

RESEARCH METHODOLOGIES

Research methodologies can roughly be categorized into three groups: quantitative, qualitative, and mixed-methods.

QUALITATIVE RESEARCH

Qualitative research investigates human experiences and behavior through non-numerical data collection and analysis.

QUANTITATIVE RESEARCH

Quantitative research examines relationships between variables using numerical data and statistical techniques.

MIXED METHODS RESEARCH

Mixed methods research combines qualitative and quantitative approaches to provide a more holistic understanding of a research question.

Quasi-Experimentation Charles S. Reichardt, 2019-08-15 Featuring engaging examples from diverse disciplines this book explains how to use modern approaches to quasi experimentation to derive credible estimates of treatment effects under the demanding constraints of field settings Foremost expert Charles S Reichardt provides an in depth examination of the design and statistical analysis of pretest posttest nonequivalent groups regression discontinuity and interrupted time series designs He details their relative strengths and weaknesses and offers practical advice about their use Reichardt compares quasi experiments to randomized experiments and discusses when and why the former might be a better choice Modern methods for elaborating a research design to remove bias from estimates of treatment effects are described as are tactics for dealing with missing data and noncompliance with treatment assignment Throughout mathematical equations are translated into words to enhance accessibility

Digital Storytelling for Educative Purposes Phillip Alexander Towndrow, Galyna Kogut, 2020-11-28 This book is an exposition of a curriculum innovation within the complex yet fertile ground of school based education in Singapore Beyond straightforward descriptions and protocols this book purposefully connects classroom practices with theories in a clear uncomplicated way The result provides a series of rationales for action reflection and understanding that other publications in digital storytelling sometimes fail to cover or explain in sufficient detail Broadly these include digital multimodal authorship teachers and students storytelling task design and assessment the use of digital storytelling as a reflective and reflexive expression of teachers professionalism and dialogism in classroom practice

Cultural Sport Psychology and Elite Sport in Singapore Nicholas de Cruz, 2022-05-05 Guided by the principles of cultural sport psychology CSP this book explores the psychosocial issues surrounding elite sport and psychological practice in Singapore CSP recognises the importance of understanding people as individuals rather than objectifying and interpreting psychological processes independent of the socio cultural context in which they stem from For sport psychology to progress it is imperative to distinguish and appreciate the difference between treating someone the same i.e. culturally blind approach and treating them equally i.e. possess cultural awareness To address the paucity of cultural specific research this book explores the psychosocial issues of elite sport in Singapore using CSP as a theoretical and guiding philosophy Given Singapore's recent successes at the Olympic and Paralympic levels this book is ideally timed to investigate the social and cultural developments of elite sport as they occur in a specific sociocultural context The authors argue that if elite sport and sport psychology is to progress in Singapore there is a need to refine its elite ecosystem regulate the practice

of sport psychology and work towards establishing a professional community centred around a culture of constructive exchange debate and cooperation This book presents a blueprint to any researcher national institute or practitioner to systematically explore the culture and context within which they operate and organise action plans to address unique needs that were identified through this process
