The Warrior Prophet: Muhammad ﷺ and War Joel Hayward, 2023-01-02 Given the Prophet Muhammad's immense impact on history surprisingly few books specifically analyze his understanding and employment of warfare as an economically politically and socially transformational process even though he was continuously at war for a decade and initiated around eighty armed missions twenty seven of which he led himself Most Islamic biographies deal with this issue by using an understandable but insufficient logic that because Muhammad as the Messenger of Allah was the ideal and paradigmatic human he must have been an ideal and paradigmatic military commander His successes flowed from his prophetic status and his moral perfection Following this logic and wanting Muhammad's behavior to conform to very modern ethical concepts and widespread but not necessarily accurate beliefs about the nature and conduct of war the writers have inadvertently created a narrative which in significant ways departs from the account clearly and consistently revealed in the earliest extant Arabic sources The writers narrative also removes the Prophet from his historical and cultural context and the realities of the harsh and competitive tribal society in which he lived Professor Joel Hayward sees this as an unhelpful explanatory tendency and believes that the modern depiction of the Prophet's relationship with warfare which presents him as being rather antipathetic to war indeed as virtually a pacifist who only fought reluctantly in self defense cannot actually be sustained by an even handed analysis of the early Islamic sources A committed Muslim himself Hayward agrees that Muhammad was a moral and decent man who saw peace as a highly desirable state in which humans should live and as a goal worth pursuing Yet Hayward has approached the Prophet's understanding and employment of warfare from a different vantage point He has painstakingly scrutinized the earliest Arabic sources impartially according to the strict standards of historical inquiry in order to ascertain whether Muhammad's actions habits and methods can when understood within their original seventh century stateless Arabian context provide any substantial and meaningful insights into the way that he understood and undertook warfare Hayward concludes that Muhammad was an astute situationally aware and self reflective man who created and communicated a believable strategic vision of a necessary and desirable future That vision persuaded increasing numbers of people to follow him and risk everything willingly in the struggle to create the optimal conditions for their survival security and prosperity In a competitive and conflictual environment with ubiquitous threats warfare was necessary to make real the bold new world that he foresaw Through original meticulously researched and rigorous analysis Hayward covers all the raids and campaigns and demonstrates that Muhammad correctly understood the necessity and utility of force and duly developed into an intuitive

effective and victorious military practitioner who developed and enforced a strict moral code so as to attain his goals whilst safeguarding the innocent This engaging accessible yet deeply scholarly book makes a major contribution to strategic and military analysis and to the Prophet s biography **The Pasha's Bedouin** Reuven Aharoni,2007-03-12 Providing a new perspective on tribal life in Egypt under Mehmet Ali s rule this book looks at the social and conceptual aspects of the Bedouin tribes during this period **Serendipity in Anthropological Research** Haim Hazan,2016-04-15 Challenging the idea that fieldwork is the only way to gather data and that standard methods are the sole route to fruitful analysis Serendipity in Anthropological Research explores the role of fortune and happenstance in anthropology It conceives of anthropological research as a lifelong nomadic journey of discovery in which the world yields an infinite number of unexplored issues and innumerable ways of studying them each study producing its own questions and demanding its own methodologies Drawing together the latest research from a team of senior scholars from around the world to reflect on the experience of research Serendipity in Anthropological Research presents rich new case studies from Europe and the Middle East to examine both new and old questions in novel and enriching ways An engaging examination of methodology and anthropological fieldwork this book will appeal to all those concerned with writing ethnography [A History of the Arab Peoples](#) Albert Habib Hourani,Albert Hourani,2002 Chronicles the history of Arab civilization looking at the beauty of the great mosques the importance attached to education the achievements of Arab science the role of women internal conflicts and the Palestinian question **Nomad-State Relationships in International Relations** Jamie Levin,2020-04-06 This book explores non state actors that are or have been migratory crossing borders as a matter of practice and identity Where non state actors have received considerable attention amongst political scientists in recent years those that predate the state nomads have not States however tend to take nomads quite seriously both as a material and ideational threat Through this volume the authors rectify this by introducing nomads as a distinct topic of study It examines why states treat nomads as a threat and it looks particularly at how nomads push back against state intrusions Ultimately this exciting volume introduces a new topic of study to IR theory and politics presenting a detailed study of nomads as non state actors [Sustainable Development](#) Paul Sillitoe,2014-08-01 With growing evidence of unsustainable use of the world s resources such as hydrocarbon reserves and related environmental pollution as in alarming climate change predictions sustainable development is arguably the prominent issue of the 21st century This volume gives a wide ranging introduction focusing on the arid Gulf region where the challenges of sustainable development are starkly evident The Gulf relies on non renewable oil and gas exports to supply the world s insatiable CO2 emitting energy demands and has built unsustainable conurbations with water supplies dependent on energy hungry desalination plants and deep aquifers pumped beyond natural replenishment rates Sustainable Development has an interdisciplinary focus bringing together university faculty and government personnel from the Gulf Europe and North America including social and natural scientists environmentalists and economists architects and planners to discuss topics

such as sustainable natural resource use and urbanization industrial and technological development economy and politics history and geography

Arabs in the Early Islamic Empire Ulrich Brian Ulrich, 2019-05-09 Examining a single broad tribal identity al Azd from the immediate pre Islamic period into the early Abbasid era this book notes the ways it was continually refashioned over that time It explores the ways in which the rise of the early Islamic empire influenced the peoples of the Arabian Peninsula who became a core part of it and examines the connections between the kinship societies and the developing state of the early caliphate This helps us to understand how what are often called tribal forms of social organisation identity conditioned its growth and helped shape what became its common elite culture Studying the relationship between tribe and state during the first two centuries of the caliphate author Brian Ulrich s focus is on understanding the survival and transformation of tribal identity until it became part of the literate high culture of the Abbasid caliphate and a component of a larger Arab ethnic identity He argues that from pre Islamic Arabia to the caliphate greater continuity existed between tribal identity and social practice than is generally portrayed

Blood Revenge Joseph Ginat, 2013-09-01 Covers blood homicide and outcasting in Bedouin and rural Arab society in Israel This edition includes material on the Mebasha a Bedouin legal judge who determines whether an individual speaks the truth by an ordeal by fire licking a very hot spoon and inspecting the tongue for blisters

Let Shepherding Endure Gideon M. Kressel, 2012-02-01 Examining the crucial problems confronting present day livestock breeders principally Bedouin and Jews in Israel but also pastoral nomads in neighboring Middle Eastern countries Let Shepherding Endure proposes new ways for these governments to enhance and sustain the long term future development of shepherding communities Adopting a broad historical and anthropological perspective on the topic and assessing various pastoral relief programs Kressel proposes an alternative

program whereby the region's states would promote a brand of pastoralism that preserves rangeland herding while keeping in step with the contemporary cultural and political context. This truly visionary set of recommendations would have several dividends especially for the Bedouin: their cultural legacy in danger of obsolescence would be preserved while at the same time enhancing both their pastoral skills and ability to secure a livelihood from herding.

Nomadic Societies in the Middle East and North Africa Dawn Chatty, 2018-11-12. A scholarly volume devoted to an understanding of contemporary nomadic and pastoral societies in the Middle East and North Africa. This volume recognizes the variable mobile quality of the ways of life of these societies which persist in accommodating the nation state of the 20th and 21st century but remain firmly transnational and highly adaptive. Composed of four sections around the theme of contestation, it includes examinations of contested authority and power, space and social transformation, development and economic transformation, and cultures and engendered spaces.

Ascendancy Through Aggression Gideon M. Kressel, 1996. Islamic Political Movements and Authority in the Arab World: The Rise and Fall Prof. Jamal Sanad Al-Suwaidi, 2014. Islamic Political Movements and Power in the Arab World. The Rise and Fall represents a comprehensive study of contemporary Islamic political movements and their prospects. Undertaken by the Emirates Center for Strategic Studies and Research and employing a scholarly methodological approach, it addresses the prominent transformations that have occurred within certain Islamic political organizations as a result of what the media have dubbed the Arab Spring, namely those Islamic parties and movements which came to power in Egypt, Tunisia, and Morocco. In addition, new Islamic parties and organizations have emerged, thus re-shaping the political environments of several Arab countries. This volume provides an examination of the political rise of Islamists in the wake of the so-called Arab Spring and deconstructs the experience of Islamic political parties and movements in government. It discusses the negative effects and implications of Islamists' efforts to inject religion into the practice of politics and to politicize religion, which have led to increased religious and political polarization in a number of Arab countries and undermined efforts to build the national consensus needed to achieve peace, economic development, social justice, and democratic transformation. The authors of the papers presented herein raise pertinent questions concerning the future of Islamic political movements in the Arab World, particularly in light of certain movements' negative experiences of governance, the internal developments being witnessed in various Arab countries, and the regional and international transformations affecting the Arab world as a whole.

Historical Dictionary of the Bedouins Muhammad Suwaed, 2015-10-30. The term Bedouins was given to nomads who came from or lived in the desert and consisted of a sedentary population from the badia desert. However, in time, it came to define their social-economic essence as people who raised grazing animals and were compelled to conduct a nomadic life: to live in tents that could be dismantled, carried, and re-erected easily, and to move with their livelihood and living accommodation according to the environmental conditions, those which provided water and grass. Not all Bedouin tribes are of Arabic origin; as all Muslim nomadic groups in the area adopted the term Bedouins. There are

Bedouin tribes of Turkmen Kurdish Baluch and Berberic origin and there are Arabized African people and hybrid people who are categorized as Bedouins The Historical Dictionary of the Bedouins contains a chronology an introduction an extensive bibliography The dictionary section has over 300 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about the Bedouins

Home and Homeland Linda L. Layne, 2019-01-15 In this provocative examination of collective identity in Jordan Linda Layne challenges long held Western assumptions that Arabs belong to easily recognizable corporate social groups Who is a true Jordanian Who is a true Bedouin These questions according to Layne are examples of a kind of pigeonholing that has distorted the reality of Jordanian national politics In developing an alternate approach she shows that the fluid social identities of Jordan emerge from an ongoing dialogue among tribespeople members of the intelligentsia Hashemite rulers and Western social scientists Many commentators on social identity in the Middle East limit their studies to the village level but Layne s goal is to discover how the identity building processes of the locality and of the nation condition each other She finds that the tribes creates their own cultural homes through a dialogue with official nationalist rhetoric and Jordanian urbanites while King Hussein in turn maintains the idea of the homeland in many ways that are powerfully influenced by the tribespeople The identities so formed resemble the shifting irregular shapes of postmodernist landscapes but Hussein and the Jordanian people are also beginning to use a classically modernist linear narrative to describe themselves Layne maintains however that even with this change Jordanian identities will remain resistant to all or nothing descriptions Linda L Layne is Alma and H Erwin Hale Teaching Professor of Humanities and Social Sciences in the Department of Science and Technology Studies at Rensselaer Polytechnic Institute Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
