Sacred And Secular Religion And Politics Worldwide:

Sacred and Secular Pippa Norris, Ronald Inglehart, 2004-09-20 Seminal thinkers of the nineteenth century Auguste Comte Herbert Spencer Emile Durkheim Max Weber Karl Marx and Sigmund Freud all predicted that religion would gradually fade in importance and cease to be significant with the emergence of industrial society The belief that religion was dying became the conventional wisdom in the social sciences during most of the twentieth century During the last decade however the secularization thesis has experienced the most sustained challenge in its long history The traditional secularization thesis needs updating Religion has not disappeared and is unlikely to do so Nevertheless the concept of secularization captures an important part of what is going on This book develops a theory of secularization and existential security Sacred and Secular is essential reading for anyone interested in comparative religion sociology public opinion political behavior political development social psychology international relations and cultural change **Sacred and Secular** Pippa Norris, 2004 The belief that religion was dying became the conventional wisdom in the social sciences during most of the 20th century However religion has not disappeared and is unlikely to do so and the secularization thesis needs updating This text develops a theory of secularization and existential security **Sacred and Secular** Pippa Norris, 2004

Sacred and Secular Pippa Norris, 2004-09-27 Sacred and Secular examines the validity of the secularization thesis

Sacred and Secular Associate Director of the Joan Shorenstein Center Pippa Norris, Pippa Norris, Ronald Inglehart, 2011 This book develops a theory of secularization and existential security demonstrating that the publics of virtually all advanced industrial societies have been moving toward more secular orientations during the past fifty years but also that the world as a whole now has more people with traditional religious views than ever before **The Oxford Handbook of Religion, Conflict, and Peacebuilding** Atalia Omer, R. Scott Appleby, David Little, 2015 The book provides a comprehensive overview of the literature on religion conflict and peacebuilding With a focus on structural and cultural violence the volume also offers a cutting edge interdisciplinary reframing of the scope of scholarship in the field **Political Secularism, Religion, and the State** Jonathan Fox, 2015-04-16 This book examines 111 types of state religion policy in 177 countries between 1990 and 2008 Jonathan Fox argues that policy is largely a result of the competition between political secular actors and religious actors both of which try to influence state religion policy While there are other factors that influence state religion policy and both the secular and religious camps are divided Fox offers that the secular religious competition perspective provides critical insight into the nature of religious politics across the globe While many states have both increased and decreased their involvement in religion Fox demonstrates that states which have become more involved in religion are far more common **Weapon of Peace** Nilay Saiya, 2018-08-23 Religious terrorism poses a significant challenge for many countries around the world Extremists who justify violence in God's name can be found in every religious tradition and attacks perpetrated by faith based militants have increased dramatically over the past three decades Given the reality of religious

terrorism today it would seem counterintuitive that the best weapon against violent religious extremism would be for countries and societies to allow for the free practice of religion yet this is precisely what this book argues *Weapon of Peace* investigates the link between terrorism and the repression of religion both from a historical perspective and against contemporary developments in the Middle East and elsewhere Drawing upon a range of different case studies and quantitative data Saiya makes the case that the suppression and not the expression of religion leads to violence and extremism and that safeguarding religious freedom is both a moral and strategic imperative

Global Secularisms in a Post-Secular Age Michael Rectenwald, Rochelle Almeida, George Levine, 2015-10-16 *Global Secularisms* addresses the state of and prospects for secularism globally Drawing from multiple fields it brings together theoretical discussion and empirical case studies that illustrate on the ground extant secularisms as they interact with various religious political social and economic contexts Its point of departure is the fact that secularism is plural and that various secularisms have developed in various contexts and from various traditions around the world Secularism takes on different social meanings and political valences wherever it is expressed The essays collected here provide numerous points of contact between empirical case studies and theoretical reflection This multiplicity informs and challenges the conceptual theorization of secularism as a universal doctrine Analyses of different regions enrich our understanding of the meanings of secularism providing comparative range to our notions of secularity Theoretical treatments help to inform our understanding of secularism in context enabling readers to discern what is at stake in the various regional expressions of secularity globally While the bulk of the essays are case based research the current thinking of leading theorists and scholars is also included

Mission and Evangelism in a Secularizing World Narry F. Santos, Mark Naylor, 2019-02-14 Secularization as a movement away from a religious orientation to life is strong in Canada and has influence worldwide In this volume missiologists and practitioners across Canada consider how an agenda of Christian mission and evangelism can be advanced in a secularizing environment How can believers be curious and engaged rather than defensive and fearful What changes are required from the evangelical community so that there is productive dialogue and action in ways that maintain faithfulness to the cause of Christ What should the approach of mission be to a new generation steeped in secular narratives How do we answer negative caricatures of Christian mission in light of the history of Residential Schools What examples from the past teach us about developing an irenic approach What positive trends are currently evident in Canada and around the world that counter the secularizing narrative These questions and more are considered in this volume by Canadian scholars who recognize the importance of being relevant to society while maintaining integrity with the Gospel message The essays address secularism in Canadian and worldwide contexts with seriousness insight and an underlying theme of hope recognizing that God's mission has been accomplished is being accomplished and will be accomplished
