirty sports or join one of the theater groups or dozens of other clubs Imagine a place where at the end of a working life you could enjoy a company pension from a scheme to which you had never contributed a penny Imagine working in buildings designed by an internationally renowned architect whose brief was to create a building that would last a century or two This is no fantasy or utopian vision of work but a description of the working conditions enjoyed by employees at the Guinness brewery established at Park Royal in West London in the mid 1930s In this book Tim Strangleman tells the story of the Guinness brewery at Park Royal showing how the history of one plant tells us a much wider story about changing attitudes and understandings about work and the organization in the twentieth and early twenty first centuries Drawing on extensive oral history interviews with staff and management as well as a wealth of archival and photographic sources the book shows how progressive ideas of workplace citizenship came into conflict with the pressure to adapt to new expectations about work and its organization Strangleman illustrates how these changes were experienced by those on the shop floor from the 1960s through to the final closure of the plant in 2005 This book asks striking and important questions about employment and the attachment workers have to their jobs using the story of one of the UK and Ireland s most beloved brands Guinness

Forced Choices Charles S. Indiana Taken together these case studies describe the effective dismantling of much of our nation's postwar productive structure and industrial relations system Beyond documenting the damage that has been done Grand Designs articulates the conditions under which local labor community coalitions can win important victories If they are adequately informed and organized such coalitions can play a crucial part in revising the terms of the national debate over public policy on labor and economic issues Remembering D. Pollock, 2017-02-28 Drawing on the work of scholars and practitioners such as Augusto Boal Gloria Anzaldua and Trinh Minh ha these essays advocate oral history and oral history based performance as means to challenge and expand upon traditional ways of transmitting historical knowledge The contributors central concerns are performative aspects of oral history itself and the theatrical or classroom re performance of oral history The essays detail classroom and public pedagogies community based interventions processes of developing interview based performances and the ethical and political implications of oral history as an embodied form of representation The essays collected in this volume present the most current scholarship straddling the rich intersection between oral history and performance and together suggest ways for scholars and performers to use oral history to challenge more traditional modes of knowledge
