and Modernist Carpets Susan Day,2002-10 In 1927 the critic Rene Chavance identified carpet production as the most
successful of the decorative arts in achieving the more visionary aims of the times Susan Day s book a work of original
scholarship accompanied throughout by illustrations both of the carpets themselves and of contemporary interiors
demonstrates that these Art Deco carpets have lost none of their decorative power A significant number of the carpets are
shown precisely as they were meant to be seen within the rooms for which they were made The fruits of the remarkable Art
Deco efflorescence throughout Europe form the first part of the book In the second the focus turns to the reaction against the
artistes decorateurs by the champions of modernism In France the designs of Sonia Delaunay Eileen Gray and Jean Lurcat
evoked collage and Cubism the Bauhaus and Scandinavia provided different influences The fashion for abstract and
modernist rugs was further stimulated by limited editions of rugs woven from works by such artists as Picasso Klee and Miro
while in the USA designers developed a style that was distinctly American This visual feast of appeal not only to carpet
collectors and textile specialists but to anyone with an interest in 20th century design ranges from the supremely imaginative
achievements of Paul Poiret s unique weaving studio the Ecole Martine to the Scandinavian folk traditions of Marta Maas
Fjetterstrom the innovations of Frank Lloyd Wright and Donald Deskey in the USA and Gunta Stolzl s handwoven carpets in
Germany The book s invaluable reference section includes detailed information on artists manufacturers and retailers their

Dillon, 2025-04-15 Cultural Ecologies of the Land is a radical and challenging reassessment of the way we relate to the land and to infrastructure There was a time when the land defined us Now with each passing year we are increasingly detached from it It was once the centre stage of humanity now it is the setting for a technological drama What has happened and why does it matter This book is a multi layered account of people and environment shaping each other through cumulative moment to moment day to day change and a template for thinking about place locality belonging and identity Cultural Ecologies of the Land presents the existential crisis that many believe we now face as a systemic problem arising from social institutions and forms of behaviour that have been marginalised with our dependency on modern infrastructure It explains the part people have played in contributing to the crisis and how regenerating relationships with the land offers a route towards alleviating it This is not only about acknowledging our impact on Earth but also about understanding ourselves in
