**Sacred Cows** J. A. Walter, Tony Walter, 1980      **Sacred Cows** Tony Walter, 1980      Hidden Threads Russell Heddendorf, Matthew Vos, 2009-12-08 Hidden Threads A Christian Critique of Sociological Theory provides a framework for making sense of the social world Heddendorf finds in sociological theories some hidden threads Christian principles woven into the fabric of society Early Christian thought was radical in its approach to social life Jesus provided a different concept of the person and encouraged his followers to act upon this new understanding Thus in the early centuries after Christ Christian social thought was a dynamic positive social force but today the situation differs Many Christians readily accept current interpretations of problems as valid Consequently in response to these modern explanations Christians develop a form of secularized thought which supports popular solutions and fails to critically engage with the real issues of the day Hidden Threads is an examination and Christian critique of sociological theory demonstrating appreciation for the richness of social life and holding in tension those theories that attempt to explain it      Oriented to Faith Tim Otto, 2014-07-07 Rather than embracing the conflict around gay relationships as an opportunity for the church to talk honestly about human sexuality Christians continue to hurt one another with the same tired arguments that divide us along predictable political battle lines If the world is to know that we are Christians by our love the church needs to discover better ways to live out the deep unity we share in Christ as we engage with politics and our world In Oriented to Faith Tim Otto tells the story of his struggle with being gay and what that taught him about the gospel With an authentic and compelling personal voice Tim invites us to explore how God is at work in the world even amidst the most difficult circumstances redeeming and transforming the church through this difficult debate With gentle wisdom and compassionate insight Tim invites all followers of Jesus to consider how we might work with God through these tensions so that all can be transformed by God's good news in and through Christ      **The Reality of Christian Learning** Harold Heie, David L. Wolfe, 2004-01-20 Building on foundational studies on the relationship of faith and learning this book presents concrete examples of ways in which a Christian perspective can be brought to bear on scholarship in various academic disciplines The editors present a typology of various strategies for faith discipline integration which are then exemplified by two essays in each of seven disciplines political science sociology psychology biology mathematics the arts and philosophy In each discipline a principal essayist addresses a significant issue from a Christian perspective a respondent then analyzes that essay suggesting at least one alternative approach      Making Higher Education Christian Joel A. Carpenter, Kenneth W. Shipps, 2019-04-29 This book takes stock of an important but often hidden aspect of American Protestant evangelicalism its efforts in higher education The many liberal arts colleges graduate theological seminaries and Bible colleges nationwide that serve evangelical traditions and movements have remained nearly invisible to the academic establishment until recently The essays presented here reflect a maturing community of scholarship focused on the unfinished business of developing a thoroughly Christian approach to contemporary

higher education They offer new theoretical perspectives on the aims and bases of educating candid assessments of shortcomings in evangelical scholarship and concrete suggestion for effective approaches to contemporary problems

Passing the Plate Christian Smith, Michael O Emerson, Patricia Snell, 2008-09-29 Passing the Plate shows that few American Christians donate generously to religious and charitable causes This eye opening book explores the reasons behind such ungenerous giving the potential world changing benefits of greater financial giving and what can be done to improve matters By illuminating the social and psychological forces that shape charitable giving Passing the Plate is sure to spark a much needed debate on a critical issue

Idolatry and Zoolatry Helena Petrovna Blavatsky, Maximus Tyrius, Plutarch, Simplicius of Cilicia, Thomas Taylor, 2017-12-10 It is not the Philosophers Sages and Adepts of antiquity who can ever be charged with idolatry The Greek and the Latin Churches especially are as idolatrous and pagan as any other religion With additional commentary by Simplicius and Taylor on why pagans deified dead men and by Maximus Turius and Plutarch on statues and zoolatry

*Understanding Families* George E. Dickinson, Michael R. Leming, 1995 The book will make you aware of differences in marriages and families alert you to diversity in the family stress that different does not necessarily mean better or worse and place the family in sociological historical and cross cultural perspective The book focuses too on current and emerging social trends and on public policy affecting American families The book was written with the assumption that many readers will have no other sociology or perhaps social science courses This book is not a how to cookbook on marriage and family issues but represents an approach evolving from theoretical frameworks and empirical research The book is designed primarily for undergraduate students Pref
