Sacralization Of A Social Order:

The Hindu Caste System: The sacralization of a social order Harold Alton Gould,1987 Rethinking Social
Theory Roger Sibeon,2004-03-27 Identifies and explores unresolved controversies and ambiguities in present day
sociological theorizing Explaining Evil J. Harold Ellens,2011-02-18 In this three volume set international scholars from
across a broad spectrum of scholarly fields examine the concept of evil throughout history and world cultures from religious
scientific psychological and political perspectives The manifestation of evil has provided a convenient theme for popular
culture entertainment ranging from the classic film The Exorcist to almost all of Stephen King s horror novels to video games
such as Resident Evil Unfortunately dealing with and attempting to overcome the forces of evil is a pervasive problem in the
real world as well Explaining Evil addresses incidents of evil from ancient times to modern day around the globe Concepts of
evil within the big three religions Christianity Judaism and Islam are examined as well as in Chinese philosophy and Native
American beliefs The political or national expressions of evil are explored such as the axis of evil that culminated in World
War II These volumes identify the causes and effects of evil and suggest possible remedies to humanity s inescapable flaw

The Power of the Sacred Hans Joas, 2021-02-16 Disenchantment is a key term in the self understanding of modernity But what exactly does this concept mean What was its original meaning when Max Weber introduced it And can the conventional meaning or Max Weber's view really be defended given the present state of knowledge about the history of religion In The Power of the Sacred Hans Joas develops the fundamentals of a new sociological theory of religion by first reconstructing existing theories from the eighteenth century to the present Through a critical reading and reassessment of key texts in the three empirical disciplines of history psychology and sociology of religion including the works of David Hume I G Herder Friedrich Schleiermacher William James Emile Durkheim and Ernst Troeltsch Joas presents an understanding of religion that lays the groundwork for a thorough study of Max Weber's views on disenchantment After deconstructing Weber's highly ambiguous use of the concept Joas proposes an alternative to the narratives of disenchantment and secularization which have dominated debates on the topic He constructs a novel interpretation that takes into account the dynamics of ever new sacralizations their normative evaluation in the light of a universalist morality as it first emerged in the Axial Age and the dangers of the misuse of religion in connection with the formation of power Built upon the human experience of self transcendence rather than human cognition or cultural discourses The Power of the Sacred challenges both believers and non believers alike to rethink the defining characteristics of Western modernity India's Silent Revolution Christophe Jaffrelot, 2003 Jaffrelot argues that the trend towards lower caste representation in national politics constitutes a genuine democratization of India and that the social and economic effects of this silent revolution are bound to multiply in the years Islam & Politics Afghanistan N Asta Olesen, 2013-01-11 The years 1978 and 1979 were dramatic throughout to come south and western Asia In Iran the Pahlavi dynasty was toppled by an Islamic revolution In Pakistan Zulfigar Ali Bhutto was

hanged by the military regime that toppled him and which then proceeded to implement an Islamization programme Between the two lay Afghanistan whose Saur Revolution of April 1978 soon developed into a full scale civil war and Soviet intervention The military struggle that followed was largely influenced by Soviet US rivalry but the ideological struggle followed a dynamic of its own Drawing on a wide range of sources including such previously unused archival material as British Intelligence reports this is a detailed study of the Afghan debate on the role of Islam in politics from the formation of the modern Afghan state around 1800 to the present day Emile Durkheim Stephen Turner, 2003-09-02 International scholarship over the last twenty years has produced a new understanding of Emile Durkheim as a thinker It has contributed to reassembling what for Durkheim was always a whole a sociological selection on morals and moral activism This volume presents an overview of Durkheim s thought and is representative of the best of contemporary Durkheim scholarship

Sacralization and Secularization Roger Aubert, 1969 Moral Order and Social Disorder Frank Hearn, 2017-09-29 Drawing upon both classical insights and more recent writings Hearn provides a compelling account of social breakdown in the United States The book examines the conditions most responsible for the deterioration of social institutions notably the family and of communitarian interdependencies such as those that support neighborhoods More specifically Hearn analyzes the defining forces of liberal modernity among them especially the market economy favored by the political right and the democratic welfare state endorsed by the political left whose steady expansion has diminished the social contexts that nurture trust mutuality and a robust sense of both personal responsibility and social obligation The originality of Hearn's book lies in the solutions he proposes which differ from those rooted in what Hearn calls the languages of modernity Hearn advocates modes that would serve instead to renew solidarity and reclaim social virtue a repertory of strategies that would answer Emile Durkheim's call for the creation of moral individualism. He assesses various approaches to revitalizing the social settings the social institutions and communitarian structures within which people become moral individuals capable of care about and taking responsibility for the fates of others Readers of this book are invited to draw their own conclusions by relying in larger part on themselves as parents neighbors community members and citizen participants in a civil society in restoration As the American Journal of Sociology notes the book succeeds in its goals and it deserves to be widely read Frank Hearn was professor of sociology at the State University of New York College of Cortland and the author of Reason and Freedom in Sociological Thought and The Transformation of Industrial Organization Movement Or Moment? Patrick Claffey, Joe Egan, 2009 This collection of essays was written to mark the fortieth anniversary of the Second General Conference of Latin American Bishops which convened at Medell n Colombia in 1968 Inspired by the Second Vatican Council and seeking to implement its vision the bishops viewed the occasion as a decisive one for Latin America which they saw as standing on the threshold of a new epoch in the history of our continent It appears to have been a time full of zeal for emancipation of liberation from every form of servitude of personal maturity and of collective integration Forty years later

however it is appropriate to remember the event and to review the significance of liberation theology in light of all that has happened during the intervening period The colloquium at the Milltown Institute Dublin which led to this book sought to do precisely that to establish where liberation theology now stands by questioning whether it really is a significant theological and ecclesial movement or merely a moment whose time has passed and to investigate its enduring legacy *The Ultimate Sacrifice* Clayton Fordahl,2020-03-05 This book presents an interpretive macro historical and sociological account of martyrdom Moving away from the notion of martyrdom as an object of individual behavior and seeing it instead as a significant cultural work performed by communities in the wake of a violent death it provides a novel interpretation of Western political and religious history In addition to thus redressing the disproportionate attention given to the concept s relationship to Islam the author offers a new perspective on two defining historical processes secularization and the rise of modern sovereignty in the form of the nation state An innovative analysis of the role of sacrifice in contemporary culture which constitutes a timely critique of long dominant theories of disenchantment and the privatization of religion The Ultimate Sacrifice will appeal to sociologists and social theories with interests in religion politics and the connection between the two

Durkheimian Sociology Jeffrey C. Alexander, 1990-09-13 The classic works of Emile Durkheim are characterized by a structural approach to the understanding of collective behaviour and it is this element of his writings that has been most taken up by modern social science This volume however rejects the dominant structural approach and draws instead on Durkheim's later work in which he shifted to a symbolic theory of modern industrial societies that emphasized the importance of ritual and placed the tension between the sacred and the profane at the center of society In so doing the contributors offer both a radically different approach to Durkheimian sociology and a new way of linking the interpretation of culture and the interpretation of society In his introduction to the volume Jeffrey Alexander elaborates the new interpretation of Durkheim that informs the contributions His arguments form a background for the lively and provacative chapters that follow which provide broadly cultural interpretations of such topics as popular upheavals and social movements ranging from the French Revolution to the massive rebellions in Poland and Nicaragua in the 1980s political crisis from Watergate to the crisis of legitimation in contemporary capitalism and the creative and contingent element in symbolic behaviour including the symbolics of intimate friendship and the ritual and rhetoric of media events In addition to re examining Durkheimian sociology the essays also demolish the myth that attention to cultural values implies conservatism or the inability to analyze social change and challenge the common antithesis between normative theory and microsociology Its exploration of the links between Durkheimian sociology and the most important developments in contemporary sociology history anthropology and semiotics will ensure it a broad appeal across the social sciences The Culture of Secrecy in Japanese Religion Bernhard Scheid, Mark Teeuwen, 2015-04-22 The Japanese Middle Ages were a period when forms of secrecy dominated religious practice. This fascinating collection traces out the secret characteristics and practices in Japanese religion as well as analyzing the decline of religious esotericism in Japan The essays in this impressive work refer to Esoteric Buddhism as the core of Japan s culture of secrecy Esoteric Buddhism developed in almost all Buddhist countries of Asia but it was of particular importance in Japan where its impact went far beyond the borders of Buddhism also affecting Shinto as well as non religious forms of discourse The contributors focus on the impact of Esoteric Buddhism on Japanese culture and also include comparative chapters on India and China Whilst concentrating on the Japanese medieval period this book will give readers familiar with present day Japan many explanations for the still visible remnants of Japan s medieval culture of secrecy

Virtuosity, Charisma and Social Order Ilana Friedrich-Silber, 1995-04-28 This book is a comparative macrosociological study of the interaction between religious virtuosi and society in two civilizations traditional Theravada Buddhism and Medieval Catholicism Merging Weberian sociology with the Maussian tradition of gift analysis and criticizing the neglect of meaning in current comparative historical sociology the author also argues the need for a multidimensional approach capable of addressing the part played by religious orientations in shaping the institutional strength and ideological power of religious elites in the historical framework of the Great Traditions Art in the Social Order Preben Mortensen, 1997-01-01 Seeks to replace the dominant approaches to the question of the nature of art in contemporary English speaking analytic philosophy with a historicist approach that emphasizes localized cultural historical narratives The Moral Neoliberal Andrea Muehlebach, 2012-06-12 Morality is often imagined to be at odds with capitalism and its focus on the bottom line but in The Moral Neoliberal morality is shown as the opposite an indispensable tool for capitalist transformation The author tracks the phenomenal rise of voluntarism in the wake of the state s withdrawal of social service programmes Transcendence ,2021-12-06 When Politics Are Sacralized Nadim N. Rouhana, Nadera Shalhoub-Kevorkian, 2021-05-27 This book provides a comparative interdisciplinary analysis of the invocation and interaction of religious and national assertions in sacralizing local and global politics Religious Plurality in Africa Jacob K. Olupona, Sulayman S. Nyang, 2013-03-01 The series Religion and Society RS contributes to the exploration of religions as social systems both in Western and non Western societies in particular it examines religions in their differentiation from and intersection with other cultural systems such as art economy law and politics Due attention is given to paradigmatic case or comparative studies that exhibit a clear theoretical orientation with the empirical and historical data of religion and such aspects of religion as ritual the religious imagination constructions of tradition iconography or media In addition the formation of religious communities their construction of identity and their relation to society and the wider public are key issues of this series The SAGE Handbook of the Sociology of Religion James A Beckford, Jay Demerath, 2007-10-29 In their introduction to this Handbook the editors affirm Many sociologists have come to realise that it makes no sense now to omit religion from the repertoire of social scientific explanations of social life I wholeheartedly agree I also suggest that this wide ranging set of essays should become a starting point for such enquiries Each chapter is clear comprehensive and well structured making the Handbook a real

asset for all those engaged in the field Grace Davie University of Exeter Serious social scientists who care about making sense of the world can no longer ignore the fact that religious beliefs and practices are an important part of this world This Handbook is a valuable resource for specialists and amateurs alike The editors have done an exceptionally fine job of incorporating topics that illuminate the range and diversity of religion and its continuing significance throughout the world Robert Wuthnow Princeton University At a time when religions are increasingly affecting and affected by life beyond the narrowly sacred sphere religion everywhere seems to be caught up in change and conflict In the midst of this contention and confusion the sociology of religion provides a rich source of understanding and explanation This Handbook presents an unprecedentedly comprehensive assessment of the field both where it has been and where it is headed Like its many distinguished contributors its topics and their coverage are truly global in their reach The Handbook s 35 chapters are organized into eight sections basic theories and debates methods of studying religion social forms and experiences of religion issues of power and control in religious organizations religion and politics individual religious behaviour in social context religion self identity and the life course and case studies of China Eastern Europe Israel Japan and Mexico Each chapter establishes benchmarks for the state of sociological thinking about religion in the 21st century and provides a rich bibliography for pursuing its subject further Overall the Handbook stretches the field conceptually methodologically comparatively and historically An indispensable source of guidance and insight for both students and scholars Choice Outstanding Academic Title 2009
